

Dear Third Grade Families,

Welcome to the amazing 2024-2025 school year at IL Texas Arlington K8. Third grade is a very exciting year because we will move from learning how to read and begin reading in order to learn. In mathematics, scholars will learn multiplication and division coupled with multistep problem solving. We will explore science and social studies with learning about the solar system, matter, regional geography, and other topics.

Our goal in third grade is to prepare our scholars with exceptional leadership qualities while strengthening the mind, body, and character. We will focus on creating a culture where students can enhance their character traits by putting others before themselves. We will pride ourselves on learning and mastering three languages: English, Spanish, and Chinese.

As the Grade Level Administrator (GLA), I look forward with partnering with you and your scholar to ensure that they develop academically, socially, and emotionally. It is my desire that our 3rd graders flourish and exceed all benchmark expectations this school year. This is only possible if all stakeholders work together.

I look forward to serving you and your scholar this school year. If you have any questions of concerns, don't hesitate to reach out to me. You can reach me at krobinson@iltexas.org.

Best Regards,

Kina Y. Robinson

Kina Y. Robinson, M.Ed.

3rd Grade GLA

3rd Grade Supply List Arlington K-8 2024-2025
