MISSION AND VISION

The Mission of Lincoln Academy is to help students attain their highest social and academic potential through an academically rigorous, content-rich educational program in a safe, orderly, and caring environment.

Our Vision is to prepare all students for their future endeavors by providing a comprehensive Core Knowledge Education.

PROPOSED 2023-2024 SCHOOL CALENDAR

[Lincoln Academy Proposed 2023-2024 School Calendar](#)

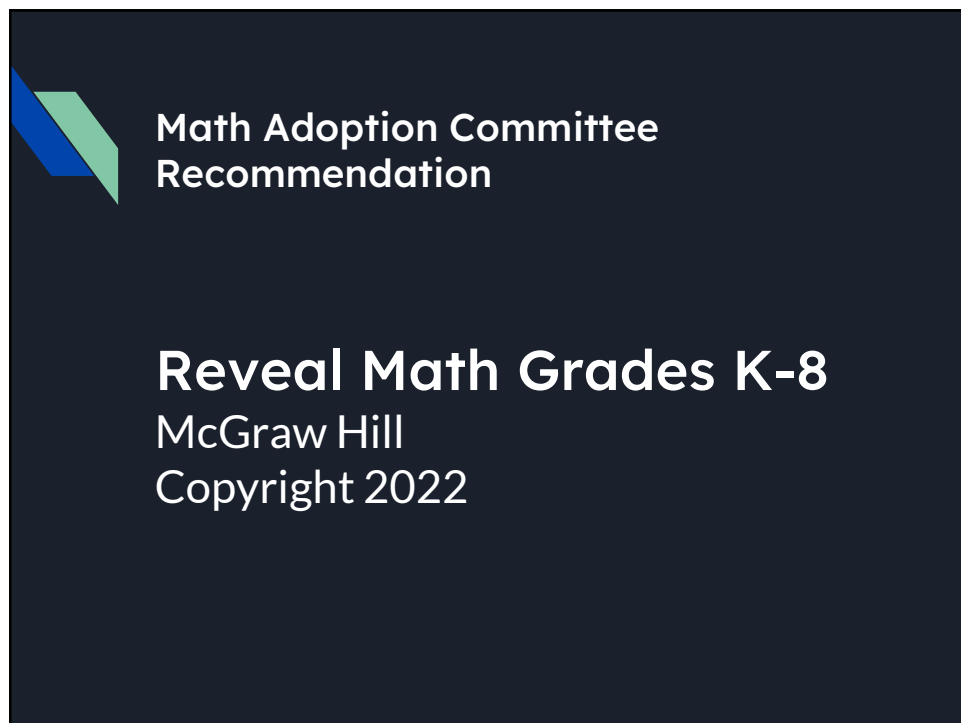

[Jeffco Public Schools 2023-2024 District Family Calendar](#)

STAFF CLIMATE, CULTURE, ENGAGEMENT, AND COLLABORATION

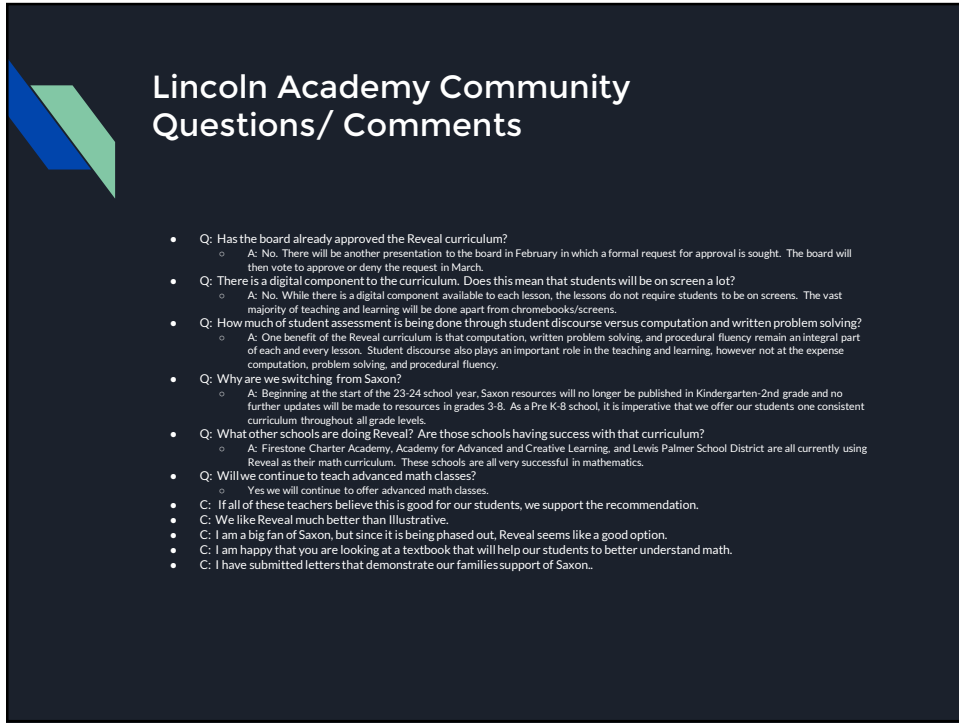

A significant part of the work that will take place during third trimester will involve staff collaboration (and eventually all stakeholders) that will lead to mapping out immediate, short-term, and long-term work at Lincoln. The work will start by answering the question “If Lincoln Academy was the most amazing school ever, what would it look like?” We will establish a Leopard Experience Team and an Instructional Leadership Team along with other possible teams and subgroups as is determined through our collaboration. Overarching themes in this work will include Trust, Collaboration, and ALL STUDENTS! More details to follow...

