

AP STATISTICS SUMMER WORK 2024-2025

Francene Gleason

fgleason@bbrsd.org

Welcome to AP Statistics! This packet will provide you with all necessary information you will need to complete your summer assignment in this course. Please read ALL of the information that follows, as it is extremely important!

Join the Google Classroom with the following Class Code: fiugsi2

DIRECTIONS FOR COMPLETING THE SUMMER PACKET:

You will need the textbook. If you have not signed one out with me, you must contact me **before June 20th** to meet you at Tahanto to sign it out. **DO NOT TAKE A TEXTBOOK FROM MY ROOM** without checking it out with me personally!

Please read the listed chapters **CAREFULLY!** Read **ALL** of it. This includes all technology corners, examples, AP Exam tips, etc. throughout the chapter so that you are familiar with all of this information **BEFORE** the first day of school. You are responsible for reading and understanding the examples and the “Check Your Understanding” exercises suggested after every example.

You will take your own notes on each of these chapters. I will be collecting your notes on these chapters along with the assigned chapter exercises **ON THE FIRST DAY OF SCHOOL**. I will go over these chapters **BRIEFLY** the first week of school. We will then have an exam on these chapters.

This assignment is to be completed by the first day of school. You will need a TI-84 graphing calculator to complete some of the questions.

The assignment is weighted heavily on the first quarter grade. It is worth **THREE** Quiz grades. One for each chapter completed. Start the year off with an A!!!!

This is a college level course and you will be treated as college level students. If you do the required reading and work, you will be very successful. The expectation is that you take this course with the intent of taking the AP Statistics Exam in the spring.

If you have any questions, please contact me via email. I **WILL NOT** answer any emails during the month of July and August regarding this summer work. **DO NOT WAIT UNTIL THE LAST MINUTE TO COMPLETE THIS ASSIGNMENT.**

To understand and reinforce the concepts in the assigned chapters, you are to complete the following exercises from the textbook:

CHAPTERS	EXERCISES
Chapter 1	Page 81—FRAPPY! Pages 83-85—ALL even numbered problems. Pages 86-88—AP Practice Test
Chapter 2	Page 145—FRAPPY! Pages 147-148—ALL even numbered problems. Pages 148-150—AP Practice Test
Chapter 4	Pages 315-317—ALL even numbered problems. Pages 317-320—AP Practice Test

Please **BE NEAT! If I can't read it...it will not be graded!**

Make sure all of the exercises are in order and all of your answers are in **complete** sentences. This is a crucial part of this course. You **MUST** answer questions in complete sentences on the AP exam and so I require it as well!

It is very important that you put **100% effort** into this packet so that you have a strong start to the year! These chapters are fundamental to the curriculum and straightforward if you dedicate time and effort to read it and practice it.

I will upload to our Google Classroom videos and PowerPoints that go along with the chapters. Please take the time to view them. They will be VERY helpful!

I look forward to teaching you in the fall. Enjoy your summer!

Ms. Gleason
