# THE KING'S ACADEMY

Where Christ is King

Established 1970

2024-2025
High School

COURSE GUIDE

#### Parents and Guardians,

The King's Academy is exceedingly appreciative of your partnership and investment in a distinctively Christian education for your children. We desire to see students thrive by providing a rigorous academic program in a supportive Godhonoring environment. We encourage collaboration with students and their parents, teachers, coaches, academic counselors, and college advisors (11<sup>th</sup>/12<sup>th</sup> grade) throughout their middle and high school careers. A significant priority in the collaboration process is to guide students accurately and strategically in the selection of their courses. Be mindful of the TKA requirements of our academic programs, clubs, societies, and athletics. Look to create a well-crafted schedule with a balance of your interests and academics intentionally in order to help develop a passion for life-long learning.

The Kings Academy offers courses for all levels of students including standard, honors, Advanced Placement (AP), and Dual Enrollment (DE).

- Honors courses offer a more demanding and accelerated pace to challenge academically motivated students. Students who take honors courses will earn an additional .5 quality point, which is averaged into their Grade Point Average (GPA).
- Advanced Placement (AP) courses are considered college level, often characterized by challenging material, extended
  writing assignments, and demanding projects requiring more individual responsibility. The objective of AP courses is to
  prepare students for the AP examination which is given by the College Board at the end of the course. Colleges and
  universities often award course credit to students who obtain high passing scores on their AP examinations. Students
  who take AP courses will earn an additional 1.0 quality point which is averaged into their Grade Point Average (GPA).
- Dual Enrollment (DE) courses provide willing and academically prepared students with the opportunity to immerse
  themselves in the rigor of college coursework. All DE courses are offered through a partnership with Palm Beach
  Atlantic University on The King's Academy campus during the traditional school day. To qualify for enrollment in a DE
  course, a student must be in 10<sup>th</sup>, 11<sup>th</sup> or 12<sup>th</sup> grade and have a minimum unweighted cumulative GPA of 3.0. DE
  classes will remain on a student's permanent college transcript. Students who take DE courses will earn a 1.0 quality
  point which is averaged into their Grade Point Average (GPA).

This Course Guide is a valuable resource that outlines:

- Graduation Requirements
- Programs of Distinction (POD's)
- Course Descriptions
- Progression Charts for Core Academic Subjects

Our hope is that by helping students discover who they are and the intricate way that God has crafted them, students will be better prepared academically and spiritually to be strong Christians as they lead within society in various professions. We encourage students to strategically evaluate the courses selected to ensure the courses appropriately fits their educational needs, co-curriculars, and spiritual development; a student's course load should be responsibly balanced.

Kindest Regards,

Ar. Rantin

## **Graduation Requirements**

Subject Area	Class of 2025 and Beyond
Bible	2 credits, 1 semester per year in grades 9-12
English	4 credits, 1 per year
Mathematics	4 credits, 1 per year in grades 9-12: 1 credit must be Algebra I 1 credit must be Geometry 1 credit must be Algebra II
Science	4 credits, 1 per year in grades 9-12: 1 credit must be in Chemistry 1 credit must be Biology
Social Studies	3.5 credits: .5 credit in grade 9  1 per year in grades 10-12 (unless DE American Federal Gov or Constitutional Law Honors completed in 11 <sup>th</sup> grade)  1 credit must be World History  1 credit must be US History .5 credit must be American Government .5 credit must be Economics
World Languages	2 credits; must be different levels of the same language
Fine/ Performing Arts	1 credit (credit can be earned by taking Litigation Skills Hon, Federal Trial Procedures Hon, and State Trial Procedures Hon)
Physical Education	1 credit .5 credit must be Personal Health and Fitness .5 PE (credit can be earned by taking Dance Techniques, a Varsity sport, or Regiment Band)
Electives	2.5 credits
Total Credits	24 Credits
GPA Requirements	Cumulative GPA (Grade Point Average) of 2.0 minimum on a 4.0 scale

High School students should be aware that grades earned in DE courses will remain on a student's college transcript.

#### PROGRAMS OF DISTINCTION

The King's Academy encourages students to explore and excel in their God given gifts. In addition to our rigorous college preparatory courses, The King's Academy offers students the opportunity to earn seven special distinctions in the following programs: Aviation, Business, Christian Leadership, Computer Science, The Smith Family Conservatory of the Arts, DiMino Engineering and Technology, O'Keeffe Pre-Law Studies, and Pre-Medical. To earn any of these distinctions a student must complete all standard graduation requirements with a minimum GPA of 3.0. Please note that students are encouraged to enroll in these classes to explore these areas even if not working toward completion of a distinction. Please see further details and requirements of each program in each specific section of TKA's Course Guide.

