## **ART**

If you like to paint, draw, or make things with your hands, this is the class for you! In this class you will learn how to mix color using a color wheel, make collages, learn different techniques to make beautiful works of art. You will learn about some famous artists and look at famous works of art. We watch some fun videos and learn about different aspect of the arts. You will learn what the Elements and Principles of Art and Design are for and how they can help you understand art. We do a clay unit, a painting unit, a collage/design unit, a wax resist unit and several more along with exploring the meaning of art. Come join me in the art room!

## **STEM**

STEM is for any student who enjoys hands-on projects and solving human problems in a laboratory setting. A variety of challenges will allow students to be creative as they design, build, test and redesign their prototypes. Some activities will go deeper into science knowledge and math skills, while others will develop student use of technology. The best part about STEM is there are no wrong answers and no mistakes!

## **INTRODUCTION TO FOREIGN LANGUAGE**

Are you interested in learning a little Spanish? French? German? Japanese? or maybe even Sign Language? Then this course is for you! Students will be introduced to several of these languages, and learn basic reading, writing, and speaking skills through games, activities, and other hands on learning. Students will also learn about world cultures through art, food, and music.

## **LEADERSHIP**

This class focuses on supporting our school community. We promote clubs, sports, music, SWARM and important events by making signs, flyers and other visuals. Students learn about the qualities of leaders and engage in team-building and decision-making activities. Through discussion and action we work to help Horizon be a positive place to be!
