

0:00 [Music]

0:08 my name is Kristen Martin and I'm the  
0:11 principal of the Central Dauphin cyber  
0:13 Academy the cdsd Cyber Academy offers a  
0:16 virtual option of learning for  
0:18 kindergarten through 12th grades that is  
0:20 similar to our brick and mortar learning  
0:21 experiences  
0:23 cdsd cyber Academy students are able to  
0:26 attend via a blended learning method or  
0:28 completely asynchronous  
0:30 students are able to participate in all  
0:33 extracurricular activities from  
0:34 Athletics to the Arts and Music  
0:36 during their journey in cdsd cyber  
0:39 Academy  
0:40 students will receive an education from  
0:42 highly qualified Educators and at the  
0:44 end of The Journey they will earn  
0:46 essential dolphin School District  
0:47 diploma  
0:49 please enjoy this video to meet our  
0:50 cyber Academy students and staff  
0:54 [Music]

1:01 I like cyber school because I can work  
1:03 independently and at my own taste  
1:06 [Music]

1:10 I like the flexibilities of the zooms  
1:13 and that allows me to play sports

1:15 [Music]  
1:18 hi my name is Michelle price I am the  
1:21 second grade cyber Academy teacher what  
1:25 brought me to cyber Academy is the  
1:27 diversity of Central Dauphin School  
1:29 District we don't have those imaginary  
1:31 lines that separate us we have students  
1:33 that are able to come together to learn  
1:36 to be engaged that would normally not be  
1:39 able to be together and that is  
1:40 something that we celebrate here in the  
1:43 Cyber Academy teachers work to provide  
1:44 individualized supports and attention  
1:46 through office hours and small group  
1:48 instruction we also incorporate social  
1:51 emotional supports and activities to  
1:53 bridge relationships and build  
1:55 self-regulation skills  
1:56 [Music]  
2:08 so we also like to become friends in  
2:10 cyber school which is very cool because  
2:12 if we were in person we would have never  
2:14 became friends because we go to  
2:15 different elementary schools it's fun  
2:18 it's nice it's it's flexible I can do  
2:21 many things such as take breaks when I  
2:23 need it do the work when I want  
2:27 foreign  
2:29 [Music]

2:37 I love being able to meet my students  
2:40 right where they are and be a mentor to  
2:44 them helping every student of mine  
2:46 succeed my goal since the start of this  
2:49 position has been to bring the  
2:50 authenticity of a kindergarten classroom  
2:53 in brick and mortar to the virtual world  
2:55 and by doing that your child can  
2:58 experience all the fun and all the joy  
3:00 that would be in a regular classroom  
3:02 right at home with you being their  
3:05 support person  
3:07 [Music]  
3:14 thank you  
3:17 because I was cyber I was able to see my  
3:20 baby brother take his first steps I also  
3:22 got to spend more time with the family  
3:23 cyber also offers in-person tutoring as  
3:26 well as online tutoring so what I like  
3:28 about drop  
3:30 um about cyber is you don't have to deal  
3:32 with um like all the drama that's in  
3:34 school you can get everything done and  
3:36 it's very organized you can go to zoom  
3:38 and ask for help for your teachers I'm  
3:40 Emily Holland I am a secondary school  
3:42 counselor for the CD cyber Academy and  
3:45 I've loved being in this position and  
3:47 being able to work with all the schools

3:49 and the diverse populations within each  
3:51 School the technology tools available  
3:53 allow for immediate feedback of each  
3:56 individual student to help keep them on  
3:59 track but still allow for the  
4:01 flexibility of self-paced learning and  
4:04 various opportunities for collaboration  
4:06 one of the advantages of the city cyber  
4:08 Academy is that there are asynchronous  
4:10 classes which allow you to work ahead on  
4:13 all of your classes if you have all  
4:14 asynchronous classes hello my name is  
4:16 Shannon live and I'm the mother of a  
4:18 Fourth Grade Student in the cdsd Cyber  
4:21 Academy I appreciate the rigor and  
4:23 robust Elementary curriculum from the  
4:25 large group instruction to the small  
4:27 skills groups to the instructional  
4:29 support time at the end of the day when  
4:32 my student could receive help in any  
4:34 content area additionally he was able to  
4:36 take French horn lessons via zoom and be  
4:39 classmates from across the district that  
4:41 he would not have normally met attending  
4:43 his brick and mortar building Central  
4:46 Dolphin School District cyber Academy  
4:48 quality to the core  
4:49 [Music]  
4:54 Central Dauphin School District cyber

4:57 Academy we're awesome
