

# Bristol Warren Regional School District RIDE Necessity of School Construction

# **AGENDA**

#### Thursday, February 8, 2024 9:30 AM

https://www.youtube.com/@bwrsdri

#### **AGENDA**

- I. OPEN MEETING
- II. PUBLIC COMMENTS

#### III. DISCUSSION AND/OR POSSIBLE ACTION

- A. Approval of 1/11/24 Meeting Minutes VOTE
- B. Building Tour Updates
- C. RIDE Stage III Check in Update
- D. Design Updates
- E. Budget Updates
- F. Project Schedule / Next Steps
- G. Community Outreach/Website Updates

#### I. ADJOURNMENT

# STAGE III PROGRESS UPDATE

Last SBC meetin

# **BUILDING TOURS**

# **Building Tours:**

☐ Cape Cod Tech

(CTE w/ Construction)

☐ Dennis Yarmouth MS

(185K SF Perkins Eastman Bldg)

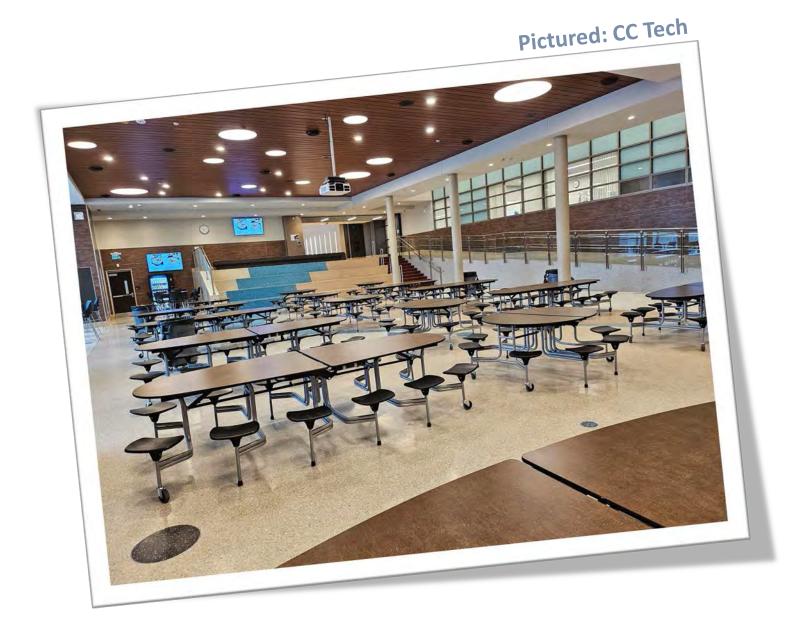

Durfee HS

(CTE w/ Construction)

☐ East Providence HS

(CTE w/ Construction)

**☐** FEEDBACK???

#### VALUE MANAGEMENT APPROACH FOR STAGE III

#### DISTRICT GOAL: 10% COST REDUCTION FROM STAGE II TO BETTER ALIGN WITH RIDE CAPS

- □ Consolidate ES/MS/HS bid packages for scale of efficiency
  - □ Lump sum bid are there any special considerations or precautions with respect to extracting costs per project as itemized in the MOA?
- **□** Dial in design/pricing contingencies
- **☐** Building interior/exterior finishes

- **☐** Site Improvement Scope refinements
  - ☐ If select site scope is eliminated between Stage
    II and Stage III is there a reimbursement penalty?
    (ie baseball field removed from project scope?)
- **☐** Building size efficiencies
  - ☐ If efficiencies are realized which reduce the GSF of the building, is there a reimbursement penalty?
- **☐** Building MEP systems

## **MOA INTERPRETATION**

# 3. Approved Values:

In a LS bid, which prevails?

- a. Major Projects:
  - i. Mount Hope High School
- b. Repairs and Renovations:
  - i. Colt Andrews Elementary School
  - ii. Rockwell Elementary School
  - iii. Huge Cole Elementary School
  - iv. Kickemuit Middle School

\$123,379,325 \$5,104,554 \$6,923,616 \$8,294,080 \$13,666,987

The Approved Project management, design fees and other soft costs shall not exceed 20% of the total general construction costs. The attached Approved Project scope breakdown sheets identify the eligible scope of work.

4. Dollar Authorization (budget agreement): The parties to this Agreement understand and agree that total expenditures for the Approved Project shall not exceed \$157,368,562.

