Senate Bill 240 Money-Back Guarantee Policy

Per Senate Bill 240, the Family Service Center is required to refund the cost of tuition to students in either of our vocational programs should they not be able to find a job in the field in which they were trained within six months of successful completion of the program.

To qualify for tuition reimbursement, students will be required to have met class attendance policy including theory and clinical hours, met minimum grade requirements, participated in job search presentations as well as participation in student career day activities with the institution's career services department. Additionally, students must pass their state licensure examination within two months of completing the program, provide documentation that they have attempted to seek employment in the field in which they were trained as well as provide proof of non-employment options with such agencies.
