

Emmett Middle School Monthly Board Update June 2024

23-24 ISAT Updates

ISAT testing went well this year. The students took it seriously and were excited to see their own growth. Even though the scores are not where we want them to ultimately be, we must celebrate the growth the students have made. As their principal, I am very proud of how far they have come and know that they will continue to grow with the help of our excellent teachers.

MATH

2023

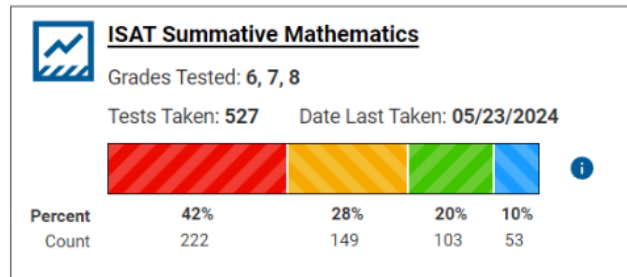

Whole School Math Scores

6% more students were proficiency or advanced compared to 22-23 school year.

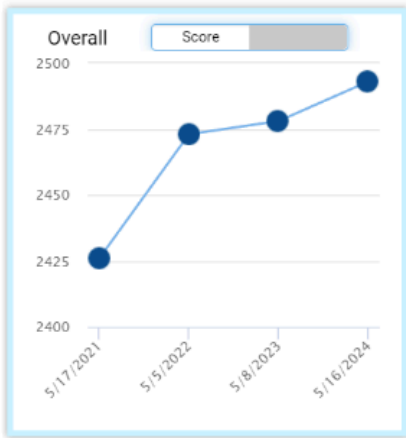

68% of students scores increased from 22-23 to 23-24.

ISAT: 8th Grade

Longitudinal report of Score Performance

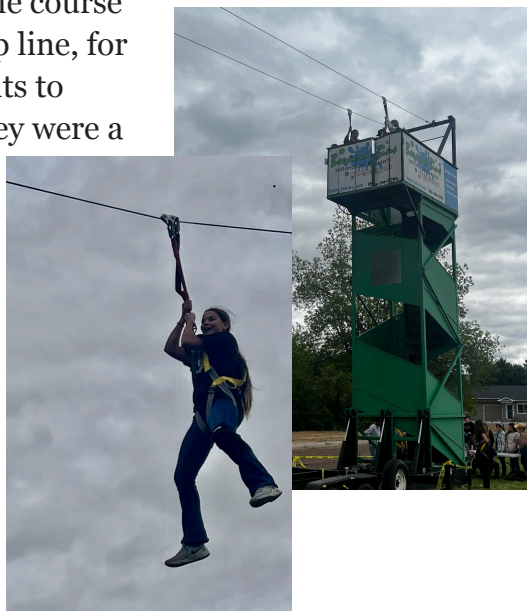

$$2560 - 2516 = 44$$

EMS 8th Grade had a score increase of 44 points from 2022-2023

Growth Field day

The mindset of the students about the ISAT test this year was completely different than last year at EMS. Students really tried on their tests and were excited to talk about their scores and growth afterward. To celebrate the students who showed growth and/or scored proficient or advanced on either Math or Reading ISAT testing, we had a field day. Our staff really came together to put on many different activities to keep the students active and happy. I would like to say thank you to the donor, who wishes to remain anonymous. They donated the obstacle course and the zip line, for the students to enjoy. They were a big hit!

End of Year

As you can imagine, the end of the year is full of excitement with all the many activities the students have to look forward to. EMS did not disappoint. Our teachers all came together and each took on a special event. In the last 2 weeks of school, EMS held an awards assembly to celebrate students in all grades for ISAT growth, social growth, and grades to name a few. We also sent the 8th graders on the annual Wahooz field trip and all honor roll students to Frontier Cinema to watch a movie. And of course, the 5th grade visit to welcome our incoming 6th graders to Emmett Middle.
