ADDENDUM #3 RFP- PUPIL TRANSPORTATION SERVICES **2025-2026, 2026-2027, AND 2027-2028 SCHOOL YEARS**

The following questions were received from proposers with the response in red:

QUESTIONS:

1. Can you please distribute a revised RFP without the encryption, preferably in MS word, if possible, to allow proposers to search and copy segments in order to facilitate due diligence and ease of completing forms electronically.

PDF that was provided is searchable and, when downloaded into Adobe software, the “fill & sign” function can be utilized.

2. Page 7, first paragraph and page 18 item 4. We understand the RFP requests 3 distinct proposals for home to school, summer school, and field and athletic trips. Is one set of original proposal binders and 4 supporting documents acceptable per company and only separate proposal pricing and bond forms for each of the proposals acceptable. Or are you requiring a separate set of proposal binders and supporting material for the 3 proposals required (school year, summer, and trips) which could require up to 15 submissions per proposer?

A proposer does not have to submit proposals for all three areas. If a proposer chooses to do so, one set of original proposal binders and supporting documents per company is sufficient so long as separate proposal pricing and bond forms are provided.

3. Page 7, second paragraph, first four sentences. This notes the district may provide properties whereby the district provides storage of buses. Can you provide more clarification as to what proposers should expect to be provided by the district. Will the district provided facility include a building for operations office, training, and bays for fleet maintenance, a full-service site, or is the district providing only parking for bus storage and proposers would need to provide a fleet maintenance and repair shop?

Only storage for buses i.e., parking lot space. As stated previously, the District is evaluating its currently owned resources in order to provide additional parking for buses.

4. Page 7, second paragraph, first four sentences. Can you please clarify the practice today and location of the existing contractor facilities.

The current provider National Express has their Bus Depot at 14 Fisher Lane, White Plains, NY 10603. Both operations and parking of the majority of buses are at that location. Additionally, National Express leases property from the District for storage of buses at Rochambeau Alternative High School, 228 Fisher Lane, White Plains, NY.

- a. Does the district or towns have any facility space available for contractors to lease?

Yes, we currently lease a portion of a school parking lot to our current provider. As stated previously, the District is evaluating its owned resources in order to provide additional parking for buses.

5. Page 8, fourth paragraph. Would the district consider extending the RFP due date to at least 7/26/24 allowing non-incumbent contractors time to conduct locate suitable facilities to serve the district and then conduct due diligence to formulate hypothetical routes and locate suitable facilities to serve the district?

This can be addressed at the Mandatory Proposers meeting on June 26, 2024, at 10 am.

- a. Alternatively, if the district committed that they would provide a full-service facility this would eliminate significant barriers and unknowns allowing a non-incumbent proposer to focus on fleet acquisition and customer service plan for the district.

The District is not offering a full-service facility. Only bus storage.

6. Page 7, Third paragraph. This notes the district intends to award contract in August 2024 and notes that the district would still need to obtain voter approval in May 2025 for a mutli-year contract. With that is the district planning to accept proposals with a differing pricing structure for an initial three-year term that would change to a higher unit price if the contract were awarded and later has to revert to a three-year contract? Proposers will typically have the same upfront startup and transition costs and if the length of the contract term reduces their cost allocations into the unit price would need to increase for a shorter term.

Understood, but the RFP is put out a year early to allow start-up time and the intent is to award a three-year agreement and, if voter approval is not obtained, then a one-year agreement will be awarded with the ability to extend.

7. Page 8, fourth paragraph, regarding RFP due date. Given the proximity to question submission the fourth of July holiday week and the spirit of allowing time for the district to process and provide information and time for proposers to process the information response, would the district be open to extending the date to July 26th?

This allows two weeks for district to process and release remaining questions by 7/12 and two weeks for proposers to have info and respond by 7/26.

This can be addressed at the Mandatory Proposers meeting on June 26, 2024, at 10 am.

8. Page 11, regarding RFP Scoring Criteria. The general guidelines for RFP scoring in items 4, 5, and 6 are typical reports retrieved from the NY State Department of Motor Vehicles. The question 6 notes that reports are to be from all terminals in region 08 Hudson Valley.

To clarify are you expecting the information from questions 4 and 5 to be limited to data from terminals in the region 08 Hudson Valley?

No, we are asking for all information related to NYS for Questions 4&5.

9. Page 12, item 8. Would certified financial statements from a NY operator's parent company be sufficient to meet the criteria?

Financial Statements should be that of the legal entity making the proposal.

