

Instructions for Connecting to MISD_Staff

Windows 7 domain connected laptops (most district owned laptops):

Step 1. Click the Wi-fi signal strength icon in the bottom right corner of the screen.

Step 2. Click "MISD_Staff".

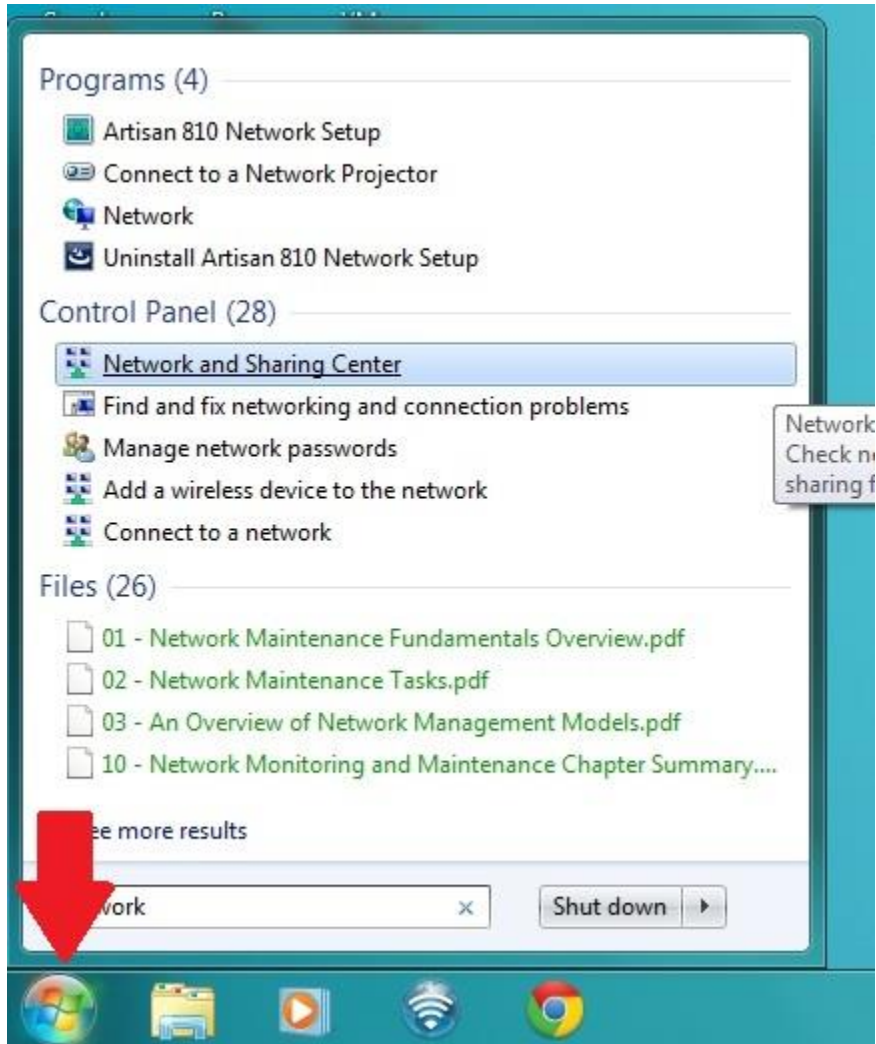

Step 3. Make sure “Connect Automatically” is checked and click “connect”.

