Summer Assignment - AP World History

All AP World History students will be asked to complete an additional summer assignment. The assignment will be referred to through the course, so it will be imperative that each student completes the work over the summer.

As you may expect, an advanced course like this will require students to push their limits and challenge themselves. In addition to the school-wide summer reading assignments, AP students will be asked to complete the following:

Assignment:

1. Read *Prologue: History before 1200 CE* in the AMSCO book

AMSCO *Advanced Placement World History: Modern*, ISBN-13: 9781531129163, Perfection Learning, 2020.

This is one of the required textbooks for the course. Until your book arrives, you can access the Prologue as a PDF in the Summer Assignment Google Drive Folder found here:

<https://drive.google.com/drive/folders/1HTtr-NdR6bdAg9I9uDLnEtBVEN7fSsAx?usp=sharing>

Your assignment is to read the selected chapter from the book carefully, making sure to take notes throughout. However, these notes must be hand-written, unique to you (no group/shared notes will be allowed).

During the second week of class, students will take a multiple-choice test on the selected chapter from the AMSCO book in which they can use notes they took while reading the text.

2. Map of the World

Identify the key nations on the Political Map and key features on the Physical Map provided.

During the second week of class, we will also have a World Map Test where students will be tasked with identifying selected countries and features. This assessment will not be open notes. For this assessment, a particular country or feature will be labeled on the map and students would then identify the correct answer.

The list of map items and a blank World map is located in the Summer Assignment Google Drive Folder: <https://drive.google.com/drive/folders/1HTtr-NdR6bdAg9I9uDLnEtBVEN7fSsAx?usp=sharing>