10. Page 13, item 11. Regarding the weighting of price for proposal scoring. How will proposals with the district providing facility be evaluated against the proposals where contractor is providing the facility? Does the district have a preference as to the facility?

- a. Will the future award be dependent on if the district will be able provide the facility. As example given that district site is not confirmed. Will a proposer who has an existing facility be given preference over one without a site of their own, absent of other scoring?

Most likely.

- b. Will the scoring on the pricing for each proposal be weighted separately with and without district facility for all proposers?

Yes

11. Page 14, fifth bullet, page 19 item 7 b, and Page 112 Reference List.

- a. The page 112 has three rows for references and then asks for a list of all references. Do you want the name and contact of all applicable school districts as references?

Yes. Additional sheets can be added when the available space on the form is not sufficient.

- b. For proposers who also have sister operating companies in the state. Do you want to know about those districts served by a sister company as well? Or just the proposing company's performance?

Just the proposing company.

12. Page 15, second paragraph. This notes the district plans to reduce the routes needed and expected from 110 routes in 2023-24 school year to 94 routes in 2025-26. This is nearly a 15% reduction. Can you clarify what is being done to reduce routes? Are you changing bell times and potentially increasing the anticipated length of the routes for driver payroll?

The district is anticipating changing the bell time for one of the five elementary schools to align all elementary school bell times to reduce the number of total buses needed to operate each tier. This should have no impact on the length of routes.

13. Page 15, fourth paragraph. For the facility provided by the district. Does the proposer assume the district is providing all recurring expenses including all utilities and related facility expenses at no rental or lease cost to the district?

No, we are proposing to provide a lease for the storage of vehicles by the contractor on district property at a fair market value rate.

14. Page 17, third paragraph. Regarding proposer to provide internet and email services. Will the district provide these services for district provided facility?

No, the District will not provide internet and email services to the proposer leasing a District owned property for bus storage.

15. Page 17, fifth paragraph and Page 33 item 5, writing to clarify your minimum full-time staff expectations for the entire operation. Do you require a Terminal Manager, one or more dispatchers, 19a examiner, school bus instructor, safety officer, and road supervisor. Are you expecting six full time staff? How many dispatchers are you requiring?

A Terminal Manager is required, plus one or more dispatchers on duty ½ hour prior to first AM run and ½ hour after the last PM run. Any and all staff can be both 19A and SBDI certified.

16. Page 17, fifth paragraph and Page 33 item 5, what are the full-time positions offered and provided by the current contractor? Are they sufficient to meet your needs?

The current provider serves more than the District and has multiple staff serving their customers. We believe they have the following: Operations manager, terminal manager, five dispatchers, safety, and road supervisors.

17. Page 17, fifth paragraph. Can you please provide a copy of the labor agreement, any amendments, or memorandums of understanding for current contractor(s) employees and any district employees performing transportation services that are unionized. Please include any amendment letters, memorandums of understanding, or modifications thereto.

The District does not possess the labor agreement of its current transportation provider.

18. Page 20, item 7 c. Regarding the documentation of financial approvals or financial resources. Would a letter from the company CFO be sufficient? If not, can you please clarify the requirement.

As the paragraph states, proof of ownership, or pending financing and ability to deliver the offered number of school buses under this RFP.

19. Page 20, item 7. f. can you clarify do you want the Bus net scores for past two periods. Or do you want for the past three years? BUSNET.

Previous three years.

20. Page 20, item 7. f. Regarding bus net scores from all companies that are currently or previously owned by the company. If the proposing company has sister companies that are not owned by the proposing company, do you want the Busnet score information for those entities?

As stated in the RFP.

21. Page 21, item 10 c. Can you clarify what you are expecting on a lease for fair market value? This is an extremely variable cost item depending on facility offering, age of facility, and retrofit costs. We should all be basing the facility rent of district facility on the same cost or no cost to proposer. Any costs charged for

rent will be marked up and passed through to the district. We recommend you provide this number or remove the application of rent to a district facility.

We currently receive a monthly rental of \$5,250 for 35 vehicles. We are required to charge fair market value according to Education Law and the lease value will be determined based on the property(ies) to be leased.

22. Page 23, item 10, f, i. This notes we are to use 187 days of service for award calculation. Can you clarify that proposers should expect to be paid for a minimum of 187 days per year? How many are superintendent meeting days or snow days built into calendar?

We are not paying on a per-day basis, the request is for a school year annual cost per bus.

23. Page 23, item 10, f, ii. This notes we are to use 187 days of service for summer award calculation. Can you clarify the number of days expected for summer and also the revised number of days for summer award calculation? Typically, we see 20-30 days depending on your ESY.