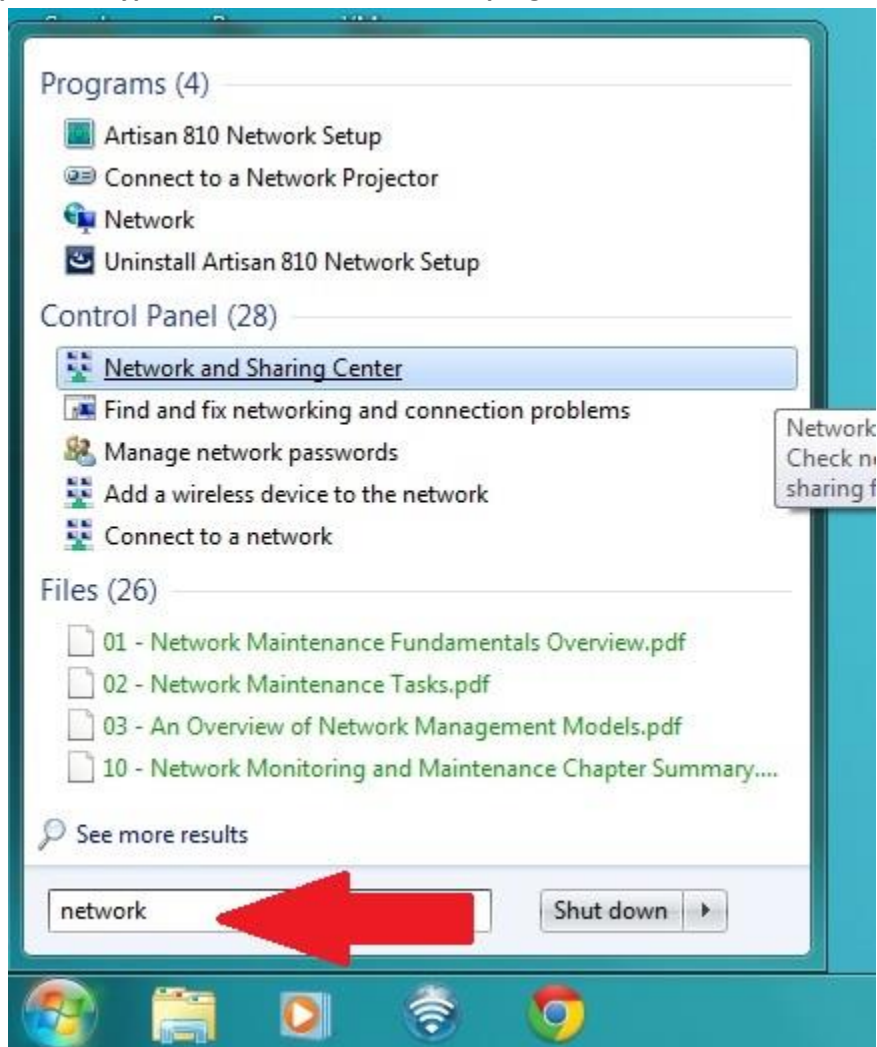

Non-Domain connected Windows 7 devices (or if the above instructions don't work).

