## **Required Materials for GOA Courses**

### **ALL GOA COURSES**

**Students in ALL GOA courses will need reliable access to the following learning tools:**

1. A computer with webcam/microphone connections

*GOA courses are not optimized for completion using a tablet or mobile phone.*

2. Internet access.

*On average, GOA courses require 5–7 hours of coursework per week (10–12 in summer terms) and access to some websites outside of Canvas.*

3. An email address

*A school-based email address is required for all courses occurring during the academic year (August–April). Students without a school-based email address or only taking summer courses may use a different yet reliable email address.*

4. Web-conferencing app

*GOA courses use Zoom; alternative arrangements may be made when access to Zoom is limited.*

5. Word processing app

*GOA courses use Google's G Suite; alternative arrangements may be made when access to Google is limited.*

**Some GOA courses require additional materials for the learning journey. Materials vary in access and cost. See the list of materials below.**

**TIP:** to find a book online for purchase, copy the ISBN number to ensure it's the same edition your teacher uses.

**SITE DIRECTOR NOTE:** You can find details for your tech team via our whitelisting document (*coming soon*).
