

MM Highlights

Teresa Johnson • 2 months ago • Friday, Apr 19 at 5:33 PM • **Mountain Meadows**

Hello Mountain Meadows,

What an exciting couple of weeks we've had! Last week we wrapped up **STEM Celebration Week** with a Ventura County Sheriff rescue helicopter landing on our field. It was a wonderful learning experience and surprise for our students. Check out the one minute video [HERE](#).

PTA has kicked off our spring fundraiser, the **Mountain Meadows Move-A-Thon** which will take place on May 10. Classrooms are already earning prizes for reaching fundraising goals like popsicle parties and extra recess time. Thank you for your support! A student won the first raffle prize today- more to come!

Math Day was a huge hit for our 2nd and 3rd graders on Thursday, April 18. Students rotated classrooms and participated in a variety of math activities. Thank you to Jen Silva, our district Math/Assessments Program Coordinator, in partnership with our teachers who made it all happen!

The excitement continued with a **"Dino Dig"** this week! Second grade students went on an "excavation" and discovered many different fossils.

Please note a few updates/reminders:

Your child's teacher is your first point of contact when you would like information on your child's day, incidents, questions/concerns. Teachers spend the most time with your child(ren) and truly know them and the rest of the class. Of course, if you need to speak with administration, please contact Mrs. Dingbaum in the front office, and she will help to connect us for a conversation and/or a meeting.

Please help your child(ren) remember to wear **close toed athletic shoes on PE days**.

Environmental letters will be available in the front office from 4/22-4/30.

In preparation for the upcoming construction of solar panels on our campus, the nearly 20-year-old shade structure on our blacktop will be removed this weekend. Although a majority of students play during their 15 minutes at morning recess and their 20 minutes during lunch recess, shaded seating beneath trees will be available for them. The solar panels will offer the same amount of shaded area for our students once constructed in the coming months. We're excited about participating in the districtwide solar panel project, which is expected to save MUSD \$10 million in energy costs over the next 20 years while delivering greener energy for decades to come.

Lastly, we look forward to seeing you at **Open House next week on Thursday, April 25 from 5:00-7:00 pm**. Please arrive with your child(ren) by 5:00 and meet on the blacktop for the schoolwide Spring Festival musical performances. Click [HERE](#) for the detailed flier of information. Paper copies of the flier went home this week also.

Enjoy a wonderful weekend!

Ms. Johnson
