BUILDING ACTION PLAN

2022-23

21-22 POINTS OF CELEBRATION

- Every graduation is a point of celebration. We saw 24 new graduates in the 21-22 school year, 10 of which graduated early.
- We have increased our understanding and utilization of the state's credit flex plan to benefit our students through interdisciplinary coursework resulting in 20 students receiving credit for classes taken through Coursera, Carnegie Mellon University, and other available online providers.
- We continue to evolve in the world of college and career readiness through our offerings to students with an additional 30+ courses added to our available catalog.

FOUNDATIONAL SKILLS & KNOWLEDGE

Goal: We will prepare students to be successful in an ever changing economy by equipping students with foundational knowledge and skills that support lifelong learning.

Strategies:

Reading

Expand capacity to identify and support students who are below grade level due to foundational reading skills through an expansion of evidence-based instructional strategies and implementation of tier 2 interventions, remediation strategies, and curriculum.

Writing

Implement instruction that provides all students with opportunities to make their thinking visible through writing in all content areas.

Mathematics

Ensure instructional alignment to Ohio content and practice standards as well as district curriculum maps.

Address unfinished learning for all students by implementing formative instructional practices.

WELL ROUNDED CONTENT

Goal: We will expose students to a broad range of subjects and disciplines beyond foundational knowledge and skills to allow students to explore and identify their passions and aspirations, as well as discover connections and relationships among ideas and concepts.

Strategies:

Develop integrated units in curriculum maps to increase shared minutes.

Use informational text in all content areas so students read to learn and extrapolate information that extends learning

Increase the number of opportunities for students to connect to the community and businesses. Guest speakers, internships, guest conductor, author visit, distance learning with universities/professors, mentors, and businesses.

LEADERSHIP & REASONING

Goal: Future success will not just depend on academic content knowledge. It will require students to exhibit leadership skills. We will provide leadership opportunities, including among other things, learning from mistakes and improving for the future, listening to others and working to achieve a common goal and giving and receiving feedback. Reasoning skills are important too. Reasoning means that students know how to draw on multiple disciplines to synthesize information, develop creative solutions and generate new ideas. We aim to teach students specific skills such as critical thinking, problem-solving, design and computational thinking, information evaluation and data analytics.

Strategies:

All teachers will implement interactive learning structures and thinking routines in all content areas.

CITIZEN & SELF

Goal: Research shows that being part of a community improves life satisfaction and health. We will equip students with an understanding of the importance of social interaction and personal feelings. This includes competencies like self-awareness, self-management, social awareness, collaboration, empathy, relationship skills, and responsible decision making to become resilient and persistent in life.

Strategies:

Teachers will analyze Panorama results and identify strategies to address areas of growth

Teachers will be trained in Culturally Responsive Teaching and Learning.