Quality Points:	
Students enrolled in rigorous courses are	1
awarded additional quality points. These	
additional points are called "weighted"	
points. One additional quality point is earned	
for students who take AP and DE courses.	
Honors courses receive an additional	
.5 quality point added to the GPA.	

### **AVIATION**

Course Name	Term	Grade/	Course Description
		Prerequisite	A tation Brown of Birth attack Const.
			Aviation Program of Distinction Overview:  Students will enroll in both of TKA's Aviation courses. They will complete their
			online ground instruction through TKOA and work with an approved partner
			flight school off campus with an FAA certified flight instructor. The King's
			Academy partners with flight schools at Lantana Airport and the North County
			Airport. Requirements to apply for this program are the student may begin
			training at 16 and must be at least 17 at the time the student earns their
			private pilot's license. TKA students must pass a Class 3 FAA Medical Exam,
			complete the Private Pilot's Ground Training Course, earn approx. 40 hours of
			flight time, maintain a 3.0 cumulative GPA, and earn their Private Pilot's
			License in order to earn the Aviation Program of Distinction.
			Mandatory courses:
			Aviation 101 Honors class and all requirements
			Aviation 201 Honors class and all requirements
AVIATION 101	YEAR	10th-12th	<b>AVIATION 101 HONORS</b> allows students to work towards earning their private
HONORS		Must be 16	pilot's license. Material covered in the Aviation 101 course includes
		to apply	aerodynamics, aircraft performance, airspace, communications & radar
		and be	services, how to read & understand sectional charts, flight operations, FAA
		accepted into the	regulations, safe flight operations, navigation, weather, and weights and balances. The ground school component of training is offered online through
		TKA	TKOA. Students will be scheduled for a specialized study hall section during
		Aviation	which certified pilots will provide occasional in-person instruction and RedBird
		Program of	FMX Simulator training and students may complete their online training
		Distinction	course. Students are required to enroll in an approved partner flight school for
			in-flight training. Some typical inflight training topics encompass flight
			planning, preflight procedures, airport operations, takeoffs, landings, go-
			arounds, performance maneuvers, ground reference maneuvers, navigation,
			slow flight and stalls, basic instrument maneuvers, emergency operations,
			night operations, and post flight procedures. This class entails significant
			dedication and a considerable time commitment. Students are required to
			complete the online ground training, pass the written FAA exam, and
			complete their solo flight to earn credit for Aviation 101 Honors. There are
			additional fees for enrollment in this course, in addition to fees paid directly
AVUATION	\/F	4.2th	to the select partner flight school for services rendered.
AVIATION 201	YEAR	12 <sup>th</sup>	AVIATION 201 HONORS is the continuation of the Aviation 101 Honors
HONORS		Aviation 101 Honors	program. Students are expected to successfully earn their Part 141 Private
		101 11011013	Pilot License by completing Aviation 101 Honors requirements in addition to all required flight training (approximately 40 hours) and passing an inflight
			practical exam administered by an FAA Designated Flight Examiner. Students
			have the option to take this independently or to be scheduled for a specialized
			study hall section where certified pilots will provide occasional in-person
			instruction and simulator training on campus using the RedBird FMX
	L	<u> </u>	

		Simulator. This class entails significant dedication and a considerable time
		commitment. There are no additional TKA class fees for this course. All fees
		are paid directly to the selected partner flight school for services rendered.

