---

Dear Parents/Guardians,

This coming school year, the Park Hill School District will be transitioning to Privity, a trusted platform for managing student-athlete health information.

With the implementation of Privity, parents/guardians will have convenient access to securely update and manage their child's health information online. This includes medical history, emergency contacts, physicals, SWAY concussion testing permission forms, and other required MSHSAA documents. By utilizing Privity we can ensure that our sports training staff and coaches have access to accurate and up-to-date medical information when needed.

To facilitate this transition, all students who plan to participate in a MSHSAA activity must have a Privity account.

- All students participating in a MSHSAA activity must create an account and complete the required forms.
- Coaches and school staff will no longer collect paper copies of physicals. Instead, parents/guardians must create a Privity account and upload a picture or file of **page 5 of the MSHSAA physical form**. [MSHSAA Physical Form](#)
- Many students have a physical on file that is valid for two years. If your student currently has a valid physical on file with the Park Hill School District, you must still create a Privity account and complete the required forms. You will have the option to indicate that your student has a valid physical on file; school staff will then verify and upload the physical we have on file.

[Park Hill High School Families Should Register For Privity Here](#)

[Click here to find detailed instructions](#) on how to register for Privity and complete your child's health profile. If your child is due for a physical, a copy of the MSHSAA physical form is also attached.

We believe that this transition to Privity will significantly improve the way we manage student health records. Thank you for your cooperation and understanding as we work to implement this positive change.

Thank you for your continued support of our students.