"Approved" = Eligible for Reimbursement? (Voter "Approved" budget is \$200M)

#### **DELIVERY METHODS**

# i. Construction Manager at Risk (CMAR)

- Highest Cost (\$\$\$)
- Most Flexibility with Multiple Bid Packages / Buyout
- Qualification Based Selection, Open Book Accounting, Shared Risk

# ii. Design Build (DB)

- RIGL §37-2-29 and §37-2-30 probit cost plus a percentage of cost approach
- RIGL §37-2-18 competitive sealed bidding requirements may shift this delivery method towards something more resemblance of a CMAR or DBB delivery.

# iii. Design Bid Build (DBB)

- Lowest Qualified Competitive Bid = Lowest Cost (\$)
- Each Early Pkg Needs to be Developed to 100% Bid Docs
- Need to confirm we can get to 100% in time to meet 6/30/24 Award Deadline

#### RIDE CHECK IN

# RIDE Stage III Feedback:

- Awaiting guidance on 6/30/24 construction start requirement for bonus incentives does Rockwell drainage upgrade satisfy the requirement?
- RIDE recommended reducing size of MHHS, confirms there would not be a RIDE grant/reimbursement penalty.
- RIDE recommended considering shifting funds from FFE/IT to construction budget, confirms there would not be a RIDE grant/reimbursement penalty.
- RIDE confirmed acceptable to lump projects together for scale of efficiency but noted their belief that smaller bid packages would be more appealing to bidders.
- RIDE confirmed that savings on ES and MS projects could be transferred to HS project without RIDE grant/reimbursement penalty.

- RIDE recommends reduction in classroom size.
- RIDE recommends pulling exterior walls in 1'.
- RIDE recommends elimination of tennis courts, replace with parking.
- RIDE recommends reduction of paved areas, consolidate parking areas, switch to parallel parking in lieu of lot parking, avoid pedestrian crossing.
- RIDE recommends looking at pre-fabricated building for gymnasium.
- RIDE recommends consolidation of bathrooms to building spine.
- RIDE suggests utilization of bond premium proceeds to enhance the budget and scope from that originally approved.
- RIDE guidelines forthcoming including additional guidance on what satisfies the 6/30/24 construction start requirement for bonus incentives.

TARGET @ MHHS

[SF, SITE OR \$/SF]

# MARKET DATA: K-12 \$/SF

# MARKET DATA: RI VS MA COSTS

# **BUSINESS & FINANCE**

- The prominent location in the plans is appealing.
- Prefer classrooms were adj, rather than stacked vertically.
- Business/finance google feel
- Inviting space, innovative workspace.
- Stock tickers, presentation space group space (would like tickers in corridor as well)
- Maintain as 2 separate classrooms
- Work/office-type furniture
- Feel like a business

# AUDIO / VIDEO CLASSROOM

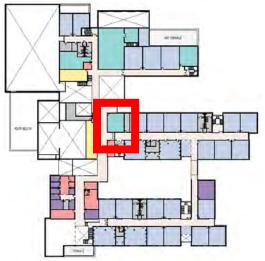

- Video: Classroom plus recording studio
- Next door should be digital audio (digital audio taught by music teacher)
- "on air" in corridor
- Window to corridor to see broadcast
- Morning announcement. Emulate what they do on the news.
- Green screen
- Dolly for camera to transition sets.

# MARKETING WEB ANIMATION

- Hybrid space with classroom area and computer stations; 4-5 mac desktops, classroom set-up plus lounge seating.
- Web = learning html basics, and coding (semester class)
- Animation = taught with adobe animate (few desktops and mac laptops)
- Marketing: social media, promotion, advertising, product development. Hands on like stem, taken all the way through product development, advertising to sale. Marketing space needs pin-up.

# SCHOOL STORE

- Students run it. Currently in the cafeteria.
- Open during lunches and open houses.
- Windows for displaying.
- Like a real store; fixtures, racks, display cases. No bins.
- On courtyard preferred, adj elevator and stair on the central wing were discussed

# **GENERAL CLASSROOMS**

- Lockers prefer option for students to have a locker if they want, do not need 1 per student
- (STEM), Math teachers
- Own your classroom. No departmental offices.
- Lighting improved
- Chromebooks students owned, take home at night, come to school fully charged. (Use the library if need to charge during the day)
- Book storage for coursebooks
- Break-out spaces outside the classroom/off the corridor, provided the teacher has a sightline to students.
- No department offices. Teachers own their rooms.
- Outdoor Classroom maybe use 2-3 times a year in the Spring

