

June 13, 2024

Dear Bergenfield Elementary School Families:

As you head off for summer break, get ready to have some math fun! Just as teachers encourage students to continue reading throughout the summer to retain reading skills, this same attention should be given to mathematics. Regular practice over the summer with problem solving, computation, and math facts will maintain and strengthen math gains made over the school year. Attached you will find an optional summer math activity to help your child be prepared for school in September.

On the optional Math BINGO board, you will find creative activities that include measuring and counting everyday objects, math riddles, basic facts practice and math websites. The design of the activities on this board is for your child to have fun thinking and working collaboratively with you while communicating his/her mathematical ideas. While you are working on these activities, ask your child **how** he/she found that solution or **why** he/she chose that strategy. These activities help reinforce the concepts/skills your child learned this past year so that he/she can retain them over the summer.

The optional BINGO board consists of 25 “math” boxes. Your child can choose which activities they would like to complete. If your child completes at least one BINGO row (5 boxes), then they will receive a certificate in September. If your child completes the entire BINGO board, then they will receive a grade of 100% for their first homework assignment of the new school year and a certificate. After completing a box, color it in and attach any work done to come up with the answer. All completed activities must be signed by you and returned to your child’s teacher by Tuesday, September 10, 2024.

If you have any questions or concerns, please reach out to the building principal. In addition, below is a list of helpful websites to use with your child at home to prepare them for the coming school year:

www.education.com

www.playkidsgames.com/games/

www.funbrain.com

<http://coolmath4kids.com>

<http://bedtimemath.org>

www.pbs.org/parents/earlymath

www.mathplayground.com

www.math-play.com

<http://math-drills.com/>

Best wishes for a safe, healthy and happy summer!

13 de junio 2024

Estimadas familias de la escuela primaria Bergenfield:

¡Cuando te vayas para las vacaciones de verano, prepárate para divertirte con las matemáticas! Así como los maestros alientan a los estudiantes a continuar leyendo durante el verano para retener las habilidades de lectura, se debe prestar la misma atención a las matemáticas. La práctica regular durante el verano con la resolución de problemas, cálculos y operaciones matemáticas mantendrá y fortalecerá las ganancias de matemáticas durante el año escolar. Adjunto encontrará una actividad opcional de matemáticas de verano para ayudar a su hijo a estar preparado para la escuela en septiembre.

En la placa opcional Math BINGO, encontrará actividades creativas que incluyen la medición y el recuento de objetos cotidianos, acertijos matemáticos, práctica básica de los hechos y sitios web de matemáticas. El diseño de las actividades en esta pizarra es para que su hijo se divierta pensando y trabajando en colaboración con usted mientras le comunica sus ideas matemáticas. Mientras trabaja en estas actividades, pregúntele a su hijo cómo encontró esa solución o por qué eligió esa estrategia. Estas actividades ayudan a reforzar los conceptos/habilidades que su hijo aprendió el año pasado para que pueda retenerlos durante el verano.

La placa opcional BINGO consta de 25 cuadros 'matemáticos'. Su hijo puede elegir qué actividades les gustaría completar. Si su hijo completa al menos una fila de BINGO (5 casillas), recibirá un certificado en septiembre. Si su hijo completa la junta completa de BINGO, recibirá una calificación de 100% por su primera tarea del nuevo año escolar y un certificado. Después de completar un cuadro, colorearlo y adjuntar cualquier trabajo. Todas las actividades completadas deben ser firmadas por usted y devueltas a la maestra de su hijo antes del martes, 10 de septiembre de 2024.

Si tiene alguna pregunta o inquietud, comuníquese con el director del edificio. Además, a continuación hay una lista de sitios web útiles para usar con su hijo en el hogar para prepararlos para el próximo año escolar:

www.education.com

www.playkidsgames.com/games/

www.funbrain.com

<http://coolmath4kids.com>

<http://bedtimemath.org>

www.pbs.org/parents/earlymath

www.mathplayground.com

www.math-play.com

<http://math-drills.com/>

¡Mis mejores deseos para un verano seguro, saludable y feliz!

Directions: Color in each box after you have completed the activity. Return this completed BINGO card to your teacher by September 10, 2024. Show your work and attach it to this BINGO card.

BINGO 2024 Entering First Grade

Practice counting forward from numbers other than one. Start at 4... Start at 8... Start at 15...	Sort some of your toys into two groups. Tell someone your rule for sorting.	Write your first and last name. How many letters are in each? How many more letters are in your longer name?	Write a math story about $3 + 4$	Make it a half and half day! See how many things you can divide into two equal parts.
Tell a math story about $5 + 7$.	You have a machine that changes numbers. When you put the number 2 in, the machine says 6. What number does the machine add by?	Take a walk outside and make a list of things you find that are green. Count how many items you have on your list.	Describe three different ways to make 10 cents.	Draw a square, a triangle, a circle, and a rectangle. Color each a different color.
Starting from 30, count to 100.	Use a pencil to measure how long your bed is. How many pencils long is your bed?	Count the people that live in your house. How many eyes do they have altogether? How many fingers? How many toes?	Starting at 10. Count to 100 by 10s.	If you have 7 carrots and feed 4 of them to a bunny, how many do you have left?
Toss a coin ten times. How many times did it land on heads? Tails? Do this again. Did you get the same results?	Hop on your foot and count how many hops you can do. Repeat with your left. What foot could you do more hops on?	How many different ways can you make the number 20?	Estimate how many spoonfuls it will take to finish eating your cereal. Count each spoonful as you eat. How close was your estimate?	Practice counting forward from numbers other than one. Start at 9... Start at 14... Start at 26...
Practice counting backward: Start at 5... Start at 7... Start at 10...	Count the light switches in your house. Use tally marks to show your results.	How many sides does this shape have? 	Read a nonfiction book. Write a sentence or sentences telling something you learned.	Abel had ___ crayons. He found ___ more crayons under his bed. How many crayons does he have now? Fill in the blanks and write the number sentence.

Student's Name: _____ Parent/Guardian Signature: _____