1

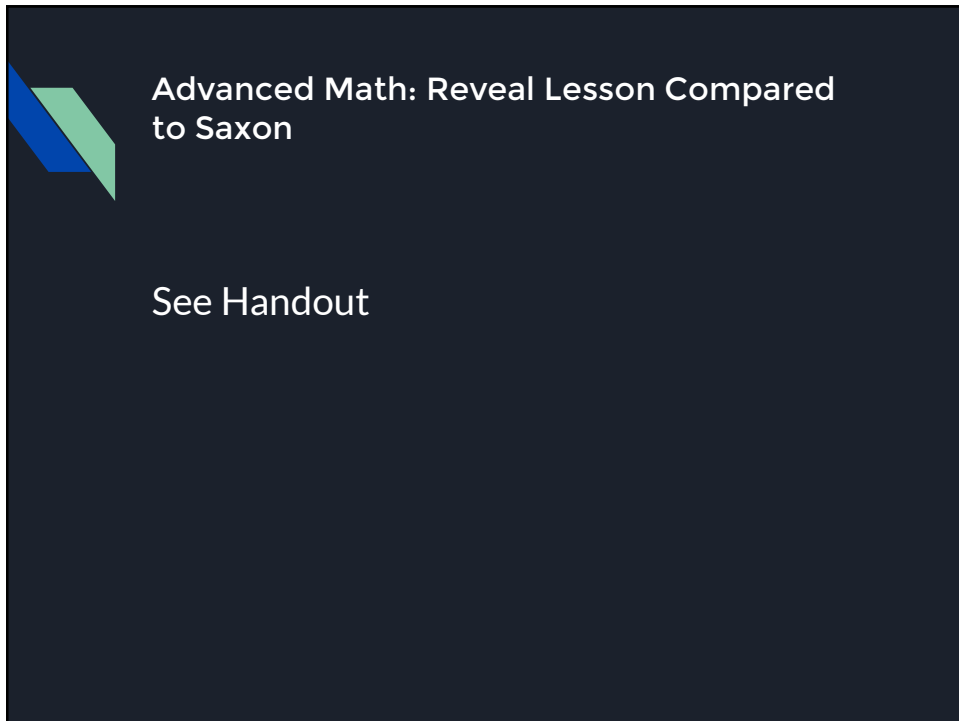

2

Lincoln Academy Community Questions/ Comments

- Q: Has the board already approved the Reveal curriculum?
 - A: No. There will be another presentation to the board in February in which a formal request for approval is sought. The board will then vote to approve or deny the request in March.
- Q: There is a digital component to the curriculum. Does this mean that students will be on screen a lot?
 - A: No. While there is a digital component available to each lesson, the lessons do not require students to be on screens. The vast majority of teaching and learning will be done apart from chromebooks/screens.
- Q: How much of student assessment is being done through student discourse versus computation and written problem solving?
 - A: One benefit of the Reveal curriculum is that computation, written problem solving, and procedural fluency remain an integral part of each and every lesson. Student discourse also plays an important role in the teaching and learning, however not at the expense computation, problem solving, and procedural fluency.
- Q: Why are we switching from Saxon?
 - A: Beginning at the start of the 23-24 school year, Saxon resources will no longer be published in Kindergarten-2nd grade and no further updates will be made to resources in grades 3-8. As a Pre K-8 school, it is imperative that we offer our students one consistent curriculum throughout all grade levels.
- Q: What other schools are doing Reveal? Are those schools having success with that curriculum?
 - A: Firestone Charter Academy, Academy for Advanced and Creative Learning, and Lewis Palmer School District are all currently using Reveal as their math curriculum. These schools are all very successful in mathematics.
- Q: Will we continue to teach advanced math classes?
 - Yes we will continue to offer advanced math classes.
- C: If all of these teachers believe this is good for our students, we support the recommendation.
- C: We like Reveal much better than Illustrative.
- C: I am a big fan of Saxon, but since it is being phased out, Reveal seems like a good option.
- C: I am happy that you are looking at a textbook that will help our students to better understand math.
- C: I have submitted letters that demonstrate our families support of Saxon.

Appendix

7

In 21-22 Why Did Lincoln Academy decide to begin a Math Adoption Process?

Starting in 2023-2024, it was announced that materials to teach Saxon would no longer be available in grades K-2, and that no updates would be made to the curriculum.

8

Lincoln Academy Strategic Plan 2021-2024

Curriculum Strategic Objective 3
Select appropriate math curriculum, align and implement the new curriculum, and evaluate efficacy and implementation.

Monitoring Benchmarks

- The Executive Team will develop standards for curriculum evaluation that meet LA core values including integration with Core Knowledge standards
- Review math curriculum option and select one for implementation for all selected grade levels
- Develop learning plan for our Math educators
- Get approved new curriculum and make necessary policy changes with the BoD
- Establish a communication plan regarding curriculum strategy, purpose, outcome and implementation strategy for BoD, staff and community

9

K-8 Math Adoption Committee Members

2021-2022	2022-2023
• Amy Jenkins • Katie Will • Brittany Hoagland • Kayli Cooper • Joana Blum • Corryn Voris • Katherine Brassington • Kathryn Burns • Becky Furst • Asami Nash • Peter Chapman • Elizabeth Meyer-Chapman • Anita Gimple • Matt Spahn • Calee Schrock • David Schoenhals	• Amy Jenkins • Brynn Wennen • Kayli Cooper • Katherine Brassington • Kathryn Burns • Asami Nash • Peter Chapman • Matt Spahn • Calee Schrock • Ryan Younkerman • Paul Hurst • David Schoenhals

10

Math Adoption Process 2021-2022

- Meetings with instructional leaders from other local charter schools to discuss and preview new math resources
- Discussions with local high school teachers on strengths and weaknesses of LA alumni in regards to mathematics
- Looking at the math resources used by high achieving schools
- Creation of a math adoption committee
- Discussions amongst the committee on what makes a math resource effective