# **NURSE & GUIDANCE**

- 1 psychologist
- 3 social workers
- 4 support staff (guidance)
- 1 Student assistance office currently in guidance. Addiction counselor.
- 2 community health workers (grant funded) –
  near support staff. Meet with students and
  families with wraparound services food/house
  insecurity, clothing, etc. Small Refrigerator.
- Suite layout preferred; Warm and Peaceful:
- SEL (social-emotional learning) spot check-in.
   (5-10 students)
- Conf room with projection screen = 12-14 ppl
- Pink pass students require meditation area
- Alternate lunch locations (SEL/pink pass)
- Prefer Guidance Suite in proximity to the Library
- College Planning

# NURSE, PSYCHOLOGIST

#### Nurse

- Requests office area, waiting room, treatment room, 4 cot room. Storage records and supplies.
- Equipment Requests:
  - Ice machine (Doesn't currently have)
  - o Full size refrigerator
  - o Med cabinet: double locked
  - o Treatment sink hands free

#### **Psychologist**

- testing occurs within the office, usually 1 on 1.
  - Request Guidance has a waiting area

# SCIENCE

- Request a small room for a greenhouse off the classroom (environmental club and science classes)
- Existing wet labs and advanced science
- Need a BSL 2 Lab. Request a Clean Room: Needed for Bio-Tech
- Wet lab for marine science with partnerships.
- Chem prefer gas hookups.
  - Perhaps propane.
- Like the pass-through fume hood shared with the prep room.
- Physics: balance beam would be great, don't have it now.
- Proposed Science classrooms are significantly larger (x1.5) than their existing spaces; well received.

# SPECIAL EDUCATION

- 1 Sp Ed office director
- 1 testing office (located adj Guidance is ok)
- 1 sped shared office (confidential): 3-4 ppl
- 350 SF Conference Room (ok to share with Guidance)
- Sensory room swing, OT/PT, services, vestibule swing.
  - Calm Room identified in Program, can be utilized as the Sensory Room.
- Classroom intensive
  - Intensive classroom door to exterior preferred.
  - District looking to bring back the Intensive Adult program
- Resource Support 15 students working on different things. Also, with a small group room. Like an intervention class. Arriving in specialized vans.
- Planning Center = regular classroom size (15 students)
- Co-taught setting: request pull-out setting; currently use library.
- Teachers are in classes
- ALP = 900sf is sufficient, not needed to be larger than a core classroom

# VISUAL ARTS

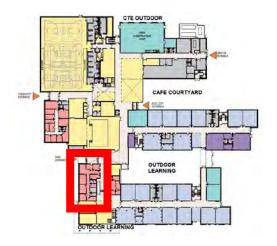

- Photo darkroom (10' x 10'):
  - Within art studio
  - Requires sink
  - Existing: 4 enlarger stations
- Art works closely with Construction CTE.
- Clay dust, need plaster traps
- Overhead power is good, or in-table
- Prefer all 3 art studios (in the new school) be set-up for both 2d and 3d art in each studio.
- Change displays once a quarter. Have displays elsewhere in the building as well as in the department. Foyers and entrances.
- Art show displayed in the library.
- Prefer display cases integrated with storage, similar to existing.
- Require paint storage. Require Paint Booth, can share with CTE shops.

## **ADMINISTRATIVE STAFF**

- Attendance
- Front office 2 admin assts, 1 attendance.
- Admin Assts request a counter, students come up to their desks.
- Admin assts work with guidance gradings, new students, withdrawals.
- a secretary for Guidance. can be open workstation in guidance waiting room.
- Teacher mail boxes on a wall. Don't need 'mail room'.
- Meeting Spaces for 6-8ppl.
- Truancy Court = 8-10ppl. Good to not be deep in the school.
- APs need space to meet with ppl in their room.
- Principal's office needs to include space to meet with 4-6ppl.
  - not a shared conf room
- Dean will be upstairs.
- VIBE = in school suspension (during school hours)
- VIBE is full class upstairs, close to guidance.
  - Prefer to keep VIBE close to Guidance.
- Existing: Extended day is upstairs, close to media.
- Existing: PACE/CR is downstairs.
- Check-in for visitors
- Separate check-in for students who come late/tardy. That machine needs to be accessible to students and attendance attendant.

