ACADEMIC LEADERSHIP CHARTER SCHOOL

JUNE 2024

As we close the chapter on another enriching school year, we reflect on a vibrant June, a month filled with joy, learning, and community spirit. Our students have embraced the warm beginnings of summer with open hearts and curious minds, participating in a host of engaging activities and excursions.

This month, our students ventured beyond the classroom to some of New York's most iconic venues. They explored the historical decks of the Intrepid Museum, admired timeless artworks at The Guggenheim and The Metropolitan Museum of Art, and celebrated nature at Central Park, where they released butterflies they had carefully nurtured in their classrooms. Each of these experiences has been an opportunity to extend learning beyond our school walls, making education a grand adventure.

Back at school, creativity flourished as students painted a mural that captured the essence of a fun and fulfilling year. The vibrant colors and symbols of their artwork will be a lasting reminder of their collective journey through this academic year.

We also celebrated our diverse backgrounds during our Culture Day, which allowed everyone to share and learn about the various traditions that enrich our community. Additionally, our Spring Show was a resounding success, with performances that brought us together to bid farewell to spring and welcome the sunny days ahead.

As we wind down and let loose, we celebrate not just the end of another school year but the growth and accomplishments of our students. It has been a remarkable year of challenges turned into opportunities, and of individual growth contributing to our collective strength.

We look forward to welcoming you back in the new school year with renewed energy and enthusiasm. Until then, we hope you have a joyful and restful summer.