### **BIBLE / CHRISTIAN LEADERSHIP**

Course Name	Term	Grade /	Course Description
		Prerequisite	
			Requirements:
			All students at The King's Academy must take a semester/half credit of
			Bible during each year.
			Christian Leadership Program of Distinction Overview:
			Students are welcome to complete one of three pathways to earn this
			distinction if they meet the prerequisites and complete all standard
			graduation requirements with a minimum GPA of 3.0. The courses and
			experiences will be open and available for students in 10 <sup>th</sup> -12 <sup>th</sup> grade.
			The courses will not, however, count for Bible credit for students in 10 <sup>th</sup> -
			11 <sup>th</sup> grade. Yet, any of the courses will fulfill the 12 <sup>th</sup> grade Bible credit.
			<u>Courses</u> :
			<ul> <li>Interpreting the Bible Honors</li> </ul>
			DE Evangelism & Apologetics
			Christ & Culture Honors
			(any of these courses will also fulfill the 12 <sup>th</sup> grade Bible credit)
			Experiences:
			MAVEN
			• SLU 101 & 201
			Reasonable Faith Leader
			Pathways:
			<ul> <li>DE Evangelism &amp; Apologetics with any 2 experiences.</li> </ul>
			<ul> <li>Any 2 courses and 1 experience.</li> </ul>
			All 3 courses with no experiences.
WORLDVIEW	SEM	9 <sup>th</sup> -12 <sup>th</sup>	WORLDVIEW STUDIES ESL allows students to gain an understanding of
STUDIES ESL		1 <sup>st</sup> year ESL	what they believe and why they believe it. Students will examine the
		students	Christ-centered theistic worldview in comparison to other major
			worldviews and will gain an understanding of what it means to apply
			God's invitation to love Him with all our heart, soul and mind. Students
			are challenged to apply the definitions of faith and truth in their
			examination of the claim of the Bible as God's collected book of inerrant
			revelation. Ultimately, the course provides students a comprehensive
			view of how Scripture fulfils the mission of God.
GOSPEL STUDIES –	SEM	9 <sup>th</sup> -12 <sup>th</sup>	GOSPEL STUDIES ESL introduces students to how to become friends
ESL		2 <sup>nd</sup> year ESL	with Jesus Christ. Students examine and apply the concept of Christ's
		students	role as our prophet, priest, and king. Students gain an understanding of
			how Jesus is the fulfillment of prophecy. Students will not only
			understand His place in history, but also His relevance to our lives today.
			Ultimately, the hope is that Jesus' life and message will transform
			students' lives as they gain a greater understanding of who Jesus is in
			their own individual lives and personalize their response to Him.

BIBLE I – LESSONS	SEM	9 <sup>th</sup>	BIBLE I – FOUNDATIONS OF FAITH equips students with the questions
FROM THE NEW			to examine the concepts of faith, reality, truth, worldview and ultimately
TESTAMENT			Christ. Students will examine the concepts of faith, reality, and truth
			from the perspectives of each of the major worldviews prior to
			examining some of the core beliefs of Christ-centered Theism. Students
			will explore the New Testament and be equipped with practical steps to
			live out their faith. Students will understand and apply the disciplines of
			epistemology and metaphysics in determining a personal answer to
			what is real as well as understanding and being equipped to interact
			with opposing beliefs, assumptions, and perceptions with gentleness
			and respect. Students will examine the concept of truth and determine
			what makes something objectively worthy of trust and evaluate the
			evidence to decide if an absolute standard for truth exists. They will
			investigate the evidence to ascertain if a trustworthy revelation of truth
			exists and analyze and form conclusions regarding the foundation of
			faith that they will choose to build their life upon.
BIBLE II –	SEM	10 <sup>th</sup>	BIBLE II – INTRODUCTION TO APOLOGETICS provides a basic
INTRODUCTION TO			introduction to the rational defense of Christianity. Special attention is
APOLOGETICS			given to the philosophical, historical, and scientific evidence for
			Christianity. It explores some of the assorted challenges to Christian
			beliefs and provides strategies for managing conversations with
			unbelievers.
BIBLE III –	SEM	11 <sup>th</sup>	BIBLE II – WORLDVIEW & RELIGIONS is designed to introduce students
<b>WORLDVIEW &amp;</b>			to six major worldviews that are commonly held throughout the world.
RELIGIONS			The principles and resulting practices of Christianity, Islam, Secular
			Humanism, Marxist/Leninism, New Age Spiritualism (Pantheism), and
			Postmodernism are presented and discussed through the lens of God's
			Word. The course material actively seeks to cover the ethical,
			theological, psychological, social, political, economic, and biological
			implications of these worldviews. The purpose of the class is to
			challenge students to understand the influence of ideas in the world and
			to gain a spiritual foundation based on God's truth.
DE EVANGELISM &	SEM	10 <sup>th</sup> -12 <sup>th</sup>	<b>DE EVANGELISM &amp; APOLOGETICS</b> is an advanced study of the rationality
APOLOGETICS		10 <sup>th</sup> -12 <sup>th</sup>	of Christianity. Special attention is given to showing how certain
7.11 0 2 0 0 2 11 1 0 0		grade	"commonsense" objections to Christianity do not hold up and why
		students	Christianity makes more rational sense than naturalism. It also explores
		with a	strategies for managing conversations and speaking truth in an age of
		minimum	religious skepticism. <i>Dual Enrollment (DE) courses will remain on the</i>
		unweighted	student's permanent college transcript.
		3.0 GPA are	stauent a permanent conege transcript.
		eligible to	
		enroll into	
		DE classes	
INTERDRETING THE	CEN4	10 <sup>th</sup> -12 <sup>th</sup>	INTERDRETING THE DIDLE HONORS is a bonds on annuaced to reading
INTERPRETING THE	SEM	10, -15,	INTERPRETING THE BIBLE HONORS is a hands-on approach to reading,
BIBLE HONORS			interpreting, and applying the Bible. The student practices recognizing
			and implementing valid interpretations and applications of the Bible—
			specifically it's more problematic and contentious passages. It also