# **CONSTRUCTION AND ENGINEERING**

- Request to subdivide proposed construction into 2 shops.
  - 3 shops total, assume a future 3rd CTE teacher
  - Proposed Shops are approx. 2.5x the size of the existing space
- Request each shop has a teaching space and a shop space
  - provide a "clean and a dirty space"
  - Concern with Dust between clean and dirty spaces.
     Dividers are challenging; tracks collect dust.
- Request each shop have an overhead door
- All classes and programs use the same tools and learning materials
  - Teacher Comment: All programs are co-joined in the CTE program and there are no specialties anymore and they all teach a combination of the classes. Electrical classes are taught in CNST 2 class. Teachers don't want a dedicated electrical space. Prefer all Shops can teach all classes.
- Running 4-5 compressor guns at a time (in the construction shop)
- Spray booth (share with art)
- Request all shops be able to do all curriculum.
  - Existing = Electrical is taught within the Construction Shop

# CONSTRUCTION AND ENGINEERING

#### Electrical shop:

- Request electrical panels within the shop.
- Build a House within a school
- Flexible Manufacturing (Curriculum Program)
- Assembly line in Shop
- Request for Flexibility in Shop:
  - Ability to have all tools out and a large open space in the center of the shop for Manufacturing Programs
  - Requests dividers that could open to allow the whole Shop to be one space
- Need classroom setting as well. Computer orientated with desktop/laptop with CAD. (not Chromebooks)

# CONSTRUCTION AND ENGINEERING

#### Tech/Engineering

- Curriculum offered:
- Computer Integrated Manufacturing (3d printers, CNC mill, vacuum former, laser engravers, molders)
- Civil and architecture (3d printers)
- Intro
- Practical/Hand-on component, uses Shop/Tools
  - Tech/Eng too far remote from Shop in proposed floor plans

## LIBRARY MEDIA

- Library is multiple floors in the new design. Cabral likes a balance and wants it being welcoming to come into the library.
- Entry/exit students need a pass to go to library.
- Small group rooms with glass (4-6 ppl)
- Prefer low bookshelves, maintain good sightlines
  - Some bookshelves on wheels.
- Existing space = No fixed computers; since district went 1-1 w/Chromebooks. High priority to have some fixed computers in Library:
  - Requests 1-2 desktop machines for Sign-in stations (kiosks).
  - Request: Self-checkout station for students (sensitive books)
  - Request Monitor/iPad at end of bookshelf for students to search themselves:
    - Searchable catalog is available on Chromebooks.
- Librarian okay with food and drink in the library, but would like to see reduction in number @ lunch
- Request classroom-size space in library.
- Request 3d printer in library.

## LIBRARY MEDIA

- A few Macs in the library for Photoshop/etc classes.
- When using library: students need a pass for the library.
- Science fare projects use the library to do research; need printer
- Existing = Student use library for printing. Request to maintain in new space.
- Request workroom, circulation desk and office are collocated
- Would like to use terrace, need to be able to supervise.
- Book count: approx. 8000sf (current = 16,000)
  - 10-15 books per student.
- Periodicals
- Extended day being close or in the library is good.
- Extended day = currently in the library.
  - o Tables for 1-2 as well as 4.
- Request 'bleacher seating' in library, presentation space. Guest speaker.
  - Lecture space within library.
- Host events in the Library:
  - College planning night
  - Senior breakfast
  - Faculty Meetings (80-85 ppl)
  - District Wide Special Ed Meetings

# FRESHMEN ACADEMY

- break-out spaces
- Sense of community amongst the 9th grade.
  - Feels special, but not juvenile. Don't be coddling.
     Supportive and caring.
  - Some small branding, but not permanent.
- Signing of the banner display each grade level has one.
  - Each class year has a quote. Display in a way that can change every year.

## STUDENT GROUP

- What do you like about your current School?
  - Like "C Wing"
  - Like the loop
  - Easy to navigate
- Existing Student Parking:
- Juniors park on Chestnut.
- Seniors park on campus.
- Long delays driving off campus at the end of the day (congestion)
- Request to mark/line 400m loop in corridor loop.
- AR suggests the gym for indoor track, maybe adding lines in there if big enough so they can practice.
- Students don't like being indoors all day
- Gym locker rooms. Leave bags out, don't fit in lockers.
- Don't use corridor lockers. And if they do, don't access throughout the day, only at the start/end.
- Crowded corridors are an issue in existing building
- Prefer windows on circulation corridors. Prefer more windows than the current School.
- Café eat in the café. Half students bring lunch. Line to get Café food takes too long.
- Like all the windows in café, like the idea of mixed seating.
- likes the cafe close to the courtyard and that students can take themselves out there for lunch
- Students like the idea of breakout spaces and note the teachers will send them out into the hallway to go work in groups.

