## **Executive Summary**

The annual LVUSD Budget Cycle is initiated through a public hearing and the adoption of a budget by the Board of Education. Following this, AB 1200 outlines a process for updating the board on actual expenditures, interim reports, and budget revisions.

## Governor's May Revision and Assumptions

The Governor provided his administration's revised budget for fiscal year 24–25 in early May. As shared, 2023 Budget Act addressed a budget shortfall of approximately \$32 billion. Significant uncertainty surrounded the revenue forecast due to the IRS tax filing and payment delay. Once additional tax receipts for 2022 were received in late November 2023, it was clear that 2022 revenues were weaker than projected when the 2023 Budget Act was adopted.

As a result, the Governor's Budget projected an additional budget shortfall of \$37.9 billion. Since then, 2023 tax year cash receipts have been weaker than expected. In addition, inflation has been slower to cool, defying earlier expectations. As a result, interest rates have remained higher for longer than expected. Compared to January's revenue forecast, the May Revision revenue forecast reflects a decrease of \$10.5 billion in the Big Three revenues, excluding solutions and policy proposals, through the 2024-25 fiscal year—with personal income tax lower by \$2.4 billion, corporation tax lower by \$5.8 billion, and sales tax lower by \$2.3 billion.

The May Revision estimates that the budget shortfall has grown by approximately \$7 billion. Combined with the Governor's Budget, the budget shortfall for the 2024–25 fiscal year is approximately \$44.9 billion. However, after accounting for the early action budget package that included \$17.3 billion of solutions, the remaining budget problem is approximately \$27.6 billion.

The Legislative Analyst's Office (LAO) has reported a larger 2024 deficit estimate. Additionally, the LAO's recent revenue estimates for 2022-23, 2023-24, and 2024-25 are approximately \$10 billion lower than those in the May Revision. The LAO is expected to indicate a remaining deficit problem of around \$50 billion in the May Revision, potentially more than \$20 billion larger than the Governor's reported figure.

The Governor's Budget reflected a negative operating reserve balance in the 2025-26 fiscal year of \$33.1 billion. In spite of this, he left education programs relatively unscathed in his proposal of sweeping cuts and efficiencies. Whereas the COLA was predicted to be 0.76% in January, the May revise estimates it at 1.07%.

The most contentious and debated portion of his plan is the Governor's Prop 98 funding maneuver. This plan involves addressing an \$8.8 billion shortfall in Prop 98 funding for the 2022-23 fiscal year by borrowing against future state general fund revenues. The Governor originally defended this approach to maintain public education funding and prevent layoffs. More recently, through a collaboration with CTA and CSBA the Governor has proposed sustaining the Prop 98 funding level and suspend the ability to afford and enacting inter-year deferrals in order to address the shortfall that would owe \$5.5 billion back to the General Fund when revenues allow.

## **General Fund Revenues and Expenditures**

## Revenues

The table below outlines the projected revenues over the next three years with the statutory COLA adjusted to the Governor's May Revision (1.07%, 2.93%, and 3.08% respectively). Revenues decline over time due to a trendline of declining enrollment at a compounded annual rate of 1.75%. This budget is being adopted with an estimated 9470 students in the 2024–25 school year. While this matches a trendline, aggressive marketing and outreach efforts have a much more favorable look at our enrollment picture. That said, we are being prudent in demonstrating the ability to meet

reserves in spite of a much more favorable enrollment and attendance picture. With this data, we'll adjust our revenues in the First Interim budget of the 2024-25 fiscal year.

	2024-25 Budget Adoption	2025-26 Projections	2026-27 Projections

## Expenditures

Expenditures are projected to decline over the course of the coming years to match the trendline enrollment referenced in the revenues section. Corresponding declines in enrollment would impact total staffing reflected below. Additionally, the utilization of remaining one-time grants for services and supplies will decrease as the one-time funds roll off the books. Transfers out to Fund 14 (Deferred Maintenance) decreased in the out years because of the passage of Measure S covering capital repair and improvement projects.

## **Multiyear Projections:**

The uncertainty ahead related to the economy, enrollment, and attendance requires the district to monitor these important variables strategically. Like all districts in California, funding is based on a combination of attendance and enrollment. Historic declines in enrollment have plagued districts since the COVID-19 pandemic with approximately TK-12 600,000 students leaving the state since the pandemic. That said, LVUSD has demonstrated a 1% increase in average daily attendance and anticipates enrollment to be much higher than the trendline data as outlined later in this summary.

The Multi-Year Projections (MYP) below reflect the following assumptions:

## • Attendance and Enrollment

- Static 94.8% ADA (1% higher than the 23–24 budget adoption)
- Decline in Enrollment by 1.75% per year
- 2023-24 enrollment next year at 9,470
- Only Step and Column Increases included in the MYP
- COLA is calculated at current rate outlined in the Governor's May Revision (1.07%, 2.93%, and 3.08% respectively)
- Categorical Transfers of One-Time Funded Employees

	2024-25 Budget Adoption	2025-26 Projections	2026-27 Projections

Beginning Balance	\$33,695,433.82	\$15,178,108.82	\$12,744,439.82
Ending Balance	\$15,178,108.82	\$12,744,439.82	\$9,388,522.82
Reserve	\$5,944,881.64	\$6,005,069.00	\$5,255,129.30
Reserve Level	3.52%	3.66%	3.16%
Fund 17 Balance	\$14,250,000.00	\$6,250,000	\$0.00

Like most districts across the state, LVUSD's current budget is dependent on several critical factors. These critical factors will continue to shape the District's budget over the next few years. Each item is significant and will require aggressive responses to manage the impact on our budget.

