

Resolution in Favor of 2018 Arvada Bond Issue

WHEREAS 72nd avenue shrinks abruptly from four lanes to two lanes just west of Kipling Street;

WHEREAS when a train is passing through the at-grade railroad crossing just east of Lincoln Academy it creates major backups on both 72nd Avenue and Oak Street, which are the only roads from which one can reach the Lincoln Academy campus;

WHEREAS intermittent or absent sidewalks create unsafe conditions for pedestrians and cyclists on 72nd Avenue;

WHEREAS these traffic and safety issues presently have a negative effect on the Lincoln Academy community by limiting or slowing access to the campus and creating safety issues for those who choose to walk or bike to the school;

WHEREAS, the City of Arvada has placed a bond issue on the November 2018 ballot that would fund improvements on 72nd Avenue between Kipling and Simms Streets;

WHEREAS such improvements would alleviate the traffic and safety issues outlined above; and

WHEREAS, under the proposed bond issue the improvements will be paid for without increasing city taxes beyond their present level;

BE IT THEREFORE RESOLVED that the Lincoln Academy Charter School Board of Directors supports passage of the City of Arvada bond issue on the November 2018 ballot.

So resolved October 8, 2018

Phillip J. Courtney, President
Lincoln Academy Charter School Board of Directors

Nina Sloan, Secretary
Lincoln Academy Charter School Board of Directors
