College and Career Readiness Annual Report, 2017

Annual Report on Dallas ISD Postsecondary Outcomes

EXECUTIVE SUMMARY

The Dallas ISD Board of Trustees set the vision for the district to be a premier urban school district with the mission to educate all students for success. Ensuring that all students graduate from high school prepared to successfully transition into college or career is critical because the demand for skilled labor is increasing. The U.S. Department of Labor projects that by 2020, there will be twice as many jobs that require employees to have at least an associate's degree than those that will not require any postsecondary schooling. Jobs requiring some type of postsecondary education, which includes associate degrees, will grow faster than all other jobs (Joo & Kim, 2016). Additionally, workforce projections indicate that by 2018, 63% of all jobs in the United States, and 90% of the jobs in growing industries, will require some postsecondary training.

Therefore, high school graduates must be equipped with the knowledge and skills to successfully transition into college or a career. Education beyond high school is a prerequisite for a secure lifestyle and significantly improves the probabilities of employment and a stable career with a positive earnings trajectory (College Pays, 2013). To that end the Dallas Independent School District has implemented several programs and initiatives to achieve the goal of graduating students that are college and career ready. Most notably the Pathways in Technology Early College High School (P-TECH) initiative which at full scale significantly increases the number of students obtaining a college degree while in high school and will positively impact thousands of students each year.

Additionally, district open enrollment policies allow secondary students to select from a wide variety of college and career preparation programs such as Advanced Placement (AP), International Baccalaureate (IB) and 200-plus Career and Technical Education (CTE) pathways. In collaboration with the Dallas Community College District (DCCCD) and workforce organizations—Dallas ISD has worked diligently to expand college and career options designed to meet the needs of the projected Texas workforce. In particular, the P-TECH initiative was designed to establish pathways in career clusters that pay a livable wage. Figure 1 shows projected state growth in each of the sixteen Career Clusters.

Figure 1: Achieve Texas 2020 Career Cluster Job Growth with Wages (bubble size equals number of jobs)

Source: *Will and Skill: Aligning Educational Initiatives with the Texas Labor Market*, Labor Market and Career Information (LCMI), Texas Workforce Commission

This report examines postsecondary outcomes for Dallas ISD students. Postsecondary outcomes included in this report are:

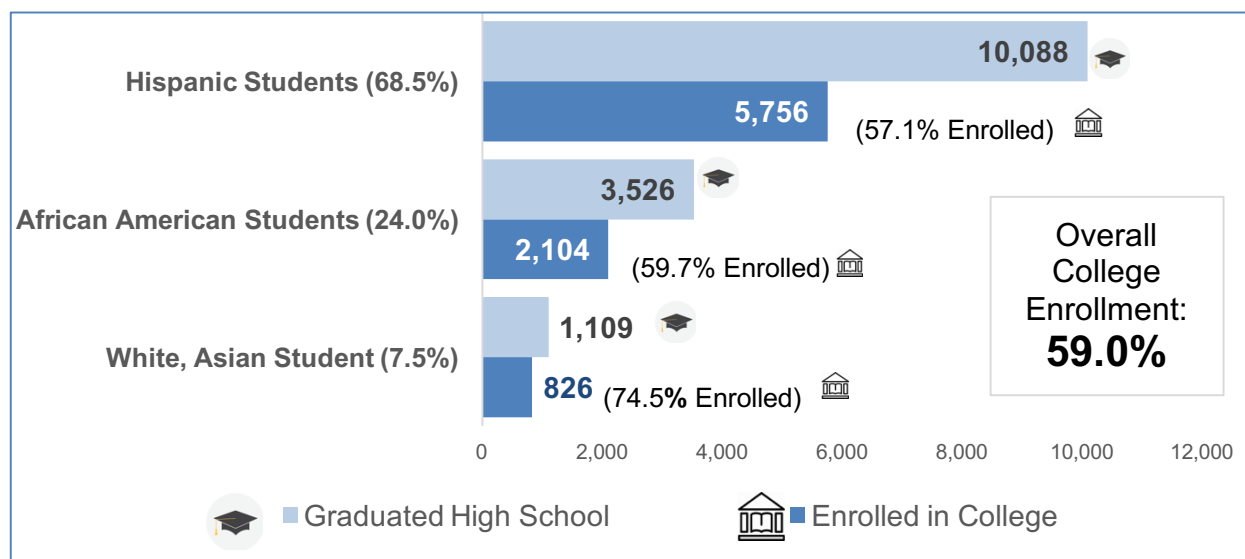

- Advanced Placement (AP), International Baccalaureate (IB), and Dual Credit completion;
- State college readiness accountability measures;
- 2017 ApplyTexas, Free Application For Federal Student Aid (FAFSA), and college scholarship completion rates;
- Industry-recognized certification completion (2015 to 2017);
- Classes of 2015 and 2016 college enrollment and completion by high school; and
- Top colleges in which Dallas ISD graduates enrolled (2014-2015 and 2015-2016).

