

IMPORTANT

Immunization Requirement for Students Entering 12th Grade

The Ohio Department of Health requires all students to receive the following immunizations prior to entering 12th grade :

- **Two (2) doses of Meningococcal [MCV4] vaccine**

Only one (1) dose of MCV4 vaccine is required if either of the following conditions apply:

- If the MCV4 vaccine is administered on or after the student's 16th birthday, only one (1) dose of MCV4 vaccine is required.
- If a student is in the 12th grade and is 15 years of age or younger, only one (1) dose of MCV4 vaccine is required.

Your 12th grade student will need to show proof of having received the Meningococcal [MCV4] vaccine before they can return to school for the 2024-2025 school year. Section 3313.671 of the Ohio Revised Code states that students who do not provide documentation of this immunization will be excluded from school on the 15th day after school entrance, until proof is provided.

In Lorain City Schools, students who do not have documentation on file will be excluded from school beginning September 17, 2024

(Exemptions are provided for under law. Call if you would like more information)

Please contact your health care provider or the Lorain Board of Health at 440-284-3206 to schedule an appointment if your student has not yet received this immunization.

Return this form or provide other appropriate documentation (e.g. copy of immunization record).

Please provide the date(s) that your child received this immunization.

_____ received the Meningococcal (MCV4) vaccine
