

Dear Parents/Guardians:

We are preparing for the upcoming school year and athletic seasons. This letter is to inform you of the following item concerning athletic physicals:

New optional item for Electrocardiogram (ECG) on the PREPARTICIPATION PHYSICAL EVALUATION (PPE) form. When filling out the physical form all information on the first page (history section) must be complete before seeing your medical provider. The second page is for the medical provider to fill out. You will notice there is a new box to review under questions 19, 20, and 21. This is regarding Texas House Bill (HB) 76.

The University Interscholastic League (UIL) has updated their pre-participation examination (PPE) form to follow Texas House Bill (HB) 76. Texas HB 76 states that each student who is interested in participating in a sport at a UIL sanctioned campus, has the option to have an Electrocardiogram (ECG) test performed on their heart at the family's own expense.

Some may ask, why would I want my child to have this test performed on his/her heart. According to the American Heart Association, an ECG gives two major kinds of information.

- First, it measures time intervals of the heart on the ECG showing normal or irregular intervals.
- Secondly, it measures the amount of electrical activity of the heart muscle on the ECG showing normal or overworked heart muscle.

It is imperative that every Parent/Guardian understands, they have the right to choose or decline having an ECG test performed on their child. The Parent/Guardian has two options concerning the UIL PPE form:

- The first option is to decline the ECG and complete the physical as it has been done in the past. If you choose this option, simply don't check the box.
- The second option is to choose the ECG and complete the physical as it has been done in the past. If you choose this option, simply check the box. **This testing will be at Parent/Guardian expense.**

After the physical has been performed and you are wanting ECG done, you have the option to have your Family Physician perform ECG test at the parent/guardian expense.

Or you may consult with the Central or Campus Athletic Trainer to inquire about information on other providers that will perform the ECG at the parent/guardian expense.

Under the UIL guidelines, the student must be cleared for participation by the medical professional conducting the pre-participation physical exam before the student can participate. A student-athlete is not prohibited from participation until the ECG screen is conducted UNLESS the medical professional conducting the physical examination indicates such. If the student is cleared for participation by the medical professional conducting the physical, the student may participate until the ECG has been performed. If the physical is being turned in separately, the student will have 60 days to provide the ECG results to the athletic trainer to bring their file up to date.

In the event the ECG is not completed within the 60-day period, a new medical history form is required to be completed without the ECG box being checked. The student will not be clear to participate until a new medical history form is completed.

If you have any questions or concerns, please feel free to contact me by phone at 214-775-8904 or by email at ceaton@dallasisd.org.

It is understood that even though protective equipment is worn by athletes, whenever needed, the possibility of an accident still remains. Neither the University Interscholastic League nor the school assumes any responsibility in case an accident occurs.

If, in the judgment of any representative of the school, the above student should need immediate care and treatment as a result of any injury or sickness, I do hereby request, authorize, and consent to such care and treatment as may be given said student by any physician, athletic trainer, nurse or school representative. I do hereby agree to indemnify and save harmless the school and any school or hospital representative from any claim by any person on account of such care and treatment of said student.

If, between this date and the beginning of participation, any illness or injury should occur that may limit this student's participation, I agree to notify the school authorities of such illness or injury.

I hereby state that, to the best of my knowledge, my answers to the above questions are complete and correct. Failure to provide truthful responses could subject the student in question to penalties determined by the UIL