MAJOR FINDINGS

The 2017 National Clearing House Report for Dallas ISD lists a total of 7,461 graduates in the Class of 2016 of which 4,176 (56%) enrolled in college in the Fall immediately after high school. Furthermore, 59.0 percent of Dallas ISD high school graduates from 2015 through 2016 enrolled in college within two years. Figure 2 below illustrates the high school graduation and college enrollment for district graduates by race and ethnicity for the classes of 2015 and 2016. Of the 14,885 Dallas ISD high school graduates in this time period, 68.5 percent were Hispanic; 24.0 percent were African American; and 7.5 percent were white, or Asian. In terms of postsecondary enrollment, District Hispanic high school graduates enrolled in college at a rate of 57.1 percent, District African-American students at a rate of 59.7 percent, and District white or Asian students at a rate of 74.5 percent.

COLLEGE AND CAREER READINESS INITIATIVES

District College and Career Readiness (CCR) programs and initiatives include P-TECH and Early College High Schools, CTE and Post-Secondary Success programs which are housed in the Strategic Initiatives and External Relations department. The P-TECH and CTE programs are designed to support career education through workforce development and industry partnerships. The Postsecondary Success programs focus on building a strong foundation of college readiness. The Postsecondary Success programs also are designed to develop tools and provide support systems for students, their families, counselors, and district and campus administrators and teachers in order to help ensure that Dallas ISD graduates will have the opportunity to earn a living wage in a career field that offers advancement and lifelong learning opportunities. Additional district advanced academic programs supported by the Advanced Academic Services team located within the Teaching and Learning Department include AVID, AP and IB. CCR strategic initiatives include the following:

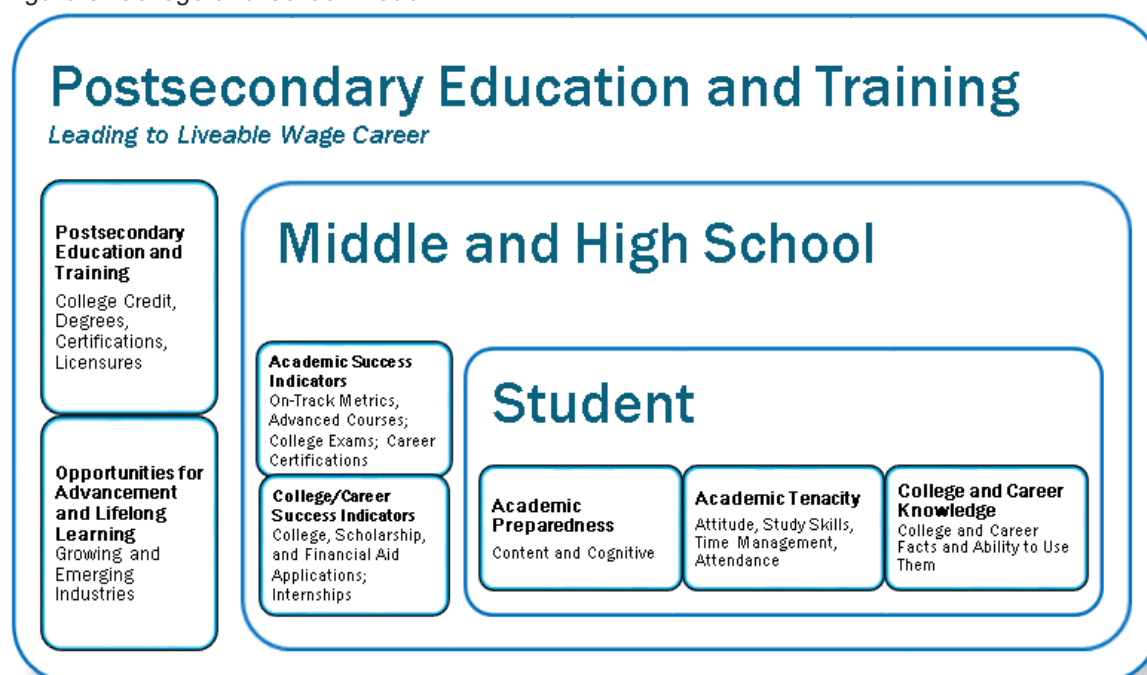

- ✓ Providing a comprehensive CCR online platform for college and career information through Naviance;

- ✓ Providing students with opportunities to earn college credit at no cost via the P-TECH Early College programs; early college high schools; dual credit programs with the DCCCD and other colleges at no cost; and AP, IB, and Project Lead The Way (PLTW) exams at no cost;
- ✓ Providing over 200 career pathways and thousands of industry-recognized certification exams at no cost;
- ✓ Providing college entrance exams at no cost through administration of in-school PSAT (8th grade and sophomores), SAT (juniors) and ACT (seniors); and
- ✓ Developing and implementing a tracking system to monitor student progress in dual credit programs.

DALLAS ISD MODEL

The model used by Dallas ISD to define major leading indicators is illustrated in Figure 3. It contains the metrics used to measure K-12 student performance, secondary-school level indicators, and postsecondary success. These indicators are based on research conducted by the district with Stanford, Brown, Harvard, Johns Hopkins, and University of Chicago researchers.