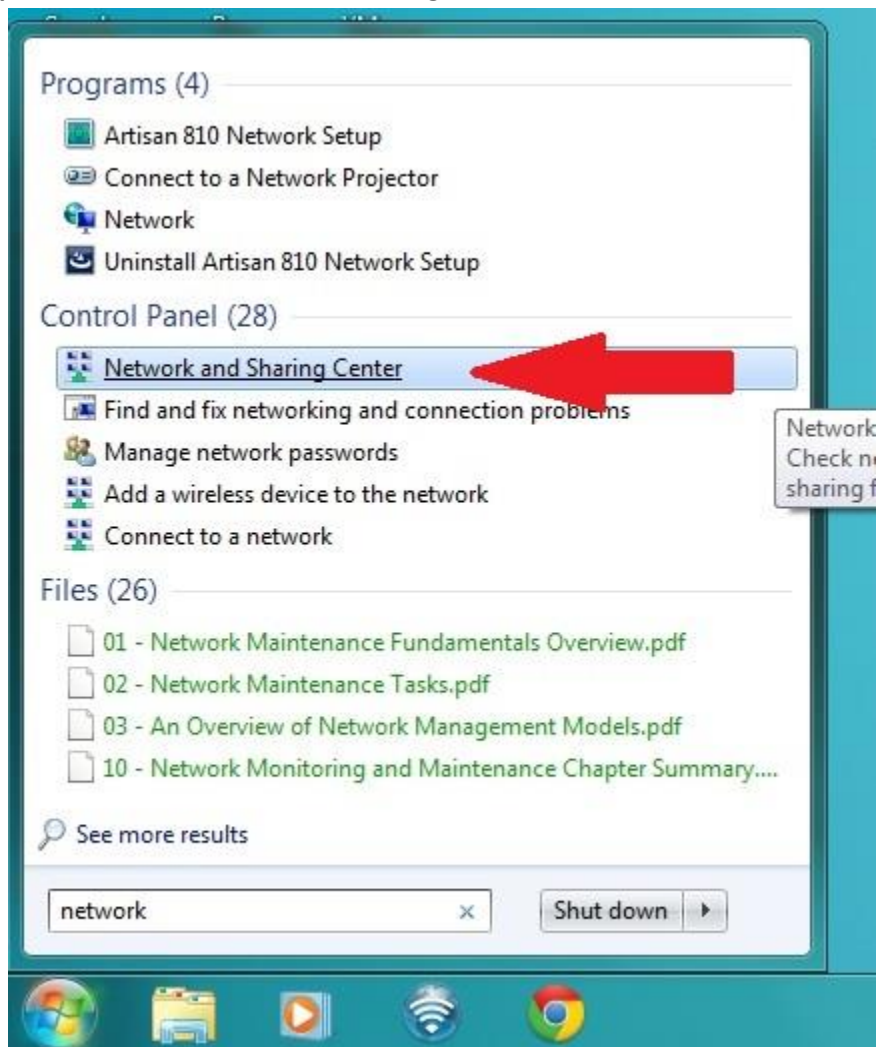

Step 1. Click the start button.

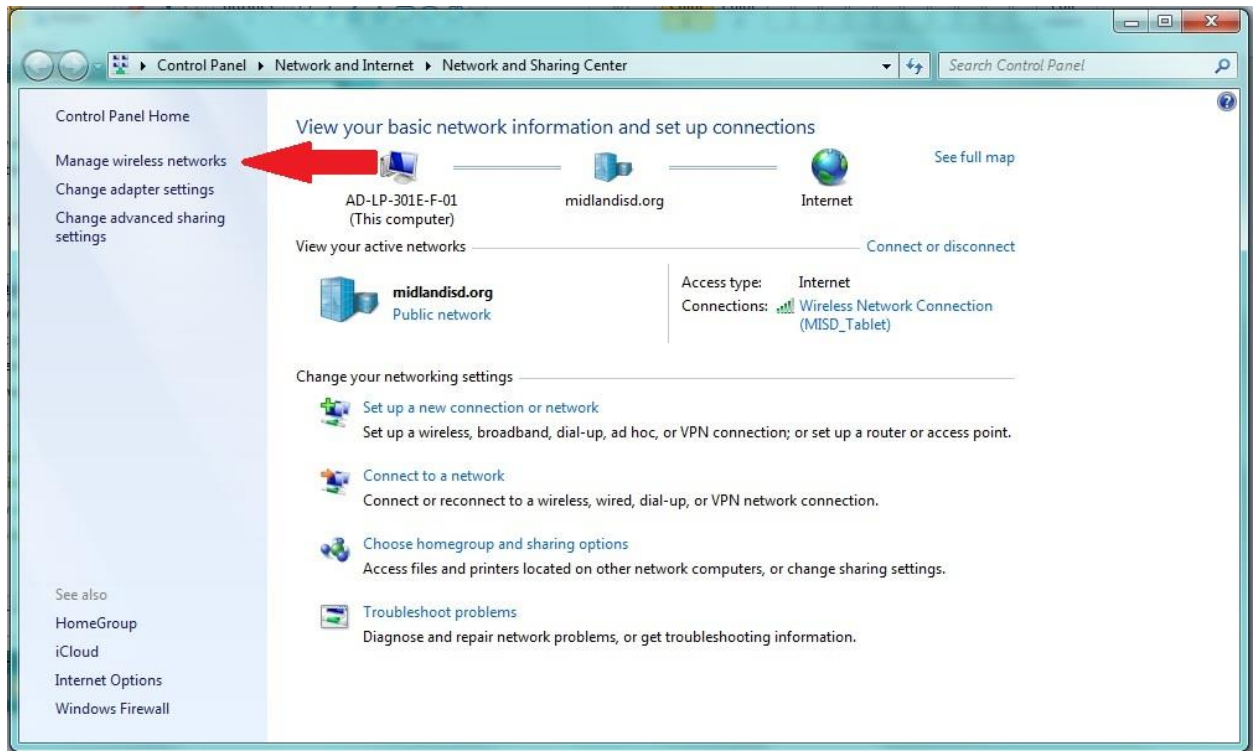

Step 2. Type “Network” in the “Search programs and files” box.

Step 3. Select Network and Sharing Center.

Step 4. Click “Manage Wireless Networks”.

