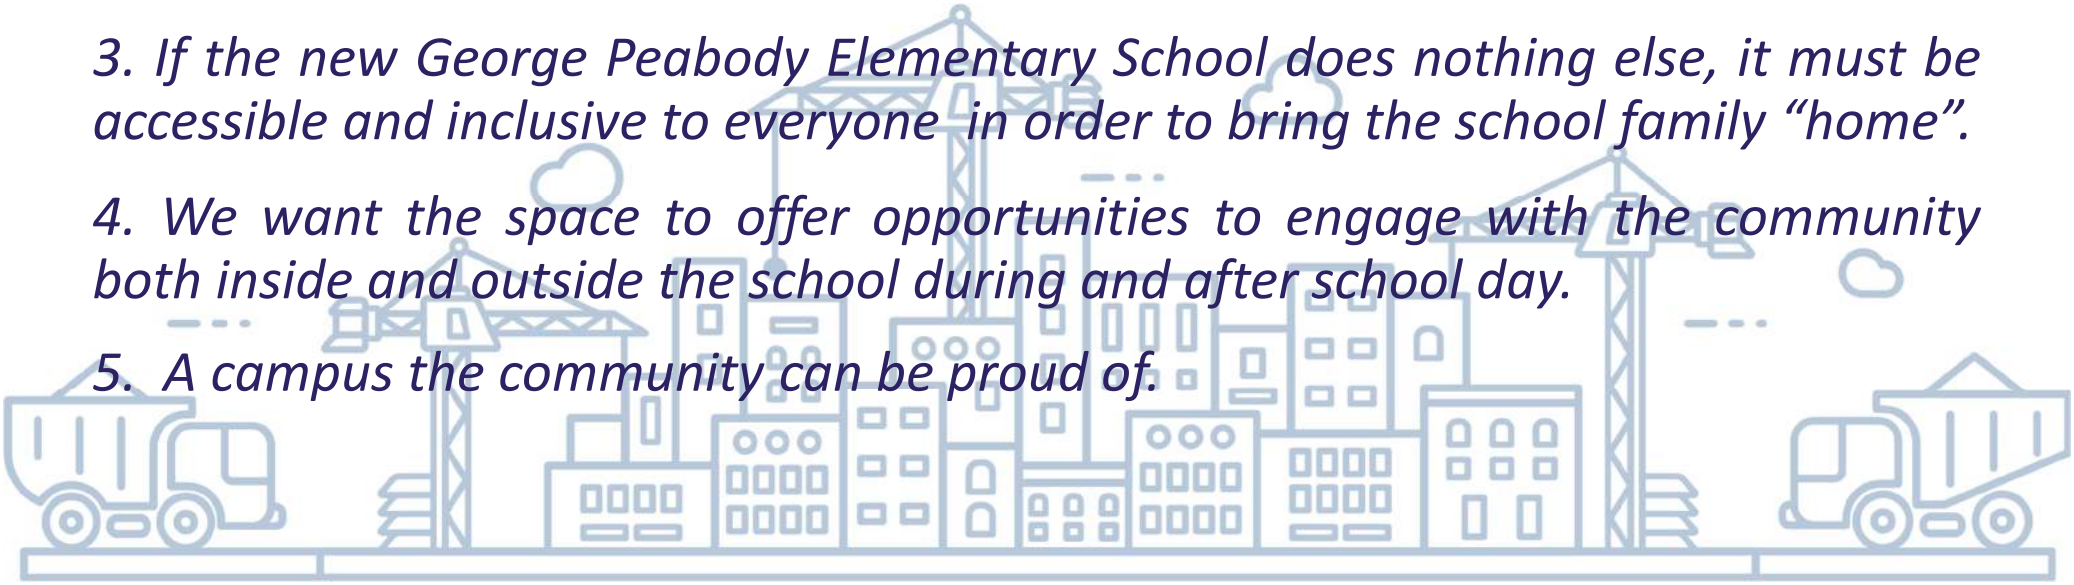
BIG Ideas

Bold, Innovative, and Generational

1. Every space of the new George Peabody Elementary School will inspire all stakeholders because it will be inviting, welcoming, and safe to everyone who enters the front doors.

2. In the new building, gathering will have the greatest impact on student engagement because it will have a lot of hands-on learning including makerspace, technology, and 21st century teaching and learning that all students will be able to take part in and have ownership.

3. If the new George Peabody Elementary School does nothing else, it must be accessible and inclusive to everyone in order to bring the school family "home".

4. We want the space to offer opportunities to engage with the community both inside and outside the school during and after school day.


5. A campus the community can be proud of.