Figure 3: College and Career Model

STATE ACCOUNTABILITY FOR COLLEGE READINESS MEASURES

The state of Texas issues the Texas Academic Performance Report (TAPR) annually. The table below shows selected college and career readiness measures from the 2015-2016 report in order to compare Dallas ISD performance with the state and Region 10. Beginning in 2014, the PSAT (10th grade), SAT (11th grade), and ACT (12th grade) were administered during the school day free of charge to students.

Table 1: TAPR College Readiness Measures from Dallas ISD 2017 TAPR

<i>Metric</i>	<i>Year</i>	<i>State of TX</i>	<i>Region 10</i>	<i>District</i>
Advanced Course/Dual Enrollment Completion				
Any Subject	2015-16	55.0%	57.3%	61.2%
Any Subject	2014-15	54.5%	55.9%	58.8%
SAT/ACT Results				
Tested	Class of 2016	71.6%	74.4%	100.0%
	Class of 2015	68.3%	73.8%	n/a
At/Above Criterion	Class of 2016	22.5%	27.0%	8.2%
	Class of 2015	24.3%	27.9%	8.4%
College Readiness				
College-Ready Graduates/English Language Arts	2015-16	50.6%	50.6%	29.1%
	2014-15	42.0%	42.0%	15.0%
College-Ready Graduates/Mathematics	2015-16	44.6%	44.0%	22.1%
	2014-15	38.0%	38.0%	14.0%
College and Career Ready Graduates	2015-16	75.9%	77.0%	88.4%
	2014-15	74.5%	76.8%	92.2%
Graduates Enrolled in Texas Institution of Higher Education (IHE)*	2014-15	56.1%	55.6%	51.2%
	2013-14	57.5%	56.8%	50.9%
Graduates in Texas IHE Completing One Year (of College) Without Remediation	2014-15	55.6%	55.0%	37.0%
	2013-14	70.5%	72.3%	62.7%

COLLEGIATE ACADEMIES P-TECH

In an effort to expand opportunities for traditionally underrepresented students who would be first-generation college students, the Dallas ISD opened eight new Collegiate Academies in 2016-17 in partnership with the Dallas County Community College District (DCCCD). Opportunities provided to Collegiate Academy (CA) students include:

- ✓ Earning up to 60 hours of tuition-free college credit and/or a tuition-free associate of applied science degree while attending high school,
- ✓ Eliminating thousands of dollars from the cost of attending college,
- ✓ Reducing the time necessary to earn a four-year degree by graduating from high school with two completed years of college,
- ✓ Entering the job market with a career-ready skill upon completion of high school, and
- ✓ Gaining familiarity with the effort required for successful completion of college-level coursework.

CA students are required to enter the academy in grade nine and move together through high school as a cohort. A wide variety of career pathways were available to students in 2016-17, with two to four pathways available per campus. Each CA has a higher education partner and offers academic pathways leading to an associate of applied science degree.

Figure 4 and the next two pages shows the first cohort of the Collegiate Academy initiative, including their industry and higher education partners.

Figure 4: 2016-17 Collegiate Academy Pathways, Industry Partners, and Higher Education Partners

David W. Carter Collegiate Academy

1819 W. Wheatland Road
Dallas, TX 75232
214.932.5700
www.dallasisd.org/carter

Carter Collegiate Academy will focus on Public Safety, Business, and Technology. Students can choose from the following pathways for a head start on some of the fastest-growing careers of the future:

Pathways

- Business (beginning 2017)
- Computer Graphics
- Law Enforcement
- Network Administration and Support

Industry Partners

- City of Dallas Police Department
- Wells Fargo Bank
- Dallas Fire & Rescue
- Dallas ISD Police Department

Higher Education Partner

- Cedar Valley College

Emmett J. Conrad Global Collegiate Academy

7502 Fair Oaks Ave.
Dallas, TX 75231
972.502.2300
www.dallasisd.org/conrad

Dr. Emmett J. Conrad Global Collegiate Academy is tailor-made for students interested in science, technology, engineering and mathematics (STEM). Students can opt to follow one of five pathways:

Pathways

- Allied Health
- Gaming
- Network Administration and Support
- Software Programming

Industry Partners

- STEMuli Education
- SMU – Guildhall
- JPMorgan Chase & Co.
- Magnin & Associates
- HCA Medical City Children's Hospital
- GameStop
- [X] Cube Games

Higher Education Partner

- Richland College

Thomas Jefferson Collegiate Academy

4001 Walnut Hill Lane
Dallas, TX 75229
972.502.7300
www.dallasisd.org/tjefferson

Thomas Jefferson Collegiate Academy is seeking students who want to pursue careers in business and technology. With a strong focus on the values of citizenship, leadership, self-direction and creativity, Jefferson offers these career pathways:

Pathways

- Business Administration
- Software Programming
- Visual Communications

Industry Partners

- Telemundo
- NBC 5
- Pinnacle Group
- Art Group

Higher Education Partner

- Brookhaven College

Seagoville P-TECH at Eastfield College

15920 Seagoville Road
Dallas, TX 75253
972.892.5900
www.dallasisd.org/seagovillehs

P-TECH stands for Pathways to Technology Early College High School. Based on a six-year high school model, Seagoville P-TECH at Eastfield College, the first of its kind in Texas, is perfectly positioned to launch students into STEM-related careers. With the backing of its industry partners, students will receive hands-on experience and mentoring in the following pathways:

Pathways

- Business Administration
- Personal Computer Support
- Software Programming

Industry Partners

- AT&T
- Accenture
- NFTE

Higher Education Partner

- Eastfield College

<p>Higher Education Partner</p>		 <p>El Centro College DALLAS COUNTY COMMUNITY COLLEGE DISTRICT</p>	

Note: Shading for Madison, Pinkston, and Roosevelt indicates a different DCCCD higher education partner than South Oak Cliff.

