

Good morning Coach,

I hope your preparations for the Spring season are going well. I am reaching out again regarding our **Women's Rugby** program at Christian Brothers University in Memphis, TN.

We are already getting a number of student athletes applying for our brand new program for 2020-21, excited to build a legacy and play some high quality rugby in a great school.

We are really keen on producing an excellent squad with plenty of depth so if you have any recommendations for juniors/seniors that you believe could play as a Tight Five Forward, please let them know that we have an opportunity for them to play at the college level (**with scholarships available**) and forward their contact details so we can contact them directly. We are also interested in any other players that you may have that are coachable, committed and reliable – we believe that in our environment, character counts for everything.

If you could also encourage your players to fill out this form, it would be beneficial for our admissions department so that they can start putting offers together.

Feel free to give me a call, or if you'd prefer for myself or my assistant coach to call you, please let me know. We'd love to have a great relationship with you and your team and offer pathways for your students in the future too.

Many Thanks
Bryan Colbridge
