

STEM Celebration Week

Teresa Johnson • 2 months ago • Monday, Apr 8 at 4:51 PM • Mountain Meadows

Hello Mountain Meadows,

Today was an exciting day! We kicked off Day 1 of STEM Celebration Week with a focus on Science. All students participated in a Forces and Motion assembly brought to us by our wonderful PTA. Thank you to our MM PTA!

What a perfect day for the Total Solar Eclipse of 2024! Students learned about the eclipse and some enjoyed the opportunity to safely view this rare phenomenon.

Ask your child(ren) about the special activities each day throughout this week of celebrating STEM learning. Another big thank you goes to our MM PTA and to Lisa Quartararo for helping to organize this special week focused on the following:

S-Science (Monday)

T- Technology (Tuesday)

E- Engineering (Wednesday)

M- Math (Thursday)

Friday will be a schoolwide surprise!

Enjoy!

Ms. Johnson
