

FLIVVER FIELD

Legacy Project

HELP US MODERNIZE THE FLIVVER FIELD COMPLEX

Field Enhancements

The current Flivver Field would be replaced with a surface that would allow more use by all instructional classes like Physical Education & Band, as well as sports like Football & Soccer.

Track Enhancements

Replacing the aging track helps ensure the continued use of it by our Track & Cross Country teams. As well as allowing us to continue hosting the UP Track Meet.

Community Opportunities

Updating the facility and grounds will help increase the community opportunities that can be provided by installing high usage materials.