Demographics of Collegiate Academies

Cohort I was comprised of 906 students enrolled at the eight CAs in 2016-17. Overall, as shown in Table 2, slightly over half of cohort I CA students were Hispanic (59%) and Female (58%), and the majority of students were economically disadvantaged (84%) and at risk (64%). Although CA student demographics were generally similar to the Dallas ISD high school students overall, cohort I CA students were more likely than district high school students to be African American (36% CA; 22% district), more likely to be female (58% CA; 50% district), less likely to be Hispanic (59% CA; 70% district), more likely to be economically disadvantaged (84% CA; 70% district), and more likely to be at risk (64% CA; 50% district).

district), and less likely to be enrolled in special education (3% CA; 9% district). Table 3 shows demographic characteristics by campus.

Table 2: 2016-17 Collegiate Academy and District Student Demographic Characteristics

Note: Data included 1,249 courses with a 0.5 credit and 165 courses with 1.0 credit. Four students were not assigned final grades, and one student did not have credit attempted and credit earned information. Data for these five students were not included in totals.

Collegiate Academy Attendance, Retention Rates, and STAAR/EOC Results

Table 6 shows CA student attendance information for fall 2016, spring 2017, and for the 2016-17 school year. Attendance rates for CA students exceeded attendance rates for non-CA students at all campuses and overall (96% CA versus 92% non-CA).

Table 6: 2016-17 Collegiate Academy Student Attendance Rates by Campus

Source: District demographic file dated 10/31/2016. District attendance files dated 04/20/2017 (fall) and 06/20/2017 (spring).

Note: Attendance rate difference was calculated by subtracting the attendance rate for non-Collegiate Academy students from the attendance rate for Collegiate Academy students. Diff. = attendance rate difference. CA = Collegiate Academy. Non-CA = grade nine students at same high school who were not Collegiate Academy students. PT = P-TECH. SOC = South Oak Cliff.

Table 7 shows CA retention rates for 2016-17. Rates of retention ranged from 93 percent (Roosevelt CA) to 98 percent (Conrad CA and Pinkston CA), and 96 percent of CA students enrolled at the beginning of the 2016-17 school year remained at the same CA campus at the end of the year.

Table 7: 2016-17 Collegiate Academy Student Retention Rates by Campus

Campus	# Enrolled BOY 2016	# Retained EOY 2017	% Retention BOY - EOY
Carter CA	118	114	97
Conrad CA	115	113	98
Jefferson CA	124	120	97
Madison CA	95	90	95
Pinkston CA	113	111	98
Roosevelt CA	113	105	93
Seagoville PT	115	112	97
SOC CA	113	107	95
All CAs	906	872	96

Source: District demographic files dated 10/31/16 and 04/03/2017.

Note: BOY = Beginning of Year (as of 10/31/16). EOY = End of Year (as of 4/3/17). CA = Collegiate Academy. PT = P-TECH. SOC = South Oak Cliff. Two students transferred between Collegiate Academy campuses but were not coded as "retained". Of the remaining 32 students not retained, 16 students withdrew from the district and 16 students transferred to non-Collegiate Academy campuses.

Figure 5 shows the percent of collegiate academy students meeting the approaches grade level standard on the 2017 state EOC exams. As the data indicates, the majority of collegiate academy students exceeded the district average on all exams.

Figure 5: Collegiate Academy STAAR/EOC for 2016-2017

Source: STAAR EOC data files 06/14/2017 and demographic file dated 10/31/2016.

Note: Rates are for students enrolled in the district at each campus as of 10/31/2016 for first and second administration of all versions but Alternate 2 of STAAR EOC exams. Rates represent students who have met or exceeded the approaches grade level standard. CA = Collegiate Academy. PT = P-TECH. SOC = South Oak Cliff.

DISTRICTWIDE DUAL CREDIT

While the P-TECH program is the District's newest dual credit program, the District continues to provide dual credit opportunities to all of our students. A total of 1,823 Dallas ISD students participated in dual credit courses during fall 2016, an 19.4 percent increase from 2015-16 ($N = 1,527$). As shown in Table 8, 30 percent of the students enrolled in dual credit were enrolled in more than one course.

Table 8: 2016-17 Number of Dual Credit Courses Taken by Dallas ISD Students

Number of Courses	All Students	
	N	%
1	1,278	70.1
2	517	28.4
3	7	0.4
4	21	1.2
Total	1,823	100.0

Source: District secondary course files dated February 6, 2017. District PEIMS demographic data file dated October 31, 2016. District CTE status PEIMS file dated July 25, 2017.

Note: Percentages may not add up to 100 due to rounding.

