Friday

Site Closed
Behavioral Health available
via telemedicine*

School-Based Health Center Services

Medical Services - Including acute care for illness or injury, well-child checks, sports physicals, immunizations, and reproductive health.

Behavioral Health - The School-Based Health Center's (SBHC) Behavioral Health Clinician (BHC) specializes in providing individual sessions, therapeutic support, and evidence-based interventions for common mental health diagnoses such as anxiety disorders, depressive disorders, ADHD, and adjustment disorders while also collaborating with school staff and parents.

BHCs offer consultation, resources, and support to enhance students' social-emotional well-being, positively impacting students and the school community with their comprehensive approach to behavioral health.

Telemedicine*: These services allow you to meet with our providers using video or audio only.