Multi-year projection factors:

- The community's overwhelming support for Measure E has secured \$2.3M in annual funding through 2027-28.
- The current projected COLA estimates, as of the Governor's May Revision (1.07%, 2.93, and 3.08%, respectively)
- The ability of the District to manage changes in enrollment (further outlined below)
- The ability of the District to manage historic challenges in student attendance
- Impact of one-time funded program funding at the state level
- Statutory rate fluctuations to state PERS/STRS retirement programs without any new state or federal offset
- Passage of Measure S and associated General Fund Savings from conversion to solar and reduced deferred maintenance costs based on estimated completion dates

## **Other Noteworthy Items:**

**Grants:** The District continues to participate in the following competitive categorical programs: Early Educator Teacher Development, Career Technical Education Incentive and the Tobacco–Use Prevention Education (TUPE) grants.

**Local Revenues:** General Fund revenues include \$2.3 million from the Measure E parcel tax renewal. The initial tax was approved by voters in March 2004 (\$98 per parcel) and renewed in 2015, which has generated consistent annual revenues. The budget year will be the seventh year of a 12-year measure. The revenue from this tax continues to be enhanced by donations solicited from out-of-district families. Expenditures from the tax are reviewed quarterly by the Citizen's Oversight Committee to ensure spending meets the requirements of the ballot measure.

**Facility Use:** The District has ongoing lease agreements for some unused facilities and community rentals. New Facility Use Rates were recently adopted by the Board which should reduce encroachment of facility repairs on the general fund.

**RDA Funding:** The State discontinued Redevelopment Agencies (RDA) a few years ago and the City of Agoura Hills has been working through the dissolution process. LVUSD is budgeting an expected \$500k for the 2024–2025 school year, similar to this year's allocation. The RDA funds

will continue to flow to the district as long as the city RDA has ongoing debt payments to keep the RDA active (which is estimated to extend until 2039). These funds were previously utilized to pay off the COP Debt that was paid off with the passage of Measure S.

## Impact of Student Attendance and Enrollment

Like most districts in California, funding is based on a combination of attendance and enrollment. Historic declines in enrollment have plagued districts since the COVID-19 pandemic with approximately TK-12 550,000 students leaving the state since the pandemic. This, coupled with the impact of the pandemic on health, attendance, and attitudes toward the necessity of attending school has led to similar declines in attendance. LVUSD has made great gains in enrollment and attendance this year that will yield a potentially substantial impact. This adopted budget reflects a very conservative approach to enrollment and attendance until we have more solidified data of 2024-25 enrollment. This said, below outline the potential fiscal impacts of our efforts.

*Attendance:* LVUSD's Student Services Department and site leadership teams have made significant efforts to address chronic truancy and low attendance rates that had lingered beyond the COVID-19 pandemic. Outlined below are the current average daily attendance (ADA) rates comparing August-May of 2022-23 to 2023-24. Overall, we have sustained an increase of approximately 1% of ADA over this period.

*Enrollment:* Outlined below are an estimate of our enrollment utilizing data from LVUSD's early enrollment process that launched this fall. Enrollment numbers below are based on current enrollment data, expected transfers, and historical move-in data. That said, with home interest rates at a high rate (compared to the prior decades) historical move-in data might not be as reliable as year's past, hence our conservative approach to this budget. Given that sustaining enrollment (let alone growing) is an anomaly in the state of California, we have established the Adopted Budget based off of the estimates in the table outlined below. Outlined in green is the shift to anticipated revenues based on a current conservative assumption.

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Projected ratio(s) of unrestricted salary and benefit costs to total unrestricted expenditures are outside the standard in one or more of the budget or two subsequent fiscal years. Provide reasons why the projection(s) exceed the standard, a description of the methods and assumptions used in projecting salaries and benefits, and what changes, if any, will be made to bring the projected salary and benefit costs within the standard.

#### Explanation:

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage levels for two or more of the previous three fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budgets, and what change, if any, will be made to ensure that the subsequent budgets are balanced within the standard.

#### Explanation:

(required if NOT met)

The district has been in declining enrollment for several years and has projected this to continue based on trend. Exacerbating the challenge is the reduced COLA projections. The district is taking steps to mitigate enrollment decline through expanded open enrollment as well as increase ADA.

Part IV - Carry-forward Adjustment		
The carry-forward adjustment is an after-the-fact adjustment fo	the difference between indirect costs recoverable using the indirect	
cost rate approved for use in a given year, and the actual indire	ct costs incurred in that year. The carry-forward adjustment eliminates	

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the	
approved rate was based.	
Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for	
use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,	
or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than	
the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.	
A. Indirect costs incurred in the current year (Part III, Line A8)	10,894,659.66
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	(910,809.30)
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect	
cost rate (4.87%) times Part III, Line B19); zero if negative	2,606,383.14
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of	
(approved indirect cost rate (4.87%) times Part III, Line B19) or (the highest rate used to	
recover costs from any program (5.53%) times Part III, Line B19); zero if positive	0.00
D. Preliminary carry-forward adjustment (Line C1 or C2)	2,606,383.14
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which	
the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that	
the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more	
than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward	
adjustment is applied to the current year calculation:	not applicable
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
LEA request for Option 1, Option 2, or Option 3

F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if	
Option 2 or Option 3 is selected)	2,606,383.14