In all, there were 2,417 enrollments in dual credit courses (Table 9). The largest number of students enrolled in dual credit courses ($n = 203$) were at Townview Business Magnet. Overall, dual credit enrollment increased by 546 students, or 29 percent, compared to 2015-16 ($n = 1,871$; Turner, 2016) largely due to the expansion of collegiate academies.

Note: CTE = Career and technical education. NAF = National Academy Foundation N = number of enrollments. Students could be enrolled in more than one course. “-” indicates that no students were enrolled. Percentages may not add up to 100 due to rounding.

As shown in Table 10, the expansion of collegiate academies led to a larger percentage of grade nine students ($n = 478$, 19.8%) enrolled in dual credit courses than grade 10 students ($n = 432$, 17.9%).¹ Overall, the majority of dual credit enrollees were in grades 11 and 12 ($n = 1,507$, 62.3%).

¹ The eight collegiate academies were solely comprised of grade nine students in 2016-17 (see Palladino et al., 2017).

Table 10: 2016-17 Dual Credit Enrollments by Grade and CTE Status

Grade	Total		Non-CTE		CTE Elective		Coherent Sequence		NAF

CAREER AND TECHNICAL EDUCATION

The Carl D. Perkins Career and Technical Education Act of 2006 helped support the Department of Career and Technical Education (CTE) of the Dallas Independent School District (ISD). The goals of the CTE program were to prepare students for college and career success, to provide them with the skills to be competitive in a global economy, and to recognize and meet the unique needs of a diverse student population. Dallas ISD campuses offered courses and course sequences aligned with 16 career clusters or broad groupings of occupations and industries based on related disciplines.² Dallas ISD followed the career cluster framework but used the term career pathways³ to distinguish these groupings offered at each high school campus from the career clusters. A Texas Education Agency (TEA) grant of \$2,702,107 funded the CTE program in 2016-17. The CTE program used these funds to buy equipment, pay central staff salaries, provide professional development for teachers, support curriculum, and provide career counseling.

² As defined by U.S. Department of Education accessed on September 21, 2017, <https://www2.ed.gov/about/offices/list/ovae/pi/cte/factsh/career-clstrs-prgrms-study-fs080528qa-kc.pdf>

³ Career clusters are analogous to industries in the workforce. Career pathway is the term used to describe the school-level programs in the Dallas ISD.

In 2013, the Texas Legislature passed House Bill 5 (HB 5), which replaced existing high school graduation plans with a new foundation curriculum. High school students were required to complete this foundation curriculum plus additional coursework under one of five diploma endorsements, three of which were CTE-related: 1) business and industry, 2) public service, and 3) Science, Technology, Engineering, and Mathematics (STEM).⁴ Table 12 below shows the overall CTE enrollment in grades six through 12 for CTE Electives and Coherent Sequence coursework. As shown in Table 13, CTE elective and coherent sequence students most often enrolled in the business, management, and administration courses ($n = 6,007, 17.3\%$), followed by information technology courses ($n = 4,679, 13.5\%$).

Table 12: 2016-17 Student Enrollment by Grade Level and CTE Status

Source: Data were provided by the Department of CTE on March 29, 2017.

Note: A/V = Audio and video. ^aHistorically, the business and marketing career clusters were separate. Starting 2014-15, the two clusters were combined. For the purposes of this table, the number of pathways within business and marketing were combined for previous years. ^bThe manufacturing pathway was in the planning stage in 2014-15, and began enrolling students in 2015-16.

Career Certification

According to The Georgetown University Center on Education and the Workforce, certificates have rapidly increased to become the second most common postsecondary award in the nation. More than one million certificates are awarded each year. In the context of concerns about rising college costs and student loan debt, certificates, which are cheaper and take less time to complete than college degrees, have become of increasing interest to researchers, institutions, and other stakeholders in higher education. A 2012 report, *Certificates: Gateway to Gainful Employment and College Degrees* (<http://cew.georgetown.edu/certificates/>), analyzes earnings by field of study, sex, race/ethnicity, and program length.

Career certification attainment by Dallas ISD students was at 310 in 2010-2011. During the 2016-17 school year, 4,645 passed certification exams. *Table 15 shows the number of career certifications earned in 2016/17 by unduplicated students.*

Table 15: 2016-17 Number of Certifications Earned

Number of Certification Exams Passed	Number of Unduplicated Students	Number of Certifications Earned

Note: "-" indicates no certification exams were taken.

State Assessment Performance

As shown in Figure 7 on the following page, passing rates for *STAAR EOCs* in grades nine through 12 varied among students participating in CTE related programs and those not participating in such programs.

Figure 7: 2016-17 STAAR EOC Passing Rates for CTE, Non-CTE, NAF, and State

Source: District STAAR EOC file dated June 14, 2017. District PEIMS demographic data file dated October 31, 2016. District CTE status as reported by PEIMS on July 25, 2017. Department of CTE NAF file dated December 1, 2016. State rates pulled from the 2016 PBMAS report.

Note: CTE = Career and technical education. NAF = National Academy Foundation. *Indicates an overall statistically (stat) significant (sig) difference (diff) between CTE, non-CTE, and NAF. a = stat sig diff between CTE and non-CTE. b = stat sig diff between non-CTE and NAF. c = stat sig diff between CTE and NAF. EOC = end of course.