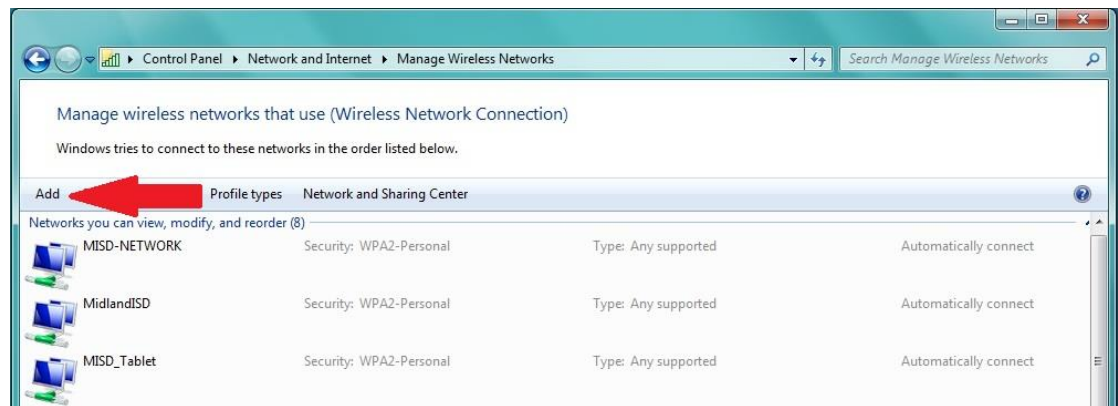

Step 5. If MISD_Staff appears in the list, go to step 5a. If not, go to step 5b.