11

Math Adoption Process 2021-2022

- Evaluation of Saxon's strengths and weaknesses
- Examinations of LA MAP and CMAS math data
- Discussions of pros and cons of each math resource previously listed
- Zoom meetings with math resource representatives
- Teachers have taught lessons using the resources previously listed and further evaluated the resource's effectiveness
- Committee narrowed resource options to Reveal and Illustrative

12

Math Adoption Process 2022-2023

- LA Staff were given an opportunity to join the existing committee to further evaluate the two selected math resources
- Evaluation of Into Math - This was a resource not previously evaluated during the 21-22 committee meetings
- Creation of a formal evaluation rubric
- Evaluation of Illustrative and Reveal using the rubric
- Final discussion of the pros and cons of the two remaining resources

13

Math Adoption Process 2022-2023

- Committee vote
- Selection of Reveal Mathematics as the committee's recommendation to the board for approval
- Initial discussions and ideas on how to manage and respond to potential gaps created by switching from Saxon to Reveal
- Discussions and virtual meetings with representatives of Reveal to discuss pricing and professional development for current and future Lincoln staff

14

Updated Core Knowledge Sequence

The Core Knowledge Sequence 2013 Edition
https://www.coreknowledge.org/wp-content/uploads/2016/09/CKFSequence_Rev.pdf

The Core Knowledge Sequence 2023 Edition
https://www.coreknowledge.org/wp-content/uploads/2022/10/CK_Sequence-2023_GK-8_W2.pdf

As we reviewed the 2013 Sequence, there is a good correlation with the Saxon materials in terms of math content.

As we reviewed the 2023 Sequence, there is not a good correlation with the Saxon materials in terms of content, application, and depth of knowledge.

15

Resources Previously Examined

- Saxon
- Eureka Math (Engage NY)
- Eureka Math²
- Big Ideas
- Amplify Math
- Reveal
- Illustrative
- Into Math

16

Why Reveal? Students

- Real World (STEM) connections
- Ample spiral review opportunities
- Social Emotional Learning competencies are integrated throughout each grade level
- The focus on number sense in primary grades promotes future success in math as students move into later grades
- Fantastic balance of conceptual understandings and procedural fluency to build mathematical proficiency
- Better prepares our students for high school
- Visually engaging
- Highly effective online platform available to reinforce classroom instruction

17

Supplemental Digital Curriculum Resources Aligned with Reveal

[VIEW ALEKS](#)

Grades 3–12

*Supplemental math assessment
and adaptive learning platform*

[VIEW REDBIRD MATHEMATICS](#)

Grades K–7

*Personalized, adaptive
supplemental instruction*

18

Why Reveal? Teachers

- Explicit teacher guides to promote effective instruction
- All lesson content is aligned to State Standards
- Allows more time for teachers to focus on the needs of their students rather than looking for items to supplement instruction to meet state standards
- Differentiated lessons are provided for teachers to support students when concepts are not understood initially

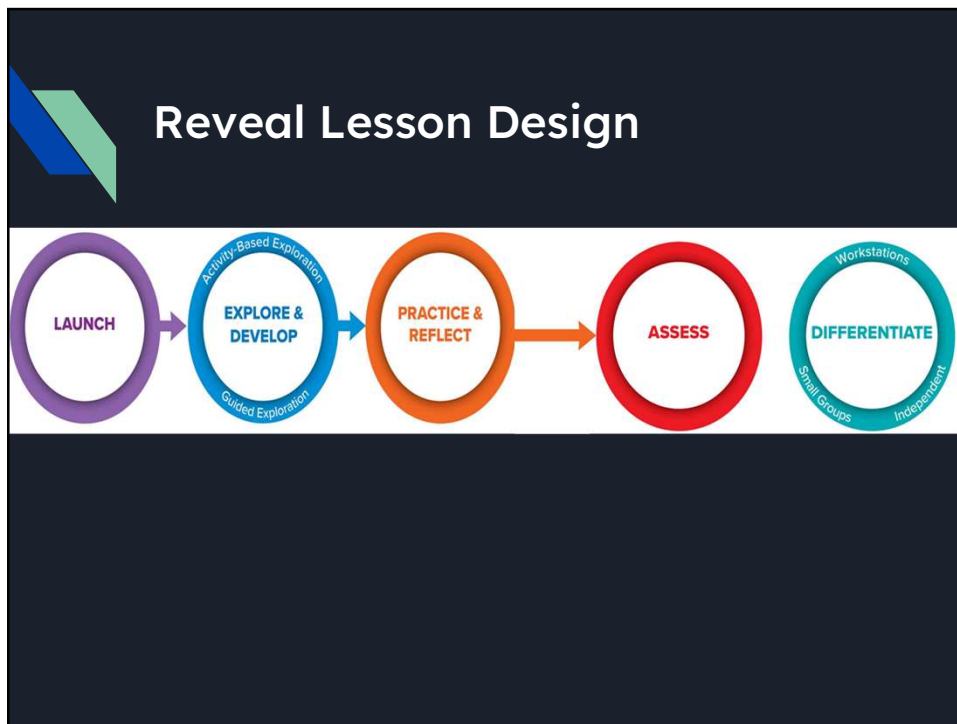

19

Why Reveal? Parents

- Home Connect family letter that presents an overview of the math in each unit and home activities to support student learning
- Daily homework includes a review section detailing the concept covered in class

20

21

Math Instruction

The most important factor in students' learning mathematics is their teachers' instruction. A well-developed math textbook supports a teacher by providing engaging, rigorous problems that help provide access to grade-level and above math content for all students.

Teachers matter more to student achievement than any other aspect of schooling. Many factors contribute to a student's academic performance, including individual characteristics and family and neighborhood experiences. But research suggests that, among school-related factors, teachers matter most. When it comes to student performance on reading and math tests, teachers are estimated to have two to three times the effect of any other school factor, including services, facilities, and even leadership.

