

Healthy School Act of 2000 Annual Notification Pursuant to Education Code Section 17612

On September 25, 2000, Governor Davis approved Assembly bill 2260, which established the Healthy Schools Act of 2000. The Healthy Schools Act of 2000 requires that the Western Placer Unified School District annually provide notification to all staff and parents/guardians of the names of certain pesticide & herbicide products that may be applied at the school sites within the district during the upcoming year. Attached is the list of the pesticide and herbicide products that the District may use during the current school year.

Information concerning any identified pesticide product or any active ingredients in the identified pesticide products may be obtained from the Department of Pesticide Regulation at (916) 445-4400; <https://calpip.cdpr.ca.gov/main.cfm>. If you desire notification of the pesticide applications at your school site prior to their use, contact your school office to register for such notifications. Registrants shall receive notification of individual pesticide applications at least 72 hours prior to the application, whenever possible. Such notification will include the product name, active ingredients(s) and the intended date of application. The school site integrated pest management plan can be found at each school site office or on our school district website;

<https://www.wpusd.org/departments/administrative-services/maintenance-operations>

If you have any questions regarding this issue, please contact the Maintenance & Operations Department at (916) 434-5000.

WESTERN PLACER UNIFIED SCHOOL
DISTRICT'S PESTICIDE AND HERBICIDE USE LIST

The following is a list of products that may be used on District property during the current school year.

<u>CHEMICAL NAME</u>	<u>ACTIVE INGREDIENT</u>	<u>EPA#</u>
<u>PESTICIDES</u>
