8th Grade The more our 6th Grade students attend, achieve & aspire, 3rd Grade the more doors Kindergarten they will have open in their future School Options and Programs District and School Culture District Goals Board Theory of Action Vision, Core Beliefs, and Commitments

our students many academic options and opportunities to participate in different activities from elementary school through high school. In turn, our students need to attend, achieve, and aspire so they can graduate as college and career ready, productive, responsible, and engaged global citizens.

Every student can learn and succeed. In Natomas we provide

From preschool through high school we use multiple measures to make sure our students have access to options and programs. We measure their performance and their progress as they attend, achieve, and aspire for college & career readiness. We call this our Steps to Success.