Christine Mulhern & Isaac M. Opper, 2021. "Measuring and Summarizing the Multiple Dimensions of Teacher Effectiveness."

22

Development of Conceptual Understanding and Procedural Fluency (Core Knowledge Math)

Systematically introduce students to representations, contexts, concepts, language, and notation. Thus, as their learning progresses, they are able to:

- make connections between different representations and strategies
- consolidate their conceptual understanding
- see and understand more efficient methods of solving problems

This approach, along with the distributed practice problems, gives students ongoing practice, which also supports developing procedural proficiency/automaticity with procedures.

23

Data: Lincoln Academy Student Growth and Achievement as Measured by MAP/CMAS

We recognize that our growth in MAP has been significant and yet our achievement as assessed by CMAS has been mostly stable over the last several years.

As we examine sub-indicators and Instructional Areas assessed on MAP/CMAS, our students tend to do well on procedures and operations. We are, however, lagging behind the state and the district in Mathematical Reasoning and Mathematical Modeling, in many grade-levels.

24

Data: Matt Spahn and Peter Chapman Meeting with Arvada West Staff, 2021

What struggles are you experiencing with former Lincoln students as it relates to metacognition and critical thinking skills?

- In the past, Lincoln students expressed frustration with not understanding the conceptual parts of the content. They felt as though they were taught a procedure without context or reasoning. Essentially, they were told to memorize a process and remember it. The frustration came when they were asked to use the content in a different scenario than they were presented. They did not understand HOW to use the math.

Are Lincoln students starting the school year with a solid understanding of grade level math concepts?

- I kind of addressed this above, but more specifically, I would say they lacked in understanding the meaning of linear functions. For example, how do the four phases (equation table, graph, situation) relate to each other? How can I use a table to write an equation (or graph or situation)?
- When I solve a system of equations, what does the solution represent? It could be relevant to a real-world situation or the general idea of a solution (not just for a system).
- Most incoming students struggle with explain and justify. They are answer getters. They need to be able to show their math and explain, in words, what their solution means using a definition or context. We want them to have evidence of their understanding, not just answers.
- Most incoming 9th graders are grade grabbers. They seem to think that turning in a practice page will get them a better grade, not actually understanding the math. We grade on proficiency, so getting them to understand that they need to show that they understand the math is a mindset shift for many of them. Allowing mistakes (with corrections and evidence of practice) as well as honoring mistakes is a new concept for many of them.

Are Lincoln students prepared for the workload their 9th grade math classes require? If not, how/where are they struggling?

- I don't have specific information on this as an Algebra 1 teacher, the workload is not big since we investigate and practice in class. I do think they need help on HOW to study. In general, not for a unit test or anything HUGE. They need to have a foundation in time management and going over previous problems to find errors and their own misconceptions.

25

Reveal on EdReports

EdReports is an independent, nonprofit organization designed to help educators identify and demand instructional materials that are effective, reliable, and aligned to high standards. Using a comprehensive, rigorous review process led by expert practitioners, EdReports provides free reviews of instructional materials to help educators make informed decisions about which materials to use with their students.

EdReports' reviews focus on whether materials meet indicators, criteria, and gateways. Different indicators and criteria may matter more to different districts based on the professional support, student learning results, and overall local context regardless of a program's summative total. Their aim is to empower schools and districts with information to choose the best curricula to meet their local needs.

Terms of Service:

By placing an order for digital products (the 'Subscribed Materials'), the entity that this price quote has been prepared for ('Subscriber') agrees to be bound by the Terms of Service and any specific provisions required by Subscriber's state law, each located in the applicable links below. Subject to Subscriber's payment of the fees set out above, McGraw Hill LLC hereby grants to Subscriber a non-exclusive, non-transferable license to allow only the number of Authorized Users that corresponds to the quantity of Subscribed Materials set forth above to access and use the Subscribed Materials under the terms described in the Terms of Service and any specific provisions required by Subscriber's state law, each located in the applicable links below. The subscription term for the Subscribed Materials shall be as set forth in the Product Description above. If no subscription term is specified, the initial term shall be one (1) year from the date of this price quote (the 'Initial Subscription Term'), and thereafter the Subscriber shall renew for additional one (1) year terms (each a 'Subscription Renewal Term'), provided MHE has chosen to renew the subscription and has sent an invoice for such Subscription Renewal Term to Subscriber.

2022-2023 Executive Team Report

Stephanie Trowbridge, Board President

February 2023

1. Agenda Meeting

Mr. Schoenhals, Micah and Stephanie met at the beginning of February. A head of school update is planned with an executive session per Mr. Schoenhals request. An update on the Math Curriculum community night and SAC feedback will be discussed.

2. Recruitment

We will have recruitment discussion and plan for next year's Board of Direction.

3. JCSC Update

Stephanie and Lori attended the Jeffco Charter School Consortium restart meeting on January 31st. There were discussions of leadership, joint communication from schools to district and board member involvement both at the state and district levels.

4. Committee Support

Stephanie will attend the Finance Committee in February for a few minutes. She will also continue to work on the Board Playbook to hand off to the Governance Committee by April.

5. Other

Head-of-School evaluation will be done in April, a revised evaluation will be sent to the Board to review this week. Annual survey feedback to the SAC committee is needed prior to the approval process. Specific evaluation will be reviewed in February or March.

Volunteer Appreciation will be scheduled for April. The Board will also thank teachers at that time as well.

PTO nights: Please confirm your PTO volunteer night. Lacy - February, Micah - March, Amanda - April

Addendum No. 1

February 15, 2023

Project:

Lincoln Academy

Residences 7180 B Oak Street and 10550 W. 72nd Ave Asbestos Abatement and Demolition

Bidders,

This addendum is a part of the Contract Documents and modifies the original Invitation for Bid documents dated February 9, 2023 .