Thank you, this is an error should read 30 school days for summer.

24. Page 24 item. 10. h. Notes the district can operate its own busses or can use other contractors. Does the district use multiple contractors or its own buses? If so, can you provide a briefing as to how services split up.

Currently, the District does not have multiple vendors or utilize its own buses. The District reserves the right to have multiple vendors and reserves the right to piggyback on the transportation services of other school districts and/or BOCES when available.

25. Page 24, item 14. Can you clarify if there will be a public opening of the proposals where pricing submitted will be read or shared with attendees at the date and time of the RFP?

The District will not open and read proposals publicly.

26. Page 26, item 20, page 47 item 4, page 56 item 14. Page 68 item 26, 1. Given the district has significant pending volume change reductions projected at 15% and other potential uncertainties that could occur during the life of the contract would the district be open to establishing a renegotiation if the volume changes by 10%?

No.

27. Page 27, item 2. Notes wheelchair buses are to have 4 wheelchair spots. Can you clarify the minimum number of ambulatory student seats needed along with four wheelchairs to verify the design of the wheelchair bus.

The District has one route that could have up to four wheelchair students, a total of three additional seats would be needed.

28. Page 27, item 2. Notes air conditioning may be required for big buses during summer school. Can you clarify the anticipated number of big bus summer routes?

The District anticipates needing a total of 10 big buses during the summer.

29. Page 29, item 9 b. This notes the district desires to have video retrieval within one hour. This is unrealistic unless the district desires to have live video streaming access which is very costly as it requires recurring cellular connection and other equipment and is not typical. Can you clarify do you want live video streaming and retrieval? We generally see video requests to be made withing 48 hours or sometimes 24 hours, with clause as soon as possible for urgent mandated reporter scenarios. Can you please review to determine if you are expecting the immediate request or can accept typical industry response time. The response time is needed to allow the bus to return from routes and time for supervisors to retrieve and review video to locate desired segments.

The District does not need live access to video footage. The footage can be shared using a shared drive (established by the District) within one hour of the bus returning to the yard. This is considered reasonable within the industry.

30. Page 30 item 14. This notes a student ridership tracking system with cards is required. Do you have a system today? Is it Zonar Zpass? Will Zonar Zpass satisfy requirement since you are requiring Zonar GPS?

Yes, the District uses ZONAR ZPASS.

31. Page 30, item 16. Can you clarify the count of car seats, harnesses, etc. anticipated?

A total of 10 to 15 Starr booster/car seat and harnesses are anticipated.

32. Page 17, item a. Are lap belt seatbelts acceptable or do you require three-point belts?

Lap belts suffice, pending any changes in legislation.

a. Do you require three-point belts today?

No, we do not.

33. Page 31 item 18. Is the district participating in the Bus Patrol stop arm camera program or would you do so moving forward?

At the present time, the District is not participating in a Stop Arm Camera Program. It is anticipated that the City of White Plains will be entering an agreement with a stop arm vendor in the near future. The District plans to participate in a Stop Arm Camera Program when one is available.

34. Page 31, item 4. As it relates to a district provided facility. Are you solely providing parking? Does contractor need to source an office and bus maintenance facility?

The District is solely providing parking.

35. Page 31, Section 4. Regarding fuel does the district provide any fuel at lower cost to contractor? Would the district be open to providing or paying the fuel directly to offer lower cost of operations to district?

The District will not provide fuel.

36. Page 31, section 4. Given that the contractor is required to provide all fuel. Can the district please provide the average total daily miles for each of the routes and bus types and similar for summer school. Also, can you please provide the total miles utilized historically for field and athletic trips.

The District is providing the available information responsive to this request on separate sheets included in the Addendum providing the answers to these questions.
***SEE ATTACHED

37. Page 33, item 7 last sentence. This notes district must be interviewed and approved by the district. Can you clarify if this is required as it is not typical. This would add another step and potential delay in processing candidates. Can you clarify if the district does this today and wants this. Typically, the removal clause allowing district to remove from service as you have stated in item 4 on page 33 is the typical language.

Superintendent's approval (8 NYCRR 156.3(b)(1)) "Approval for employment as a school bus driver shall be in writing on a form prescribed by the Commissioner of Education." Approval by the Superintendent of Schools is required for both district-employed and contract drivers, including regular, substitute, and occasional drivers. This is an industry norm (& district practice) and required by the District for all drivers, monitors, and attendants. Interviews of drivers are part of the District's practice to secure approval of drivers.

38. Page 34 item 11 a. To verify are the spare drivers allowed to cover for absenteeism as this is also their typical use, otherwise are you requiring an additional contingency above this 10%?

