<b>Pneumococcal</b> Pneumonia vaccine	1. On or after 12 months 2. After 12 months 3. After 24 months	1. Total of three doses with one dose on or after 12 months old 2. Two doses if both given after 12 months old 3. One dose if given on or after 24 months old
<b>Hepatitis A</b>	K-12th	Two doses with first dose on or after first birthday
<b>Meningococcal</b> Meningitis vaccine	7th-12th	One dose on or after 11th birthday A booster dose is recommended between age 16 and 18.

Upload a copy of your student's immunization records during online enrollment on SchoolMint, submit the record via email to [lmcentire@dallasisd.org](mailto:lmcentire@dallasisd.org), or bring a physical copy to the clinic.

### *Exemptions from Immunizations*

Exemptions from immunization requirements may be granted on a medical basis or for reasons of conscience. A medical exemption, signed by a physician, is required annually if not otherwise stated by the physician. Exemption for reasons of conscience must be submitted on an affidavit provided by the Texas Department of State Health Services (link provided below). Exemption for reason of conscience is granted for two years. Exemptions are not recognized in times of epidemics. Students will need to be immunized or not attend school if an epidemic is declared by the Commissioner of Health.

### *Provisional Enrollment for Missing Immunizations*

A student may be enrolled provisionally if the student has an immunization record that indicates the student has received at least one dose of each specified age-appropriate vaccine required by this rule. To remain enrolled, the student must complete the required subsequent doses in each vaccine series on schedule and as rapidly as is medically feasible and provide acceptable evidence of vaccination to the school.

A school nurse will review the immunization status of a provisionally enrolled student every 30 days to ensure continued compliance in completing the required doses of vaccination. If, at the end of the 30-day period, a student has not received a subsequent dose of vaccine, the student is not in compliance and the school shall exclude the student from school attendance until required dose is administered.
