How to Open Forms in Microsoft Edge:

The following describes launching the Forms application with Java Web Start using Edge.

1. Open the Edge web browser.

2. Log in to Oracle E-Business Suite.

3. Choose a responsibility (such as DISD Campus.Org Inquiry and Reports).

4. Click on an Oracle Forms based menu item (for example, Account Inquiry) to initiate the download of frmservlet . jnlp.

A new browser tab opens at the bottom of the window and the downloaded frmservlet . jnlp is saved in the Downloads folder as shown in the following image:

5. Click OPEN to execute the file.
The Forms application is started with Java Web Start.
