Grades K-1

ABCya! produces free interactive educational math games for elementary school children.

Simple Fractions: Students can practice interactively with word problem representation and receive immediate feedback once an answer is entered. They must be able to read to perform this activity.

Grade 2

- IXL Learning provides real-time feedback for students. When a question is answered incorrectly, a corrective explanation pops up to show students their mistake, and how it should be done. The site covers a wide variety of second-grade math concepts:
 - Counting and number patterns
 - Comparing and ordering
 - Names of numbers
 - Patterns
- TeachingTime UK has timed quizzes on matching analog and digital times. This is a great forum for students who thrive when put in high-stakes quiz situations. Students can compete against each other while becoming very comfortable with reading a clock.

Grade 3

Internet4classrooms offers interactive third-grade skill builders in the following subject areas:

- Rounding and estimating
- Telling time

- **Word problems**
- **Counting money**
- **Addition and subtraction**
- **Multiplication and fractions**
- **Place value**

Grade 4

- **Internet4classrooms** also provides fourth-grade skill development in:
 - **Estimating**
 - **Counting money, telling time, roman numerals**
 - **Word problem practice**
 - **Addition, subtraction, multiplication, division**
 - **Fractions, multiple operations, number relations and place value**
 - **Geometry and measurement, coordinate planes**
 - **Shapes and angles, measurement of area and perimeter**
 - **Temperature**

Grade 5

- **National Center for Educational Statistics** has an excellent toolbox for students to practice creating online graphs. It is user-friendly and encourages students to try new ideas because there is no penalty for experimentation.
- **Internet4Classrooms** offers comprehensive 5th-grade math coverage:
 - **Mathematical processes**
 - **Number & operations**
 - **Algebra, geometry, and measurement**
 - **Data analysis, statistics, and probability**