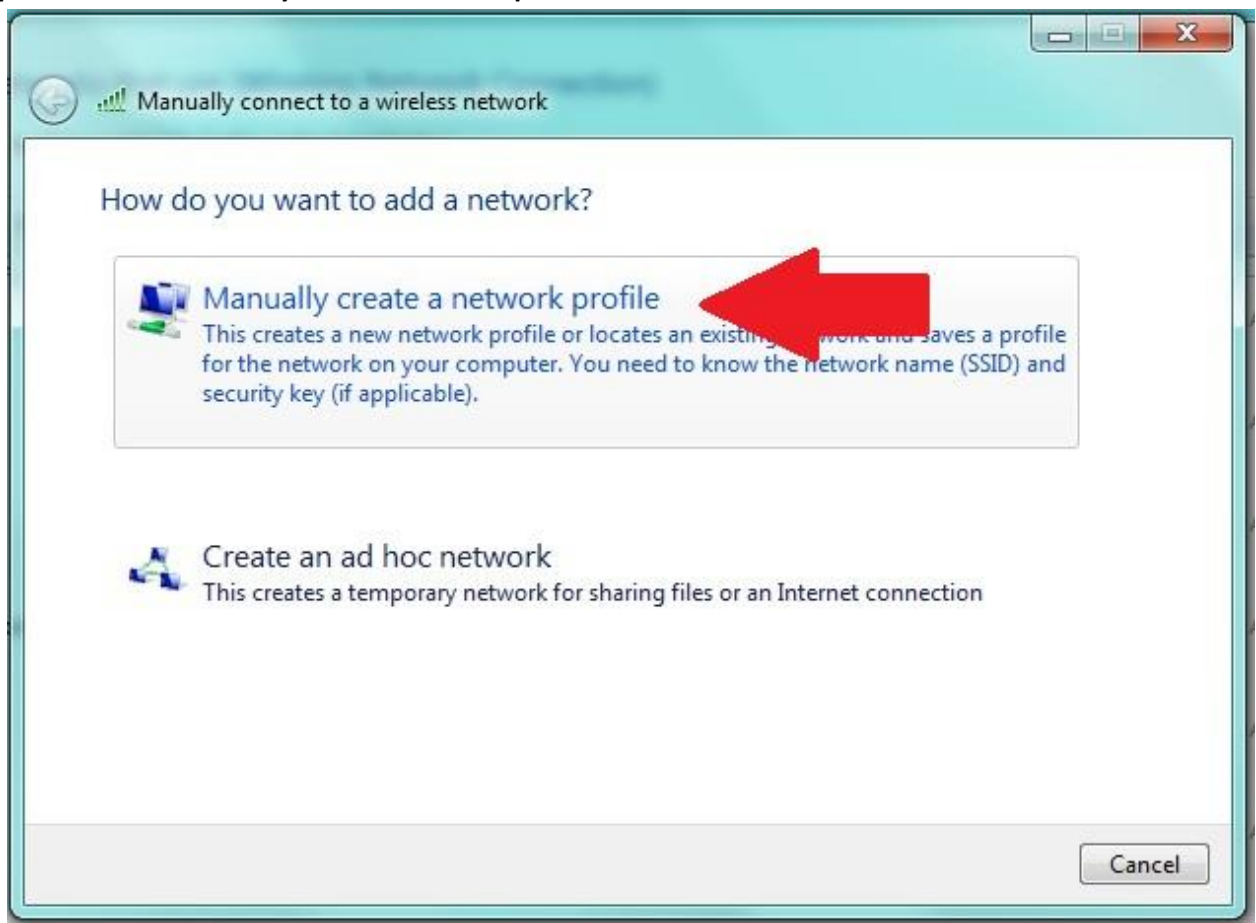

a. Click “MISD_Staff” to select it, then click remove.

b. Click "Add".

Step 6. Click "Manually create a network profile".

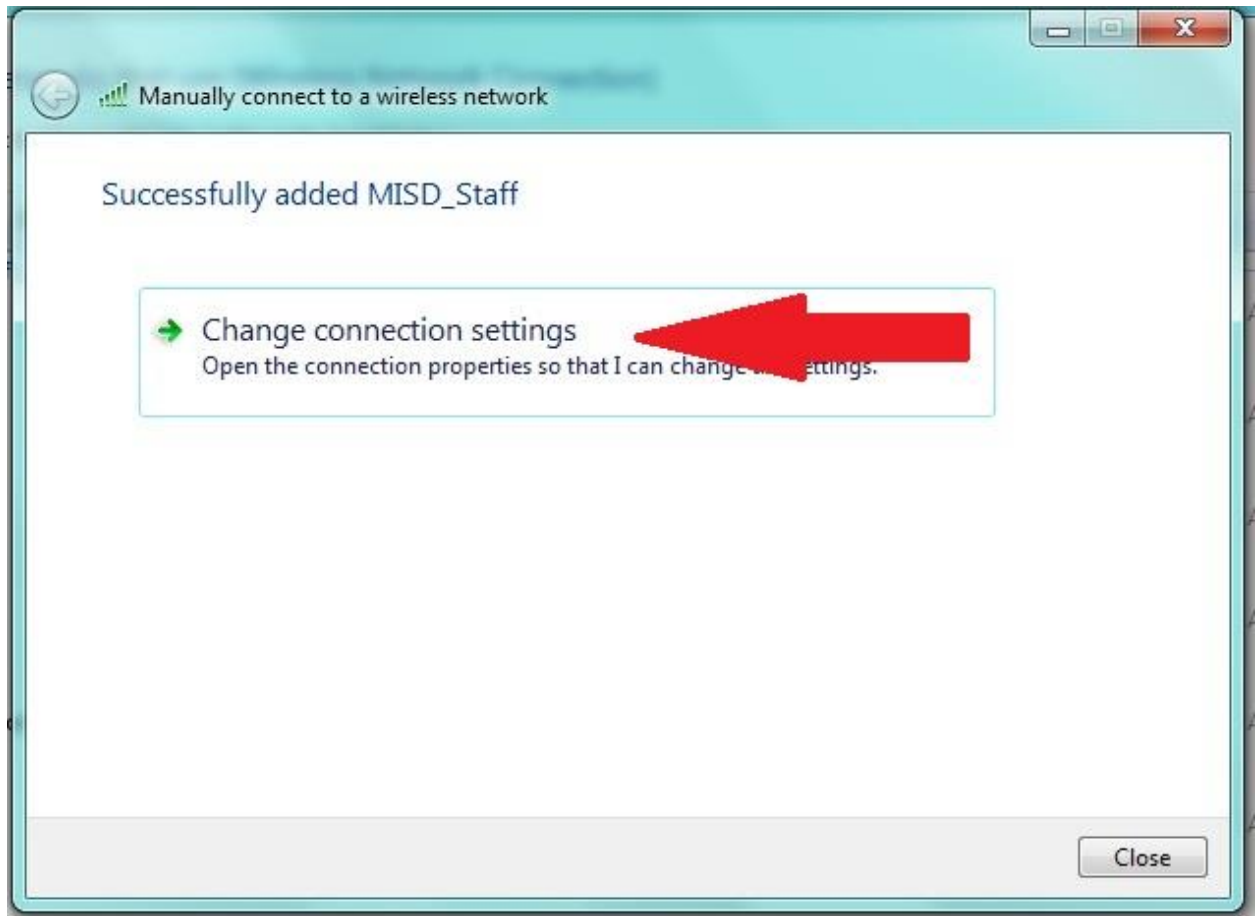

Step 7. **Verify the settings are configured as listed and change as necessary, then click next.**