Enrollment in National Academy Foundation Programs in District High Schools

A total of 6,608 students participated in 42 National Academy Foundation (NAF) academies. Kimball High School's Academy of Hospitality and Tourism had the highest student enrollment in the district ($n = 382$), followed by Spruce High School Academy of Finance ($n = 357$).⁵

Note: NAF = National Academy Foundation. HS = High school. AOE = Academy of Engineering. AOHS = Academy of Health Science. AOIT = Academy of Information Technology. AOF = Academy of Finance. AOHT = Academy of Hospitality and Tourism. n = number of students.

⁵ Two additional NAF academies, White HS Academy of Finance (AOF) and Academy of Information Technology (AOIT), were in a planning year and students in these programs were not included in Table 6. Appendix B includes the students enrolled in the two NAF academies at White High School and are designated as "NAF Planning Year."

COLLEGE ACCESS PROGRAM

The Postsecondary Success department manages the College Access Program (CAP)—vendors who are funded through Title I to supplement high school counselor work with individual or small groups of students—and the Institutions of Higher Education (IHE) Partners funded by federal, state, and local sources and governed by the THECB. The IHE Partner programs include TRIO Educational Talent Search/Upward Bound, Go Centers, Advise Texas, SMU College Access, and UT Outreach.

The College Access Program was created to meet the needs of the Dallas ISD for increased student college applications, scholarship applications, participation and performance on college entrance exams, and parental involvement in the college admissions and financial aid process. The three CAP vendors

selected for the 2016-17 school year were Academic Success Program (ASP), Education is Freedom (EIF), and Southern Methodist University (SMU). The program served students in grades nine to 12 in high schools receiving Title I funds. One CAP vendor was selected to serve each campus, and each CAP vendor assigned a CAP advisor to provide supplemental, individual, and small group assistance to students and parents. This assistance included advisement on using Naviance (an online college and career readiness tool), completing college and financial aid applications, including scholarship application essays, registering and preparing for *SAT*, *ACT*, and *Texas State Initiative Assessment (TSIA)* tests, and attending college fairs. Table 19 on the next page shows by campus, the percent of seniors with Apply Texas and FAFSA applications completed, the percent of seniors earning a Recommended or Distinguished graduation plan, and the percent having taken the SAT or ACT.

Dallas ISD Graduates – College Enrollment By Type and Location

Most Dallas ISD graduates enroll in in-state, public colleges versus private colleges. The table below shows results from 2012 to 2016 for students enrolled any time during the first two years after high school. Most Dallas ISD graduates first enroll in two-year colleges. Predominantly, those are the seven colleges within the Dallas County Community College District. Table 22 shows college enrollment from 2015 and 2016 for the top fifty colleges.

Table 21: College Enrollment by Level, Type, and Location 2012 to 2016

	2012	2013	2014	2015	2016	Five Year Average

ACT AND SAT OUTCOMES, DISTRICT AND SCHOOL-LEVEL, 2016-17

Beginning in 2014, the PSAT (10th grade), SAT (11th grade), and ACT (12th grade) were administered during the school day free of charge to students. In comparison to previous years, the percentage of senior participants and mean composite scores slightly increased. While the total number of seniors decreased in 2016-17, the number of students tested increased.

ACT Administration

Eighty-seven percent of Dallas ISD seniors took the *ACT* on September 27, 2016, compared to 86 percent in 2014-15 and 84 percent in 2015-16. The mean composite score increased from 16 in 2014-15 and 2015-16 to 17 in 2016-17. In addition, 18 percent of seniors met the college readiness benchmark compared to 15 percent in 2014-15 and 17 percent in 2015-16. Tables 23 to 25 show 2016-17 *ACT* participation numbers, participation rates, average composite scores, and rates of seniors meeting ACT college readiness benchmarks, respectively, by campus.

SAT Administration

Dallas ISD administered the SAT to 11th grade students on March 1, 2017. The College Board redesigned the SAT test in 2016, and the new test includes sections for evidence-based reading and writing (ERW) and mathematics. Scale scores in each section range from 200 to 800, and composite scores range from 400 to 1600.⁶ Of district juniors, 7,483 (83%) took the school-day SAT in 2016-17. Figure 9 shows the percentage of juniors who participated in school-day SAT testing by campus and for the district overall. These juniors achieved a mean composite score of 915. Furthermore, 37 percent of test takers met or exceeded the college readiness benchmark for ERW, and 19 percent met or exceeded the mathematics college readiness benchmark. Figures 10 and 11 show the percentage of juniors who met or exceeded the school-day SAT ERW and mathematics college readiness benchmarks, respectively, by campus and for the district overall.

⁶ Prior to March 2016, the SAT test included critical reading, writing, and mathematics sections with scale scores that could range from 200 to 800 for each of the three sections, and the composite SAT score could range 600 to 2400 (College Board, 2015).