I. Compilation of Changes on Exhibit A

- a. Demolition Scope of Work.
 - i. Included assumption for septic tank size.
 - ii. Removed restoration requirement of native seed from SOW.
- b. Utilities
 - i. Clarified that 10550 W. 72nd Ave is served by a well for water service and septic tank and to refer to Lincoln Academy Existing Utility Plans.
- c. Contract Documents
 - i. Added section for contract document list.

II. Compilation of Changes on the Attachment

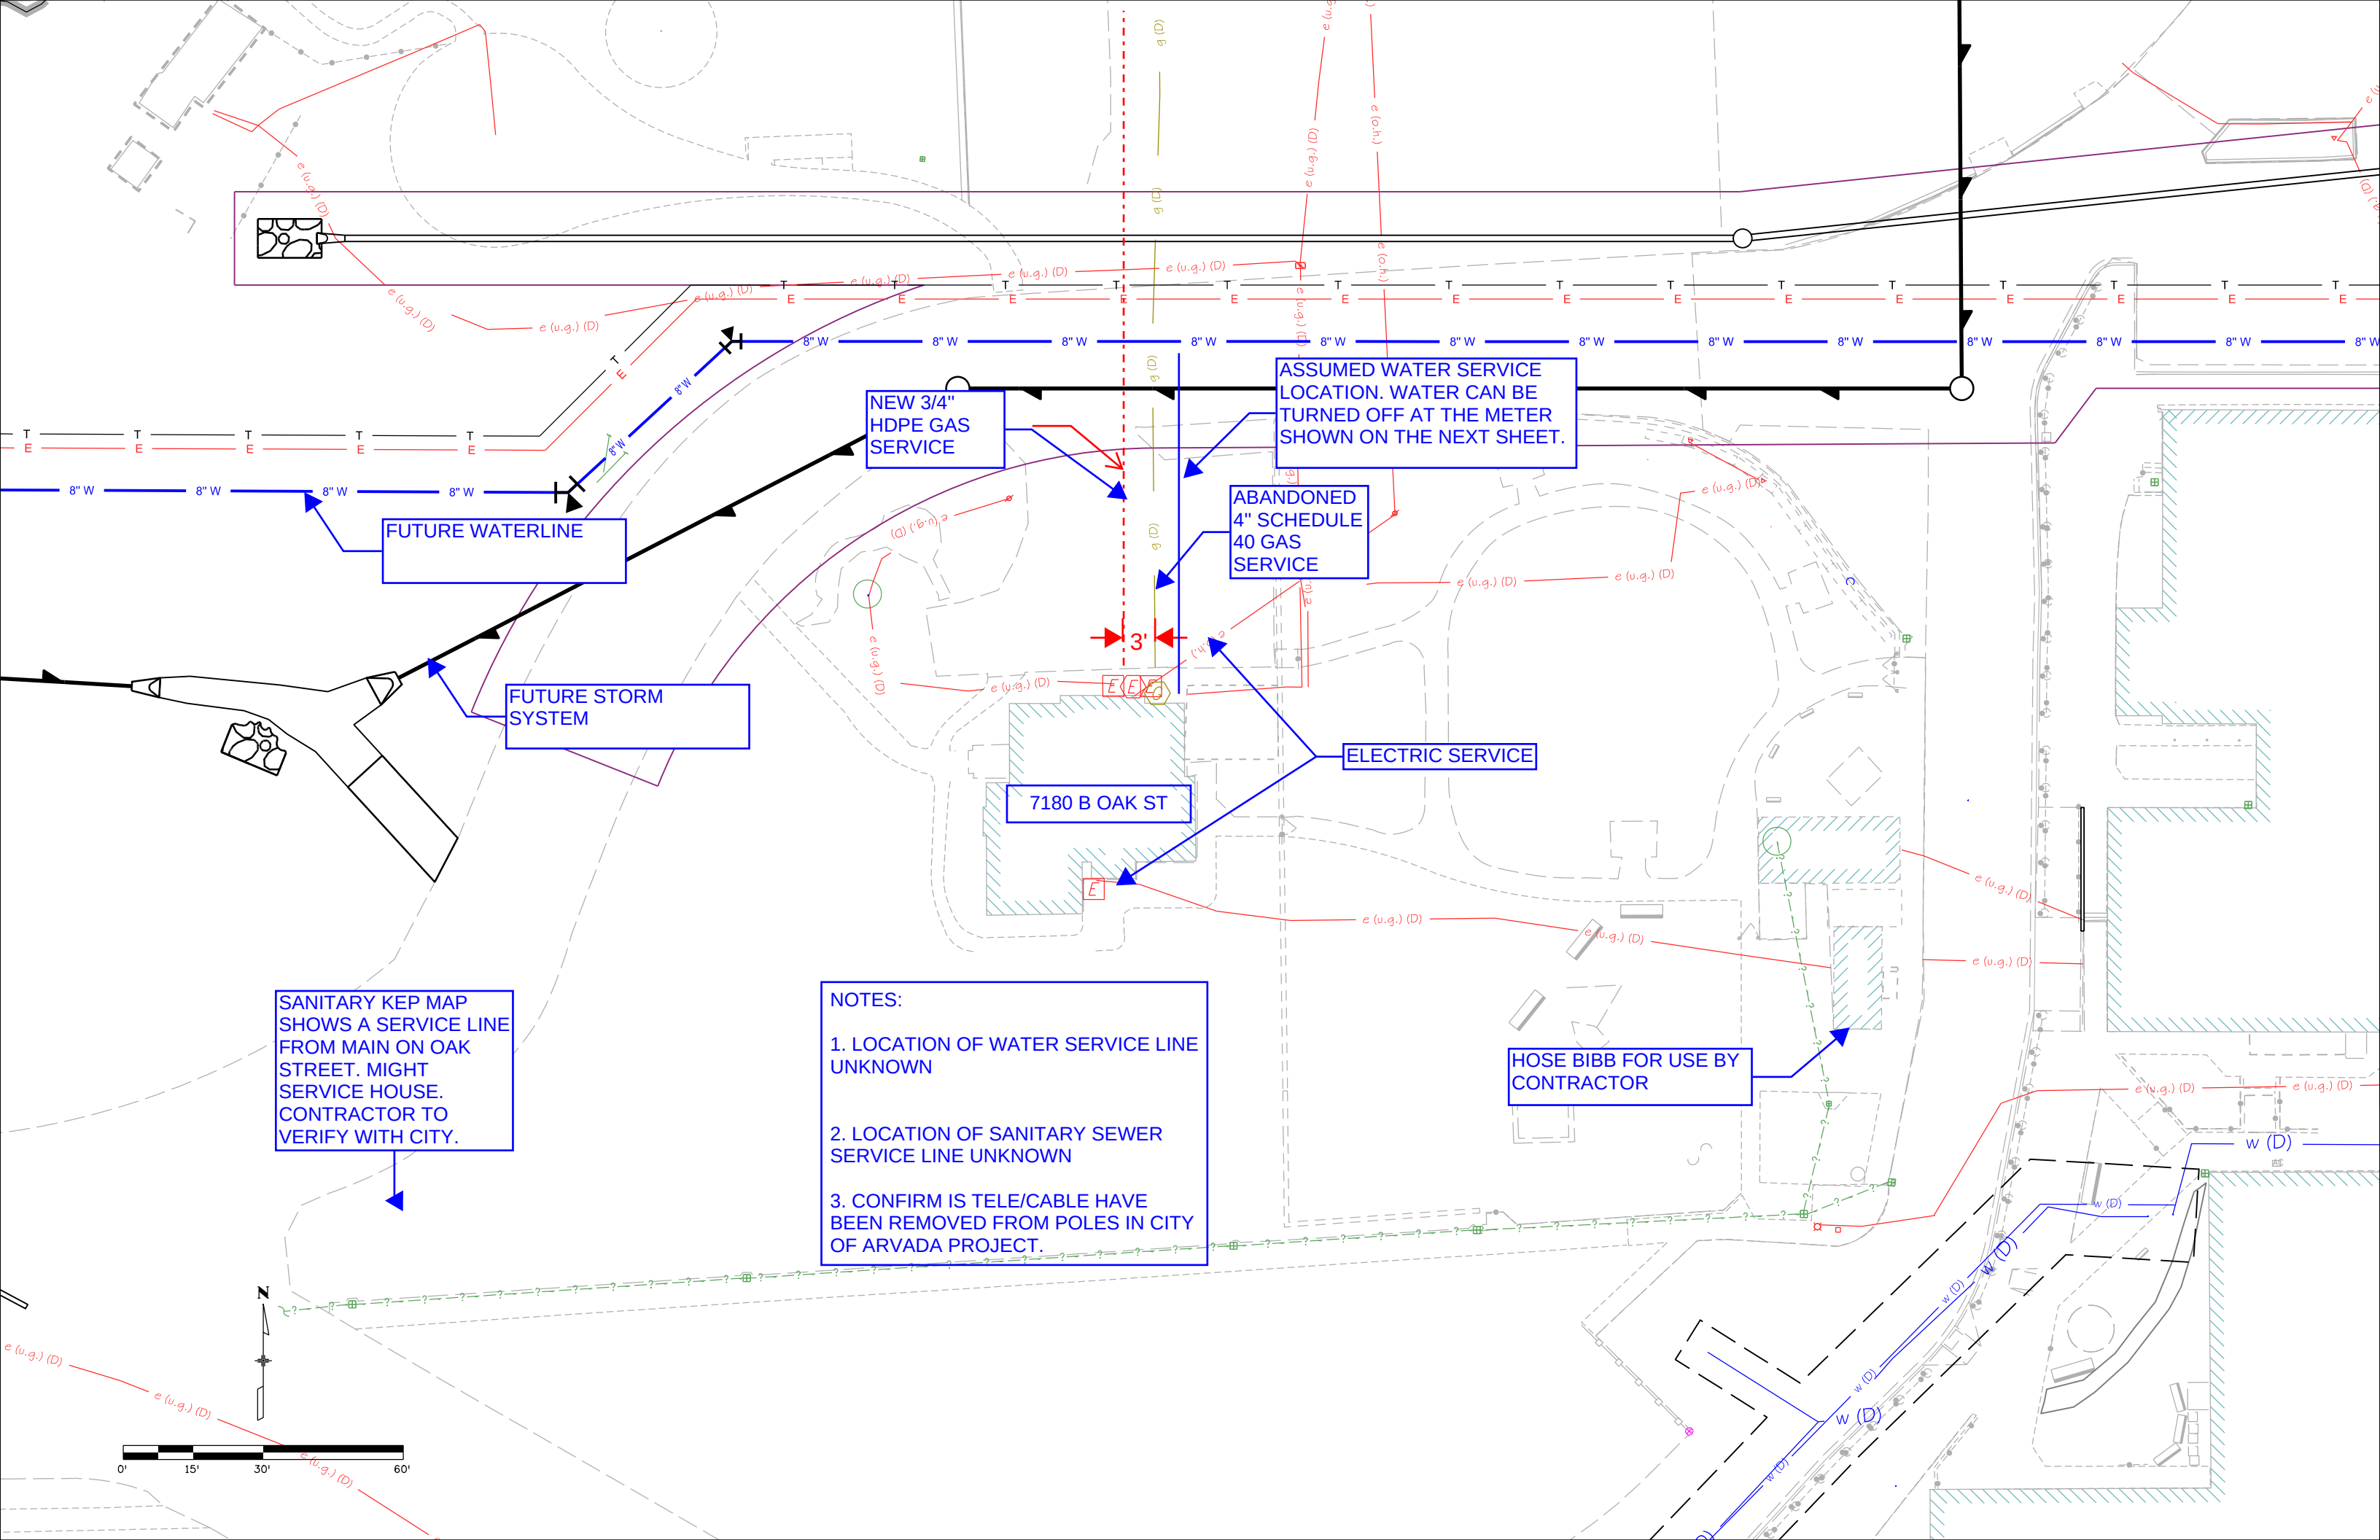

- a. Lincoln Academy House Demolition and Salvage Plans
 - i. Added plans and photos clarifying scope of work walked during the pre-bid site walk on 2/9/2023.
- b. Lincoln Academy Existing Utility Plans
 - i. 10550 W. 72nd Ave
 - 1. Updated note 3 for septic tank assumptions
 - 2. Updated note 1 water service to a well.

III. Attachments

- a. Construction Agreement Template

Sincerely,

Frank Hulce

Facilities Committee Report February 2023

The facilities committee is responsible for providing guidance, oversight, and, when appropriate, specialized expertise to the operations team in order to create and maintain a safe, healthy, and functional campus. As needed, this committee will make recommendations to the Board of Directors in relation to Operational and Fiscal Planning.

Committee Members in attendance: Lori Woods (Operations Manager), Norm Miendl (Facilities Manager), Alicia Borrego (Committee member) & Micah Gilbreath (LA Board Chair)

Facilities meetings will typically occur the first Friday of every month.

Next meeting March 3rd (8:00 AM)

Executive Summary

- 72nd Project Update
- Update for Lincoln Internal sitework
- Rental Properties update

72nd Project update <https://arvada.org/w-72nd-avenue-project>:

Internal drive lane/parking lot design (Muller Engineering):

- Committee made some minor drive lane changes to better fit schools' traffic pattern