The screenshot shows the 'Manually connect to a wireless network' window. The title bar includes a back arrow, signal strength indicator, and the text 'Manually connect to a wireless network'. The main content area is titled 'Enter information for the wireless network you want to add'. It contains the following fields and options:

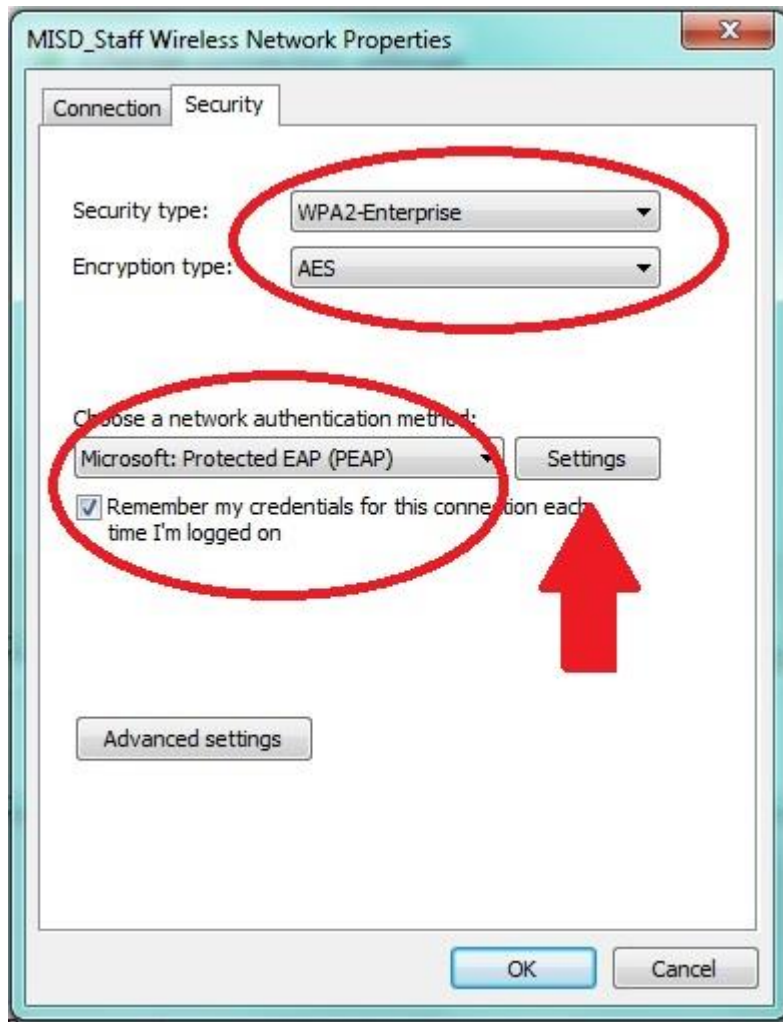

- Network name:** A text box containing 'MISD_Staff'.
- Security type:** A dropdown menu with 'WPA2-Enterprise' selected.
- Encryption type:** A dropdown menu with 'AES' selected.
- Security Key:** A text box (empty) and a checkbox labeled 'Hide characters'.
- Connection options:** Two checkboxes: 'Start this connection automatically' (checked) and 'Connect even if the network is not broadcasting' (unchecked).

Below the checkboxes is a warning: 'Warning: If you select this option, your computer's privacy might be at risk.' At the bottom right, there are 'Next' and 'Cancel' buttons. A large red arrow points to the 'Next' button.

