

## iPAD APPLICATION REQUEST

Educators may install free applications on their own iPads to explore and determine the educational quality of the application.

If an educator would like an application added to the learner portal, they need to [fill out this form](#).

The educator will need to indicate:

- Name
- School
- Subject Area
- Name of Application
- User of the Application (learners/staff/specific course)
- Link to the Application

The educator will need to research to answer these questions for their application:

- Purpose of the application – which educational standards are aligned?
- Is there a cost for the application? Is it perpetual? Is there a free version?
- Does it require learner accounts or personal login information?
- Are there advertisements in the application?

Applications that have a cost are fully vetted by the District Curriculum Committee during meetings in the fall and spring. Free applications are vetted by the Curriculum and instruction Department and made available when approved through collaboration with the Technology Department.

The statements in this document are intended to provide guidance for daily procedures and practices in order to maintain order, efficiency, and continuity amongst our schools.