- Roll Plot issued by Consultant with e-mailed schedule for other sub-consultants. Plans and quantities can be found here [Muller Roll Plot Plans and Quantities](#)
 - Quantities from Clanton (Lighting): 2/8
 - Quantities from Dig (Landscaping) : 2/10
 - SAQ to Lincoln Academy and Sema: 2/10
 - This should allow Sema to start costing the project and solicit subs.
 - Provide working plans to help convey the design when costing.
 - Irrigation will be a placeholder until we get quantities and plans from Hydrosystems
 - Plans from Dig and Clanton: 2/15
 - Plans from HydroSystems (Irrigation): 2/24
 - Send quantities to Sema as soon as available.
 - Submit Plans and Specs to Lincoln Academy: 2/27
 - Lincoln Academy March Board Meeting: 3/13
- SEMA has begun review of plans they have and will discuss with field staff over the next few weeks.
 - Provide feedback to Muller on cost savings on materials.
 - SEMA to develop costing by 3/10
 - Lincoln Academy will select work scope for moving forward (if selection is needed) – all depends on pricing.
 - Following March BoD meeting SEMA and Lincoln/Ultieg will finalize pricing and scope with Muller to update any final plan revisions and stamped set, so final cost/NTP can be presented to Board in April for Not to exceed motion.

Rental Properties update:

- Lincoln Academy (Lori, Micah, & Norm) with Molly (Ultieg) met with consultant and potential contractors on site 2/9
- Bids due 2/20 by 11:30, BoD meets 2/21
- Reminder: Colorado Abatement Specialist has provided a total project cost ranging from \$140,000 to \$200,000
 - Board approved motion for a NTE of \$200,000 at last months (January) meeting.
- Abatement work to begin 3/8/2023.
- Develop communication to community and determine which methods (Loop, social, ect...)

Proposed Motions:

Motion: None

Monitoring:

- Building B Boiler (outdated, manufactured in 2001)
- Building C alarm system

Action items for next Facilities meeting:

- **Internal Site work:** Develop presentation for March BoD meeting for work scope and pricing to date
