

Richland College

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

---

Communication Plan Conrad P-Tech has various methods to communicate to students, parents, and community stakeholders to support students or share information concerning academic and non-academic activities. We regularly update our website. We will promote our academy by attending various middle schools and PTECH events. We hold monthly meetings called Parent Universities to ensure parents have the most updated information to effectively support the rigorous program. We have our pre-scheduled Advisory Board and Steering Committee meetings which inform and update Richland College and Industry Partners of our progress on goals.
