Fourth Grade  
Summer Math Activities

Dear Future Fourth Grade Parents,

Please encourage your child to avoid the "summer slide" by practicing their addition/subtraction facts to 20 and multiplication/division facts to 12. Mastery of basic math facts is the primary building block for success with future mathematical concepts and skills. Your child received a "Reflex Over The Summer" letter with details on how they can continue to use their [Reflex account](#) for facts practice this summer. Your child can also use flash cards, pencil and paper or other computer programs/games to practice their facts. Additionally, they have been registered for IXL's "Study in the Sun" contest. All they need to do is login to [IXL](#) using their third grade username and password and start practicing their skills. Details can be found on the next page. We hope you enjoy your summer and look forward to seeing you next year.

Best,

Megan Hahn & Tanya Occhiuzzo

## Enter IXL's 2024 Study in the Sun Contest!

May 14, 2024 | AT HOME, IN THE CLASSROOM

Ready to have a blast this summer? IXL's annual Study in the Sun Contest is the perfect start to an exciting summer vacation. Take the opportunity to gain new knowledge and earn the ultimate prize: a choice of an iPad or a \$330 VISA gift card!

The contest will have three grade bands (grade ranges): PreK-4th, 5th-8th, and 9th-12th. The three students in each grade band (nine students total) who answer the most IXL questions correctly between June 10-August 4 will claim the prize.

We'll share leaderboards with the top 20 students in each grade band on the IXL blog on June 28 and July 19. Winners will be announced on August 12 and will be notified by email.