- **Properties:** Select abatement and demolition contractor and award contract day after BoD meeting.
 - Confirm Scope of work schedule
 - Sign required documents to begin permitting process.
 - Upload full Bid documents to Lincoln Academy Board drive.

Next Facilities meeting at Lincoln Academy will be March 3 at 8 AM.

Contact Micah Gilbreath if you would like to join this committee micahgilbreath@lincolnacademy.net

Facilities Committee goals for the 2022-2023 school year:

- **In progress:** Building & Campus Safety measures from a facilities viewpoint
- **Completed:** Rental properties decision
- **In progress:** Addition of facilities data/metrics to BoD internal dashboard
- **Completed:** Partial Roof replacement on Building B
- **In progress:** assist in management of design package for Internal driveline work
- **Completed:** Coordinate with PTO on further playground enhancements

Facilities Committee goals for the 2021-2022 school year:

- **In progress:** Update our facilities priority list on a bi-annual basis. The list includes improvements and needs for campus buildings and grounds.
- **Completed:** boiler instillation on south end of building A
- **Completed:** two new exterior security doors.
- **In progress:** Continue to develop design and planning for interior infrastructure site improvements in coordination with the City of Arvada's 72nd project.
- **Completed:** Design and install the HVAC for the three existing condensers serving Building A office hallway as well as the ten units serving Building C.
- **Completed:** Discuss ATV pricing for snow removal and possible ways to fund

Finance Committee Report

The finance committee is responsible for planning, monitoring and recommending the yearly budget to the Board of Directors. As needed, this committee will make recommendations to the Board of Directors in relation to Operational and Fiscal Planning.

