Byron Middle School

Byron Middle School Annual Education Report (AER) Cover Letter

August 14, 2014

Dear Parents and Community Members,

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2013-2014 educational progress for Byron Middle School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Grant Hegenauer, Principal for assistance.

The AER is available for you to review electronically by visiting the following web site www.byron.k12.mi.us or you may review a copy in our main office at your child's school.

The state has identified some schools with the status of Reward, Focus or Priority. A Reward school is one that is outperforming other schools in achievement, growth, or is performing better than other schools with a similar student population. A Focus school is one that has a large achievement gap in 30% of its student achievement scores. A Priority school is one whose achievement and growth is in the lowest 5% of all schools in the state.

Our School has not been given one of these labels.

Byron Middle School, like many other schools face certain challenges that impact student performance. Reduced levels of state funding have impacted the staffing, programming, and the levels of support that Byron Middle School can utilize to ensure student growth. In spite of these challenges, the staff at Byron Middle School is eager to provide Byron students with exceptional learning opportunities. New for the 2014 -2015 school year, the middle school with collaboration of the Michigan Project Based Institute have begun re-imagining teaching and learning by incorporating project based lessons and units throughout

our instructional courses. Our goal is to make our students learning more engaging, challenging, and connected to the world outside the classroom walls. For teachers and administrators this process will be recognized, supported through training supported and funded by RESD and Michigan Project Based Institute. Teachers will be utilizing this technology to increase students understanding and utilization of 21st century skills. We are piloting a 1 to 1 Chromebook initiative in our 8th grade English classrooms. We continue to focus on improving math and reading scores through different curricular offerings. Math explorations and STEM (science, technology, engineering, and math) classes are included to the middle schedule to give students additional opportunities to experience math and science using hands-on labs and real life applications. We are continuing to provide a 6th grade team environment. We also will the importance of service in the community through our 8th grade Service Learning Course. This course will include standards from core curriculum as students develop service projects along the banks of the Shiawassee River.

1. Process for Assigning Students to the School

Byron Middle School services all students in grades 6-8 who live in the Byron Area School District. The school also accepts school of choice students from other districts.

2. Status of the 3-5 year School Improvement Plan

The School Improvement Team has written a school improvement plan focused on raising achievement in writing, math, reading, science, and social studies. The team analyzed student data in each of these content areas and developed a strategic plan for accomplishing these goals. The plan is reviewed by the team multiple times throughout the year to monitor progress of implementation.

3. Brief Description of each Specialized School

It is the philosophy of the Byron Area Schools and the Shiawassee Regional Education Service District to serve each person with special needs in the least restrictive environment. A continuum of education placement options is offered from age 0-25, which provides for mild to severe handicapping conditions, supportive services, and vocational training programs designed to meet the needs of special needs persons. The placement options are provided through cooperative planning by

the Byron Area Schools, Shiawassee Regional Education Service District, and the Michigan Department of Education, since no district could support a full continuum itself. The Shiawassee Regional Education Service District operates programs and services for the low incidence populations. Likewise preprimary impaired programs are center programs serving clusters of districts. For the high incidence of EMI, EI, and LD, each individual district offers those options that best meet their needs. However, by agreement, each district can have placement access to categorical programs operated by another district, if appropriate. In this way, a full continuum is available in an efficient and cost effective manner regardless of district size. Byron does have students who attend programs within the Shiawassee Regional Education Service District.

4. Core Curriculum

Byron Middle School curriculum units are aligned with the Common Core State Standards (CCSS) and the Grade Level Content Expectations (GLCE) are integrated into the existing curriculum. No variances between student outcomes written for Byron Area Schools and the Michigan Department of Education Core Curriculum exist. All curriculum work stems from the Frameworks Process, Common Core State Standards (CCSS) and Grade Level Content Expectations (GLCE), as well as all other curricular areas, is ongoing.

5. Locally Administered Assessments

Byron Middle School administers two local assessments, the Explore test and NWEA test. The Explore test is administered in the spring to eighth grade students to measure growth. The NWEA test is administered in the spring to sixth grade students to measure growth. This year's scores are below. Plus or minus means above or below that year's National Average (Explore Test ONLY). On the NWEA Test, the scores indicate the amount of students who demonstrated proficiency in the areas tested. Students are considered proficient on the NWEA if they are working at grade level.

EXPLORE TEST		NWEA TEST	
ENGLISH	17.0 +	READING	80.2%
MATH	16.8 +	MATH	44.7%
READING	15.9 +		

EXPLORE TEST	
SCIENCE	18.0 +
COMPOSITE	17.1 +

6. Parent Teacher Conferences

Our annual parent teacher conferences, which are held in November, we had a parent participation rate of 52% which equated to 153 of 296 parents attending conferences with their child's teacher.

Byron Middle School is made up of dedicated professionals and support staff who recognize the students as very special people who are here to learn and grow. We are also fortunate that our parents are very involved and support the staff and students in a variety of ways. We will continue to stay focused on academics while setting high standards for character and behavior by following the Eagle Code. With the support of the school, family, and community members we can make a difference.

Sincerely,

Grant Hegenauer
Principal
