April 2021

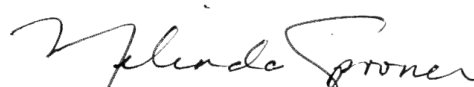

We are **resilient** (ATL: Self-Management; affective skills)! What a year this has been. It was a long time coming, but it's so great having all kids back on campus. Their energy is felt in every corner of the school. They are excited to be back with all their friends and have settled into a new "normal" pretty quick.

With our full return, also came our IB Authorization Visit. Nothing like the same week to really show our resilience! The Visiting Team from IB spent two full days meeting with teachers, staff, parents, and students. Their goal was to verify all the work we've put into making Camerado Springs an IB World School. They were able to do just that. We are thrilled to announce that Camerado Springs is an officially **AUTHORIZED IB WORLD SCHOOL!!!**

The Authorization Team provided us with feedback on our journey and shared commendations and recommendations for moving forward. From this feedback we will work as a staff to determine an area of focus, or two, and create a Development Plan that outlines growth we'd like to achieve over the next five years. Our practices will continue to embody the IB Philosophy as we work toward bettering ourselves as educators, and ultimately our educational program for students.

We are so excited to share this achievement with you and thank you for all your support,

Douglas Shupe, Principal

Melinda Spooner, Assistant Principal

Amy Gargani, IB Coordinator