Figure 9: 2016-17 Percentage of Juniors Who Participated in School-Day SAT Testing by Campus (N=9,014)

Figure 10: 2016-17 Percentage of Juniors Meeting or Exceeding School-Day SAT College Readiness Benchmark for ERW (480) by Campus (N=7,483)

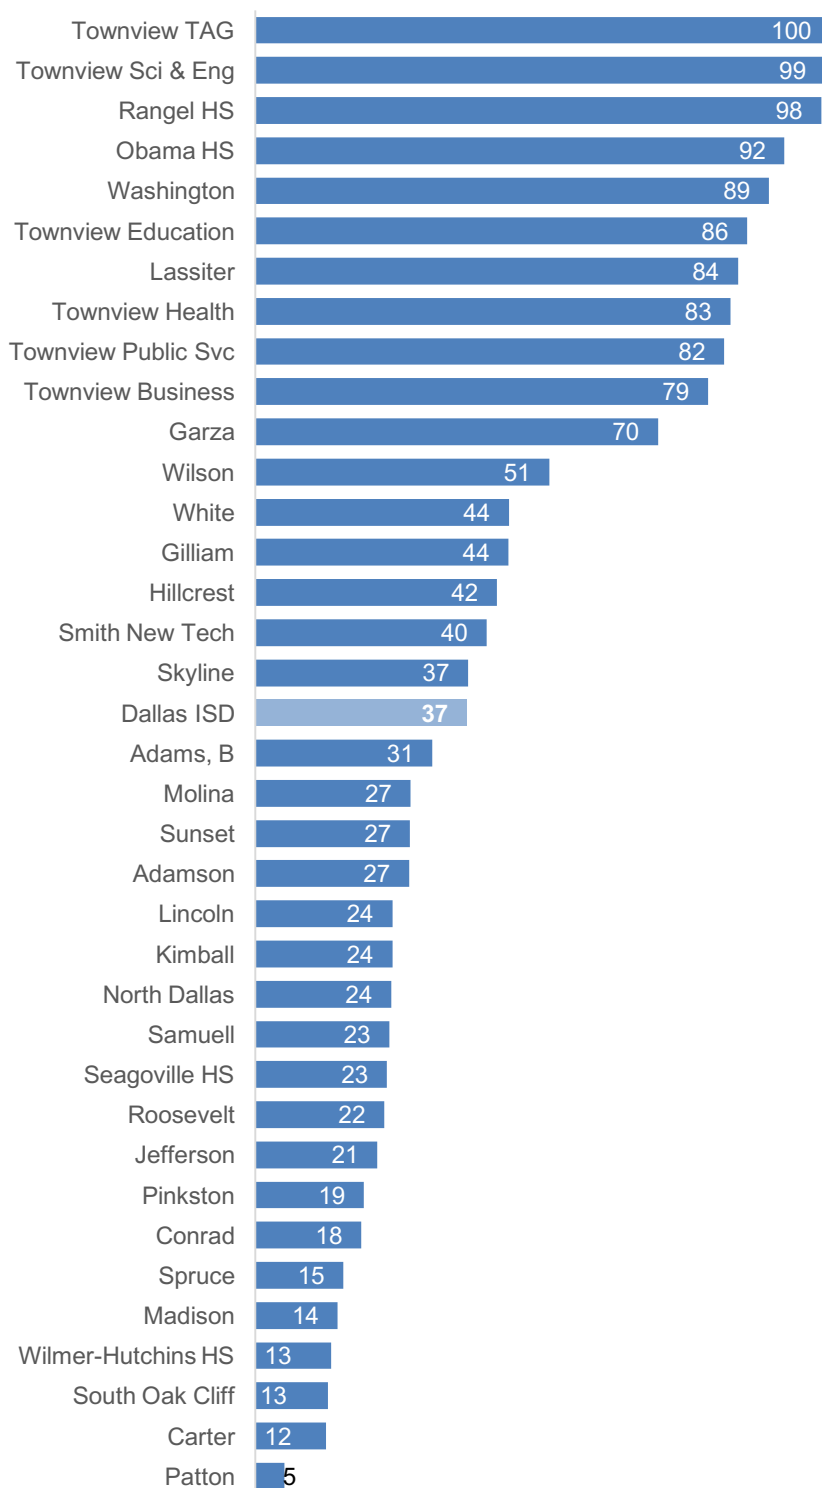

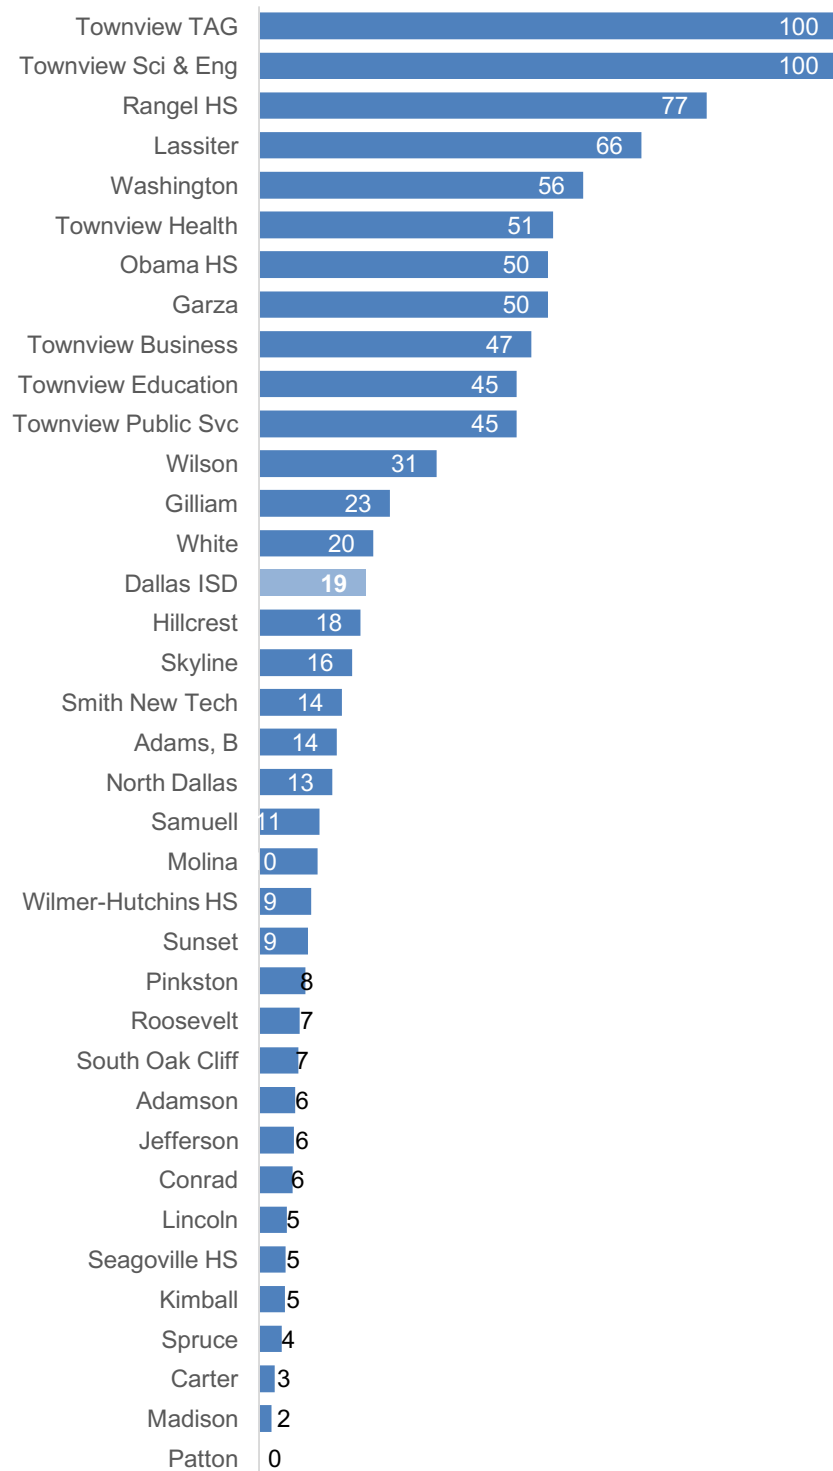

Figure 11: 2016-17 Percentage of Juniors Meeting or Exceeding School-Day SAT College Readiness Benchmark for Mathematics (530) by Campus (N=7,483)

ADVANCED PLACEMENT (AP) AND INTERNATIONAL BACCALAUREATE (IB) - PROGRAM RESULTS

Advanced Placement

A total of 22,220 students districtwide were enrolled in AP courses during the first semester of 2016-17. Districtwide, of 91.3 percent of students who enrolled in an AP course received credit for that semester (Figure 12). A total of 21,344 students districtwide were enrolled in AP courses during the second semester of 2016-17. Districtwide, 96.3 percent eligible Dallas ISD students received AP course credit (Figure 13). The AP test passing rates by school are shown in Figure 14.

AP College Board Test Passing Rates, by School, 2016-17 (Total Tests Taken: N=21,635)

Source: MyDataPortal, accessed November 2017.

Note: The passing rates displayed in Figures 13 represent those of current or former Dallas ISD students who took the College Board AP tests during the 2016-17 school year; thus these numbers cannot be linked directly with those of the same year's AP course enrollment on Dallas ISD campuses.

International Baccalaureate

In 2016-17, Dallas ISD's Woodrow Wilson High School was the only campus offering the IB Diploma Program, for students in grades 11 and 12; Hillcrest will offer this program in 2017-18. Of those eligible to receive IB credit, 96.3 percent of student earned IB credit in the first semester of 2016-17; in the second semester, 97.9 percent of eligible students earned IB credit (Figure 15).

SOURCE: Dallas ISD Office of Institutional Research August 15, 2017

*Statistics reported for groups of at least five. ¹Exams are graded on a scale of 1 (low) to 5 (high); scores greater than or equal to 3 are "qualified." ²Enrollment in an AP course that corresponds to the AP exam; "# Tested" is number of students who took the exam and were enrolled in a corresponding course in either semester. Some students in AP courses do not take the exams; conversely, some students take an exam without enrolling in a corresponding course. ³Number of students enrolled in at least one AP course; not equal to sum of enrollment counts for individual tests because students may enroll in multiple AP courses.
