Norms to Guide Committee

We will:

- Be fully present.
- Practice being open minded and listening to understand.
- Invite and welcome the contributions of every member – being mindful of how often and how long we speak to ensure all voices are heard.
- Ask questions for clarification.
- Respect one another and maintain a collegial, friendly atmosphere.
- Identify issues that can be decided upon by consensus, and establish consensus by “determining the will of the group.”
- Support the group's recommendation after consensus is reached.

Questions and challenges are welcomed. Negative remarks targeting individuals are not in keeping with the core value established in SUSD and will not be allowed during committee meetings.

Clarifying Decision Making Process & Defining Consensus

If all members of a committee/group must agree – or if every member of a committee can veto taking action -- groups will be subjected to constant inaction, a state of perpetual status quo.

Without a shared understanding of consensus, persons determine their own standards

Dufours et al -- definition of consensus:

All points of view have been heard.

The will of the group is evident even to those who most oppose it