The District requires the number of spares to not be less than 10% of the number of drivers required to transport students to and from school. Spare drivers are allowed to cover absenteeism.

39. Page 35 item 13, regarding bus attendants are you requiring they be able to “lift” any student which may be an unreasonable expectation versus requiring they be able provide physical assistance to and from the bus seat?

Attendants must pass a physical performance test that requires a weight drag of 125lbs, 30 feet in 30 seconds. This is a reasonable request.

40. Page 35 item 14 b. This clause supersedes the state requirements for initial and biennial physicals and could add additional cost and potential delay in processing candidates at the important time prior to start of school year that is in high demand to process new candidates. We suggest that the district eliminate and follow state/federal requirements.

This clause speaks to physical prior to beginning service i.e., “initial” physical.

41. Page 39 item aa. Are the two dry runs paid by district?

No, the District does not pay for dry runs.

42. Page 42, item 10. Does the district permit sharing with other districts today? Do you share any costs?

The District does permit sharing, contingent on the sharing of related costs. However, the District is not sharing any routes at this time with other school districts.

43. Page 44, item 5. Notes that the school year is based on 180 days, however earlier you noted 187. Can you please clarify the anticipated minimum student days needed per year?

The clause indicates a minimum of 180 students’ days, with the actual year to be determined by the District annually through the adoption of the annual calendar.

44. Page 46, item 2. Regarding middays. Can you clarify how many middays and the average live time and miles for each midday? The middays require additional payroll and fuel, and information is needed to build into the hypothetical routing.

The District is providing the available information responsive to this request on separate sheets included in the Addendum providing the answers to these questions. ***SEE ATTACHED

- a. Please also clarify this for any add-on shuttles or late routes that could have additional time and miles added to the routes and include the days of week.

The District is providing the available information responsive to this request on separate sheets included in the Addendum providing the answers to these questions. ***SEE ATTACHED

45. Page 54, item 5. Can you clarify if the district allows the contractor drivers to bring their preschool or school aged children as ride-alongs?

No, the District does not allow any students or adults for ride-alongs.

46. Page 57, item 7. Regarding tolls. Are you able to provide an estimate as to number of routes using tollway and estimated cost per route per day?

Currently, there are a total of five routes daily that use toll roads.

47. Page 67, item 25 regarding force majeure. This states you will not compensate contractor unless required by law during a protracted closure or pandemic. To verify does the district not want to compensate contractor during pandemic or protracted closure to assure employees are available when school resumes?

The District cannot pay a contractor during pandemic or protracted closure unless authorized by the State Education Department.

- a. Did the district reimburse during COVID closures and if so, can you summarize any pro-rated or reduced payments?

During COVID, the District did pay its full contract price, but the District was denied state aid and COVID related grant funds for this expense.

48. Page 68, item 26, 3 regarding MWBE. Are there any minimum MWBE annual contracting requirements as part of this solicitation?

Yes, 30% for transportation provided pursuant to McKinney-Vento.

49. Page 75, regarding the late activity buses. Can you clarify how many buses for each run 3:30/4/5:15? How many days of week do they operate?

Currently: 3:30 PM 4 total; 4:00 PM 8 total; 5:15 PM 4 total. For the 2025-26 school year, the District anticipates eliminating the 3:30 PM buses.

50. Page 74-77. Notes the route scheme volumes and associated changes between 2023-24 and 2025-26. The biggest changes being moving Church Street from tier one to two and eliminating the late activity buses in tier two. Can you clarify why Church Street is changing? Does the district plan to eliminate all late buses in the future? Has these changes been shared and approved by the board?

The District is evaluating changing Church Street Elementary School times to align with the other four elementary schools and run as part of the second tier. Right now, Church Street ES runs in the first tier. If this happens, the District plans to eliminate 3:30 late buses. ***SEE ATTACHED

51. Page 85, regarding field trips. Can you please provide the average number of trip hours and miles so proposers can estimate cost of operating. Please split by big bus and small bus for award tabulation.

The District is providing the available information responsive to this request on separate sheets included in the Addendum providing the answers to these questions. ***SEE ATTACHED

52. Page 86. Regarding athletic trips. Can you please provide the average number of trip hours and miles so proposers can estimate cost of operating. Please split by big bus and small bus for award tabulation.

The District is providing the available information responsive to this request on separate sheets included in the Addendum providing the answers to these questions.

53. As it relates to fleet and electrification. Has the district engaged in pursuing any grants or funding? If you engaged with any consultants or industry experts on the matter, can you please provide a summary of arrangements and copies of consultative reports provided.