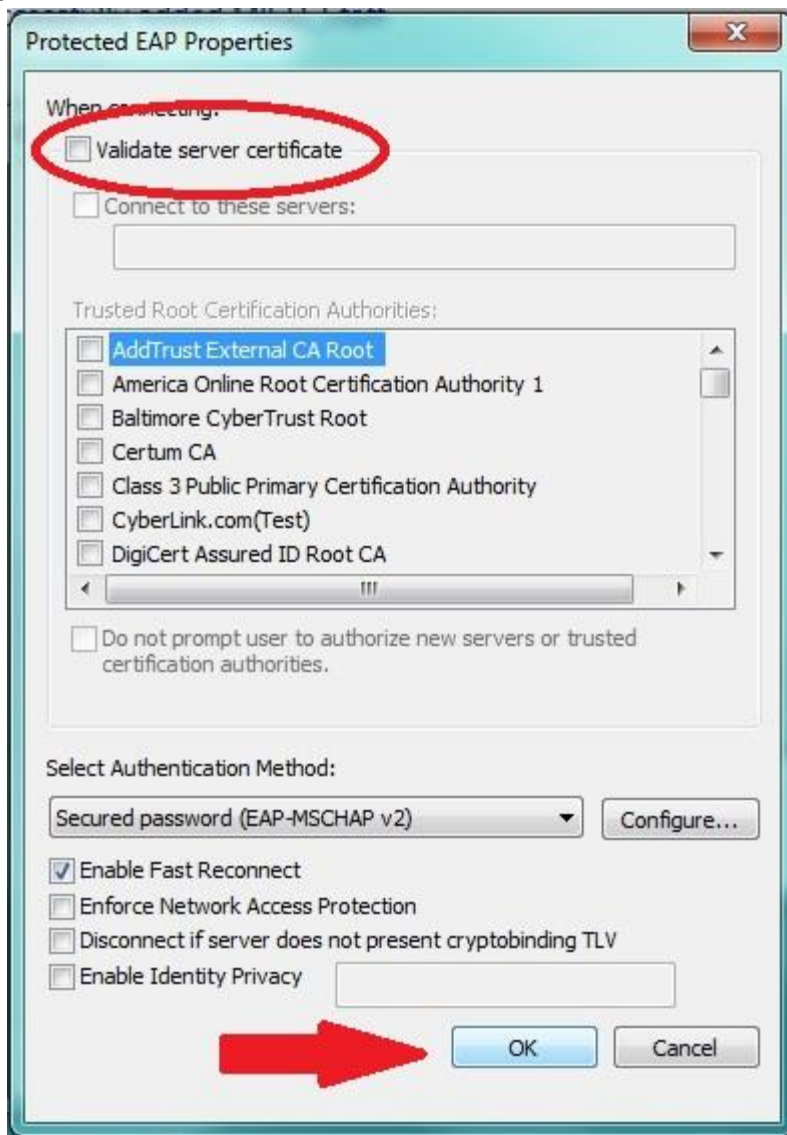

Step 8. Click "Change connection settings".

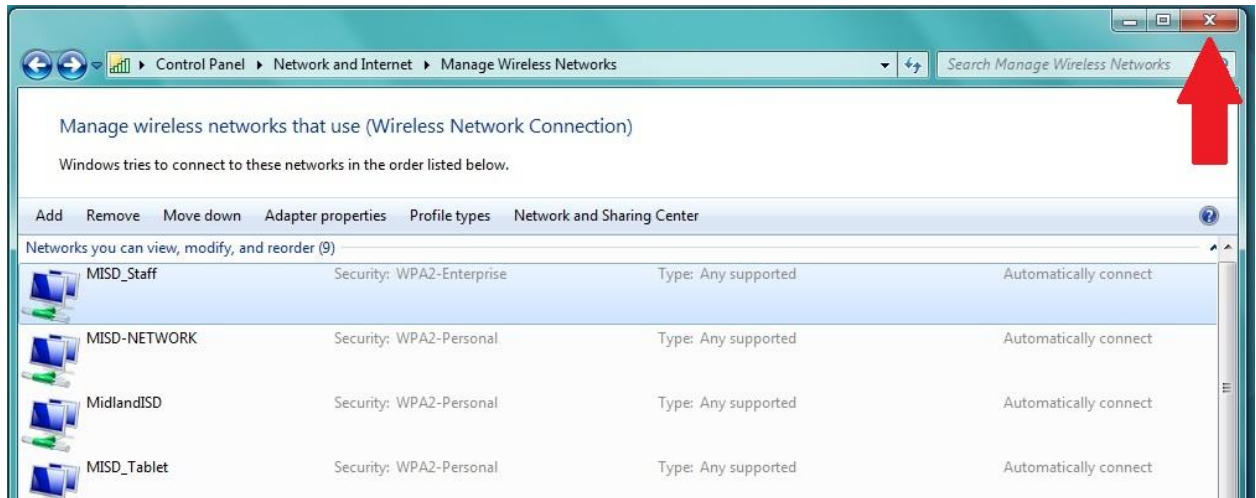

Step 9. Verify that the settings match the picture, change as necessary, then click “Settings”.

