Owned And Operated

Pre RW

WELCOME TO THE INFORMER

Hi Everyone, the Pre-RW will walk you through the foundation of writing.

Starting on the Journey

Discover crayon and fist grip scribble with big motions that involve moving the whole arm.

Building control

Almost all age-appropriate toys that a child can interact with at this age will help with better motor control that they need then introducing them to crayons.

WELCOME TO THE INFORMER

What's going on with 3BB!

Hi Everyone! In a nutshell, 3BB has been busy, busy, busy!

Like superheroes we are forging through challenges and helping each other through our learning experience this term 1!

Highlight! Inquiry Excursion:

Have you ever wondered about how different places in Port Moresby were like before and after? What do you think about them? What's your opinion? It's always good to know different opinions and perspectives of the world and cultures around us and it's also important to respect these opinions and perspectives as we all are unique and live in different places and have different cultures with different belief systems! Here's what we think about the Old Parliament and The New Parliament House after our recent Excursion!

"I think The Old Parliament is much smaller than the new Parliament House"

Raenan Wapa.

"I think The Old Parliament House had fewer members..."

Mary Obaha

"I think the New Parliament house looks beautiful. It has a large pond with fish"

Makena Tsoupis

"I think the New Parliament House has more details"

Dopen David

TERM 1 SNAP SHOTS!

Taking a tour of the Koro Campus Week!

Zoe and Adrienne identifying non-fiction text features

DEARtime after breaks!

Getting into the groove during dance lesson with Mss Sapak!

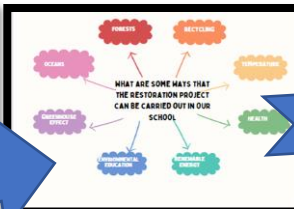

Inquiry Excursion: On a mission to the old Parliament House!

Gr. 5PG

WELCOME TO THE INFORMER

Welcome to a Thrilling and Fascinating Term One.

Come and be a part of our Inquiry Learning, put on your Conservational Hats and join us with the Fight to Save our Eco-system.

The Journey's Focus was on Living Things & Material (Technology) and emphasized on How Important the relationship between the Organisms and the Environment?

In great amazement, one could wonder the curiosity that keep sparking their minds.

Little did they know that in PNG; Conservational Programs are held at the Park with minimal participants from people to care for the eco-system.

The wild for wildlife is an outreach to promote the plants and animal species that are very unique and are at near danger, endangered or extinct.

Amazed and determined to Set a new focus with a driving mission on their learning journey.

The students of 5PG are now inspired to RETHINK WASTE & ECO-SYSTEM CONSERVATIONAL PLANS and focus on ones that currently carried out in the school

Going forward, they have developed Action plans to bring Awareness to the Koroboro Community through an EXPERT PRESENTATION outreach to clean the environment and care for the plants and animals.

In the Prior Inquiry learning lessons, the students were captivated by understanding how the environment influences the relations of organisms and reviewed the impact of humans on the environment.

Immerse learning experience engaged the 5PG students with research to identify the characteristics of living things and their vital functions as well.

Further Consolidating the Learning experience was to have a practical experience to Visit Nature Park to align with the Wild for Wildlife Conservational Program into their Inquiry learning.

How Best can they Finish off their learning Journey by making Conservational Goals and putting them to Practice by:

- Support the Recycling Project carried out by the SRC.
- Monitor the Turtle Breeding Project within the Koro campus
- Give awareness talks to other students to care for animals that live within the community
- Give expert presentations to other classes.

It was indeed an educational yet mind throbbing experiences for the 5PG students to put on their Conservational hats and make a start with practices to SAVE OUR ECO-SYSTEM for a better FUTURE..

PE Boro Campus

WELCOME TO THE INFORMER

Boro PE News-Term 1 Learning Journey

We are excited to share the Learning Journey of our students as they embrace the challenges of running the cross country and gymnastic in term 1. As weeks unfolded from week 1 to week 9, our students explore the details of maintaining pace, mastering shot steps and honing their control over breathing during their runs. Alongside, they immersed themselves in fundamental skills of gymnastic fostering body coordination and balance.

The outcome of our educational journey was incredibly rewarding, witnessing the transformation of students from beginner's athlete to confident ones, with tangible evidence showcased during our cross-country carnival in week 7
