

Navigating Dallas ISD Source Systems

GradeSpeed

What is GradeSpeed?

- * GradeSpeed is a web-based Grading System used by Dallas ISD campus teachers and administrators to manage grading, reporting and attendance.
- * The program provides categories and weights for assignments, progress reports, cumulative grades and a seating charts.
- * This resource is accessible to authorized users from district computers or from home.

What is available on GradeSpeed?

- Class Rosters
- Seating Charts
- Schedules
- Student Characteristics
- And much more depending on your role

GradeSpeed contains features which help organize their grading records. Teachers can establish grading categories, generate progress reports, view cumulative grades and develop a seating chart to streamline attendance recording.
