

Community School Report

Holden R-3
School District

May
2024

As we move towards the last day of the school year, we move closer to the first day of summer school! If you haven't registered your child(ren) yet, head over to holdenschools.org/summerschool to complete the forms today.

Splitting our summer school sessions here in Holden R-3 give students a great balance of summer downtime at home and engaging academics alongside friends at school. As always, summer school is FREE and includes courses such as Cubelets BOT Builder, Sports Science, Flight & Aerodynamics, & 3-D Art Camp. Fun, project-based learning draws kids in and hold their attention, provides plenty of opportunity for movement, and reinforce reading, language arts, math, social studies, and science skills!

Summer school is also a great way for incoming Kindergartners to get familiar with the school building, daily routines, teachers, and staff. We can't wait to see our Eagles' excitement as we dive into the amazing educational opportunities of our Summer Journey!

Session 1: May 30-June 14

Session 2: July 8-23

Holden Middle School has been hosting a monthly afterschool Cooking Club on Wednesdays. Led by Jessica McHenry and Katie Chastain, students have learned how to measure ingredients and read a recipes, along with skills such as mixing, pouring, keeping time using a timer, and taking temperature with a food thermometer.

The club has made pizza, brownies, and hot cocoa bombs - all from scratch. They also plan to make pasta and cheesecake.
