

Why Have a Data Team?

A **Data Team** consists of a small group of people with complementary skills sharing a common purpose which is focused student achievement and adheres to a self-imposed accountability.

(Love, N., Stiles, K., Mundry, S., DiRanna, K., 2008)

- ▶ **Data Teams** support the campus data-driven decision-making process.

Data Teams Support the Campus with:

- ▶ Leadership
- ▶ Planning
- ▶ Communication
- ▶ Instructional Support
- ▶ Student Achievement

- ▶ The **Data Team** will work through the campus' data analysis process, make instructional decisions and communicate goals and results to campus stakeholders.

Question

- ▶ How do you see a **data team** supporting your campus?

Resources for Data Teams

The Data Coaching Website

The screenshot shows the Dallas Independent School District (ISD) Data Coaching Services website. The header includes the district logo and name, along with contact information: 3700 Ross Avenue, Dallas, TX 75204 | Phone: (972) 925-3700. A navigation bar lists various departments, with 'Departments' highlighted. A left sidebar contains a 'Contents' menu with links to Data Coaching Services, About the Data Coaching Program, Data Literacy Toolbox, Data Literacy Review, Data Advisory Team, and Contacts. The main content area features a 'Data Literacy Toolbox' section with a circular diagram of the data literacy process (Frame the Question, Collect the Data, Analyze the Data, Interpret the Data, Select Actions, Monitor Results) and a 'Data Literacy Review' section. A 'Learn More' button is visible. A welcome message states: 'Welcome to the Dallas ISD Data Coaching Program! We believe in providing educators with the data tools they need to improve student achievement. For more information, please select one of the three categories above and then click the 'Learn More' button.'