Executive Summary

- January 2023 Financial Review

January 2023 Financial Review:

- YTD Revenue of \$7.0 million (primarily PPR) offset by expenditures of \$5.3 million
- Additional pay for both certificated and classified over budget by 5% after ESSR fund reimbursement

2022-2023 Finance Committee Goals:

- Assist executive team with salary review similar to 21-22 school year
 - What are “unseen” benefits that make us more competitive
- Work with facilities and executive team to begin plan for Building B

Proposed Motions

- None

Development Committee Meeting

February 15, 2023 @ 11:30 PM via Zoom

The Development Committee met on February 15 to discuss the trajectory of the group. Those in attendance were Lacy Cleveland (Board Representative) and Jess Cress.

Based on previous discussions with the Board and PTO, the Development Committee has chosen to focus its efforts on identifying potential categories for grant funding and funding sources.

Categories of Funding

The types and focuses of grants available vary greatly. As a committee, we feel that the following categories could be of potential benefit to Lincoln Academy Community: **academic, after school activities, capital construction, environmental grants, and library grants**. Within all these categories, our goal is not to add another program, but to enrich and support current work within the school.

The community would value the feedback from school leadership (Executive Director, Principal, and Assistant Principal) and the Board. Specifically, what area(s) do you feel would best benefit Lincoln?

Plans & Timeline

The Development Committee asks that the board and school leadership provide direction in which area they would like financial (grant) support. Then for the remainder of the 2022-2023 school year, the Development Committee will search for grant opportunities for 2023-2024. As the committee discovers potential funding sources, they will present information to the board and recruit more committee members accordingly.

Table 1 provides an example of potential funding sources.

Table 1. Potential grant funding.

Funding Agency	Grant Descriptions (taken directly from the cited websites)
Academic Grants	
McCarthy Dressman Foundation Grants	The McCarthy Dressman Foundation offers two types of education grant programs. Academic Enrichment Grants are designed to develop in-class and extra-curricular programs that improve student learning. The Foundation considers proposals that foster understanding, deepen students' knowledge, and provide opportunities to expand awareness of the world around them. Teacher Development Grants support small teams of teachers in the formation and implementation of groundbreaking k-12 classroom instruction. The grants provide opportunities for teachers to integrate fresh strategies that encourage critical inquiry and to observe their effects on students. Teachers have the opportunity to reflect and write about their projects, as well as to share their results with other teachers. Apply early since only the first 200 applications received are considered. (https://charterschoolcenter.ed.gov/funding-opportunity/mccarthey-dressman-foundation-grants). Open annually; due April 15
NEA Foundation: Student Success Grants	The NEA Student Success Grants fund educators to develop and implement projects that will achieve one or more of the following goals: enhance students' critical thinking and problem-solving skills, their communication and collaboration skills, their mastery of essential academic content, or cultural understanding and appreciation. These grants can support projects that support personalized and experiential learning or that enable students to engage in learning experiences connected to real-world issues and challenges.

	(https://charterschoolcenter.ed.gov/funding-opportunity/nea-foundation-student-success-grants) Annual funding; 3 funding cycle per year
After School Athletics	
Justin J. Watt Foundation	The Justin J. Watt Foundation offers support to middle schools that do not have sufficient funding for after-school and athletic programs. The foundation offers Equipment Grants for after-school programs, such as athletic teams for grade 6 through 8. Examples of eligible items include safety and sports equipment, and uniforms. Eligible schools operate a sports program... (https://charterschoolcenter.ed.gov/funding-opportunity/justin-j-watt-foundation) Annual funding; due Feb. 15
Capital Construction	
CDE BEST Grants	Established in 2008 with the signing of C.R.S.22-43.7, BEST provides an annual amount of funding in the form of competitive grants to school districts, charter schools, institute charter schools, boards of cooperative educational services, and the Colorado School for the Deaf and the Blind. BEST funds can be used for the construction of new schools as well as general construction and renovation of existing school facility systems and structures (https://www.cde.state.co.us/capitalconstruction/best). Annual funding. Applications due early Feb.
Environmental	
Renew America's School Grant (Past)	The U.S. Department of Energy recently announced first-of-its-kind investments to make clean energy improvements at K-12 public schools. Funds will position school districts to make energy upgrades, such as new heating, ventilation and air conditioning that will lower facilities' energy costs and foster healthier learning environments for students. These grants are the first round of funding from the Bipartisan Infrastructure Law of 2021. An information webinar will be held on Dec. 6, 2022 at 1:00 ET. (https://charterschoolcenter.ed.gov/funding-opportunity/renew-americas-schools-grant). Concept papers were due Jan. 26, 2023.

Development Committee Contact Information

For those interested in joining the Development Committee, please contact Lacy Cleveland (lacycleveland@lincolnacademy.net).

Governance Committee Report

Executive Summary

Here are updates to the strategic plan:

- Board Dashboard – Working on making the dashboard available to the board.
- Update policies and by-laws – Review Policy 4.1.1
- Board Evaluation – No updates.
- Executive Director Evaluation – No updates.
- Board Training – List of modules to review for this month and next month.

Strategic Plan

Board Dashboard

Unfortunately, I was unable to get the board dashboard available this month. I will continue to work towards that goal.

I'm looking forward to working with each committee to add more details from each committee to the dashboard.

Update Policies and By-laws

Policy Review

As part of our monthly policy review, we are reviewing section 4.1.1.

Board Evaluation

No updates to the board evaluation for this month.

Executive Director Evaluation

No updates for the board this month.

Board Training

Here is the list of training modules to review for the January meeting:

- Board Officer Roles and Responsibilities
- Professional Development and Training
- Strategic Planning

Here are the modules to review for February:

- Building Relationships
- Communication
- Parental Involvement

Other Business

Next Meeting

To be determined