The District has engaged in pursuing grants with its current provider but has not engaged with any consultants.

54. Could the district provide a summary of all the non-performance damages charged/incurred by to the contractor for current and past two school years.

Not sure of the relevance of this question. The District will not provide this information.

55. Can you please provide the current listing of vehicles provided by the current contractor. Please include the vehicle age, seating capacity, configuration of

wheelchair buses (seated and wheelchair capacity), if they require air-conditioning and if any are non-yellow buses or cars, age, etc.

Not sure of the relevance of the age of the current provider's buses and vehicles. The District's requirements for vehicle age are stated in the RFP. The District has provided the number of big buses, small buses/vans and wheelchair buses utilized during the current school year for its to and from school transportation in the existing appendices of the RFP.

56. Can the district provide a log of the company's represented and the attendees to the pre-bid conference?

The sign-in sheet for the mandatory proposal meeting can be provided upon request after the meeting occurs.

57. Do you require the contractor provide a parent tracker app or does the district utilize its own from its routing software connecting through contractor GPS system?

Yes, the District is looking into providing a parent app.

Information Requests – The District is not providing the information requested in the enumerated items below at this time as part of the RFP. The District considers the information requests below collectively to be excessive and unnecessary for preparing a proposal to provide pupil transportation services to the District.

1. Please provide a scan of any and all contracts or agreements pertaining for any contracted transportation services currently in effect and future time periods, including all exhibits, attachments, appendices, addendums, amendments, or modifications thereto for all current contractors. Please provide documentation noting the unit rates in effect for the 23-24 and upcoming 2024-25 school year.
2. Please provide a scan of the transportation invoices for any and all contracted transportation services including all line-item billing details and backup spreadsheets noting volumes. Please provide invoices from April 2023, April 2024. Or if already requested and processed, please provide same month for multiple years.
3. Please provide a scan of the summer school transportation invoices for any and all contracted transportation services including all line-item billing details and backup spreadsheets. Please provide invoices from June 2023, July 2023, and August 2023.
4. Please provide a copy of the labor agreement, any amendments, or memorandums of understanding for current contractor(s) employees and any district employees performing transportation services that are unionized. Please include any amendment letters, memorandums of understanding, or modifications thereto.

5. Please provide a copy of the transportation line-item budget for the past two school years, the current year 2023-24, and for the coming 2024-25 school year.
6. Given the district makes the routes: We request that the district provide a digital copy in PDF form of the turn-by-turn directions including garage departure and return times and miles for all current routes (including regular education, special education, middays, and late runs) , as part of your information response in order for non-incumbent contractors to understand operating conditions and to formulate hypothetical routes for the bid response.

We request turn by turn directions including garage departure and return times and miles for all current routes given the contractor is required to calculate live and dead time and miles.

Without providing routing information we are unable to formulate mileage for pricing

7. Please provide a copy of the Bus Metrics report sorted by bus exported to Microsoft Excel. Or provide a report that shows the live time and total time and live and total miles by bus.

If you have any questions regarding this addendum, please email me at: tonirusso@wpcsd.k12.ny.us

Thank you,

Toni Russo

Question #44

Name late runs mileage		
Late bus runs		Miles
WPHS Late #01 3:45 PM		11.63
WPHS Late #02 3:45 PM		18.31
WPHS Late #03 3:45 PM		12.35
WPHS Late #04 3:45 PM		12.38
WPHS Athletic #01 5:15 PM		11.43
WPHS Athletic #02 5:15 PM		18.57
WPHS Athletic #03 5:15 PM		11.76
WPHS Athletic #04 5:15 PM		12.38
HLMS Late #01 PM 3:30 PM NORTH		25.01
HLMS Late #02 PM 3:30 PM SOUTH		32.73
HLMS Late #01 PM 4:15 PM		12.68
HLMS Late #02 PM 4:15 PM		23.92
HLMS Late #03 PM 4:15 PM		13.21
HLMS Late #04 PM 4:15 PM		14.2
EV Late Bus #01 4:00 PM		22.99
EV Late Bus #02 4:00 PM		17.64
GS Late #1		24.23
GS Late #2		17.3
LS Late Bus #01 PM		15.41
LS Late Bus #02 PM		17.14
*total mileage varies daily depending on # of riders		

Question #50									
*the district does not track total trip miles									
School	School field trip name	Date	Time	Return	# big bus	# van	# of students	Destination	Cost
White Plains HS	WPHS to Pocono Valley Resort	6/27/2024	7:30 AM	2:00 PM	3