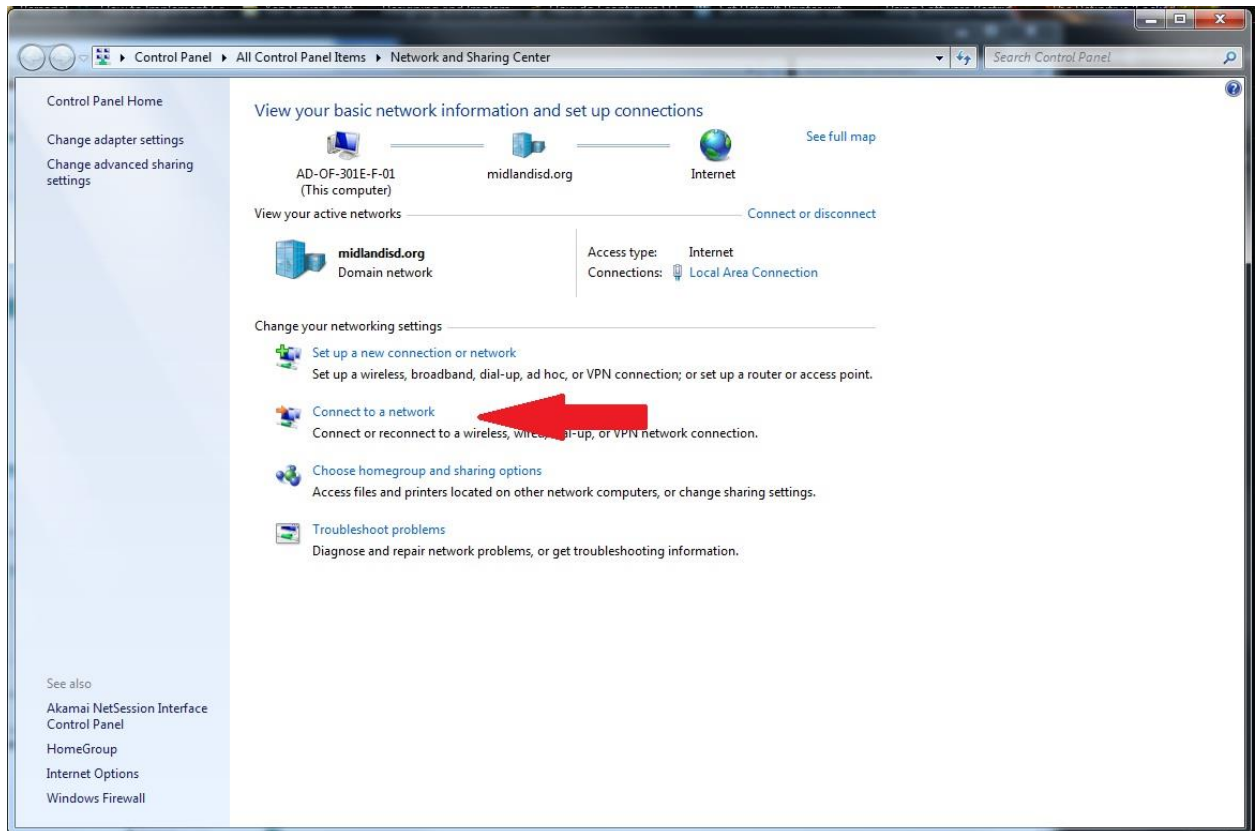

Step 10. Uncheck the “Validate server certificate check box” and then click “OK”.

Step 11. Close the “Manage Wireless Networks” window by clicking the “X” in the top right corner.

Step 12. Click “Connect to a network”.

Step 13. Click "MISD_Staff".

Step 14. Click "Connect".

Step 15. Input the username and password you use to login to your Windows computer in the “Windows Security” Box, then click “OK”.