# STUDENT GROUP

- Clubs: clothing, deka (business club).
- Clubs meet in classrooms
- Yearbook is a class (marketing)
- Prefer Schools to have Commons space, hang-out spaces
- Students comment they like the bigger spaces they see at other schools, and the open areas where kids can hang out
- Silver Creek Fauna: Muskrats, beavers, eels, chipmunks

## PE AND HEALTH

- 3-4 Gym classes happening at a time
- Play music in the gym
- Request gym speakers be connected to the PA system for announcements.
- Walking track lines in gym.
- Providing a walking track will allow treadmills to be used for running. Currently treadmills are used for walking; puts wear and tear on the machines.
  - Wellness Center is used by every student in the school.
- Prefer the portable volleyball and badminton (what they use now)
  - Flexible with court set-ups, changes every period.
  - Caps for sleeves get lost.
- Request plenty of natural light
- Health office need windows with sightlines to full locker room for supervision.
- Students are showering less.
- Locker Rooms students prefer private changing space
- Request for 5 showers per gender

## PE AND HEALTH

### Classrooms:

- 2 health classrooms proposed –Use classrooms for labs and studios
- Future CTE Programs CNA and EMT
- Health classrooms do not necessarily need to be near the gym. Have had distraction issues in the past with Health classrooms near the Gym.
- Health classrooms able to become Studio is appealing, not just an academic space.
- One health classroom could be in Freshman Academy

# PE AND HEALTH: OUTDOOR

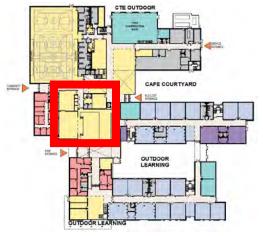

### Outdoor:

- Golf, archery, soccer.
- Issues with fields flooding
- Do not currently use the Multi-Purpose Grant Field (too muddy)
- Practice Football Field is too narrow and the concrete sidewalk is too close; causing injuries
- PE requests to use turf and track in the future if possible.
- Request a Fieldhouse

### Chorus:

- 55 students @ once.
  - Furniture risers for chorus (not built-in)
- Practice areas in chorus area would be welcome (don't have now).
- Shared Practice Rooms with Band would work well.
- Chorus also has uniform storage (w/ Marching band)

### Band:

- Program up to 100 students. Close to football is great. Marching Band.
- Marching Band storage; uniforms and instruments.
- Practice rooms shared with chorus is good.

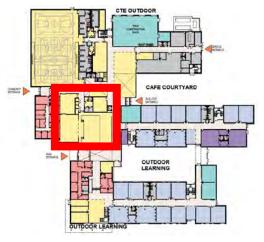

### Digital Audio Classroom:

 Request an enclosed sound booth (2ppl) for recording (albums) within classroom. Mostly would be used for singing and voice overs. School has released albums in past years.

#### Theater:

- Existing = Academic and 30 students in after-school program.
- Currently teaches in the Café.
- Prefer to use the stage as a teaching space.
- Using the Band as a Green Room/Changing Room off the Stage during performances is preferred, as shown in the proposed plans.
- Requests set storage.
- Costume storage.
- Currently host Holiday and Spring concerts.
- Existing Auditorium = approx. 600 seats, Proposed = 550 seats.
- No orchestra pit is planned; a removable first row to accommodate the orchestra would work well.
- Prefer an open sound table (as opposed to enclosed control room) on the first floor of House. All seating on the Balcony is preferred.

### Performance:

- Coffee House in Café = Open Mic coffee house night in Café.
- 150-200 students attend. Currently hosted in the Café, prefer that setting. Do not want this event in the Auditorium.

### **General Comments:**

- Request Music Library.
- Outdoor Music Café

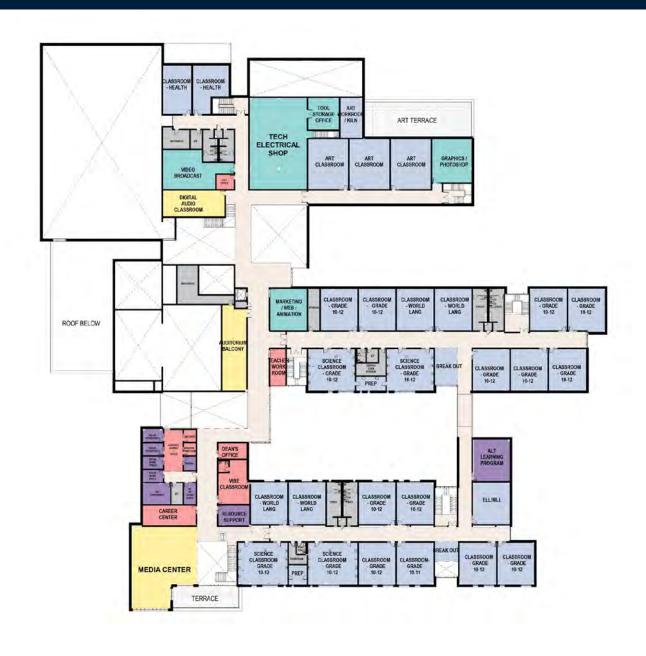

# MT HOPE HIGH SCHOOL DESIGN UPDATES

## MT HOPE HIGH SCHOOL DESIGN UPDATES

## MT HOPE HIGH SCHOOL DESIGN UPDATES

## **NEXT STEPS**

### **Schematic Design Review**

Stage III must include the project's major components. including engineering

# Construction Documents Review

Finalize the development of the project

## **Progress Reports**

On the 12th of every month, OPMs provide a project progress report

## **Housing Aid**

LEAs submit Housing Aid forms by July 15

### Design Development Review

Provide greater detail, including an updated project budget

### **LEA Bids**

LEA goes out to bid and shares responses with SBA

### **Project Complete**

For that year's cycle, projects must complete by June 30

Stage III: Design Reviews

Stage IV: Construction

## **Project Completion**

## SBA Approvals

The SBA must review and approve each of these components: schematic design, design development, and construction documents.

### September 15 & March 15

RIDE makes Housing Aid payments twice annually for projects completed by June 30

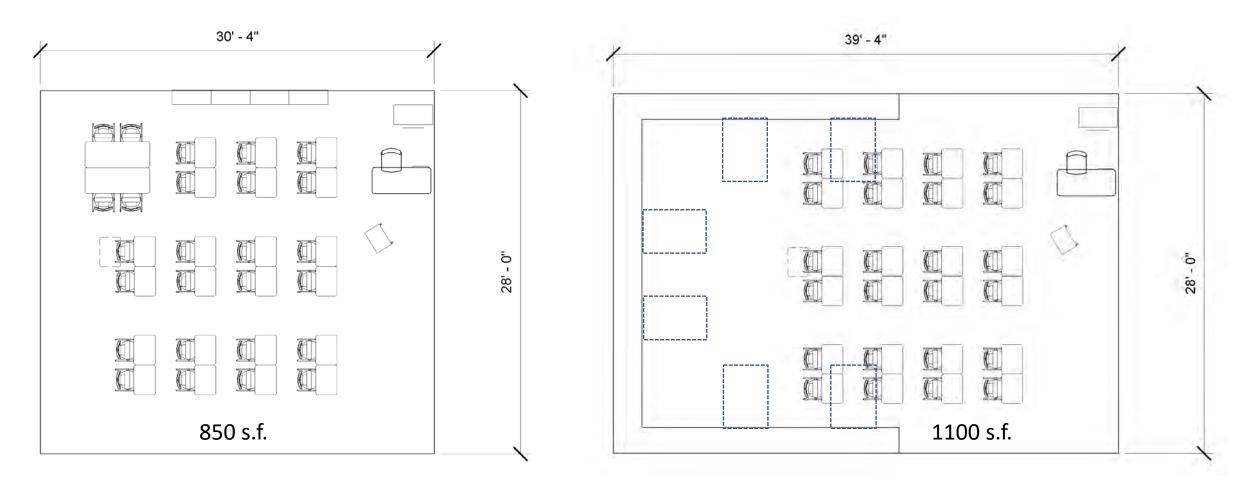

## **CLASSROOMS AND LABS**

Total GSF = 178, 401. (Program = 179, 251 gsf)

Typical Classroom = 868 nsf (Program = 900 nsf)

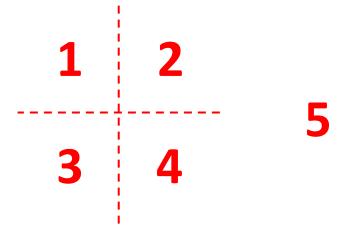

Typical Science Lab 1100 or 1162 nsf. (Program = 1200 nsf)