			engages with today's skepticism toward the divine origin, validity, and relevancy of the Bible.
CHRIST & CULTURE HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup>	CHRIST & CULTURE HONORS is a model for what it means to think with biblical discernment and cultural savvy about the intersection of the gospel and secular culture. Special attention is given to addressing ethical barriers to faith erected by those both inside and outside the church. It outlines ways of leading with compassion and effectiveness at the points of confrontation.
SYSTEMATIC THEOLOGY	SEM	12 <sup>th</sup>	SYSTEMATIC THEOLOGY seeks to equip students with techniques to help them develop an effective personal Bible study. This course also discusses denominational differences as it applies to interpretation of Scripture and worship in order to better understand one's faith framework. Finally, this course will study eschatology (the study of the end times) in order to understand different Scriptural foundations for the different eschatological perspectives.
WOMEN OF INFLUENCE	SEM	12 <sup>th</sup> Girls	WOMEN OF INFLUENCE students explore various females within the biblical text. Exploration of these women will highlight the chronology of God's redemptive work through their stories. In this process students will learn about the Bible's most faithful women in history. This course is designed to help students engage with biblical women and their influence on the Christian faith through in-depth analysis of their lives. Students will explore the juxtaposition of biblical womanhood and the modern perspective of womanhood shaped by the Western worldview.

### **BUSINESS**

Course Name	Term	Grade /	Course Description
		Prerequisite	
			Business Program of Distinction Overview:
			Students are welcome to take any class within this program for
			elective credit if they meet the prerequisites. Membership with the
			Future Business Leaders of America, (FBLA) is encouraged. The
			Program of Distinction is awarded to students who complete all
			standard graduation requirements with a minimum GPA of 3.0 and
			complete a combination of 4 required courses:
			Mandatory course:
			DE Introduction to Business
			Plus, any 3 of the following elective courses:
			Business and Entrepreneurial Principles
			Accounting Applications Honors
			American Free Enterprise Honors
			o Finance
			Marketing Essentials Honors
			Business Law and Ethics Honors or DE (this course also fulfils an
			elective for the O'Keeffe Pre-Law Studies Program of Distinction)
BUSINESS &	SEM	9 <sup>th</sup> -10 <sup>th</sup>	BUSINESS & ENTREPRENEURIAL PRINCIPLES is intended to introduce
ENTREPRENEURIAL		Recommended	the concepts for many business disciplines. Accounting, finance,
PRINCIPLES		1 <sup>st</sup> course in	human resources, economics, marketing, etc., are taught in this
		the program	preparatory class. For the business student, this is typically paired
			with the Applied Computer Business Skills course.
ACCOUNTING	SEM	10 <sup>th</sup> -12 <sup>th</sup>	ACCOUNTING APPLICATIONS HONORS investigates the disciplines of
APPLICATIONS			managerial and financial accounting. The content includes double
HONORS			entry accounting principles, methods of recording business
			transactions, preparation and analysis of financial statements, payroll
			records and tax forms, accounting control systems, inventory
			methods, depreciation, and the application of accounting principles
			to various entities.
AMERICAN FREE	SEM	12 <sup>th</sup>	AMERICAN FREE ENTERPRISE HONORS is intended to help develop
ENTERPRISE		Fulfills	thoughtful, active, knowledgeable citizens who understand the
HONORS		Economics	American model of government. Concepts of private ownership;
		graduation	personal responsibility; structure and functions of local, state,
		requirement	national government within a constitutional framework; rights and
		•	responsibilities of citizenship; free markets: and the importance of
			political participation are included in this course. The course also
			incorporates a personal finance online simulation as well as an
			investments unit. Concepts included in those two units include
			personal banking, consumer credit, paying taxes, understanding risk,
			diversification, mutual funds, stocks, bonds, financial ratios,
			dividends and sustainability.

SFM	10 <sup>th</sup> -12 <sup>th</sup>	MARKETING ESSENTIALS HONORS covers the entire discipline of
JEIVI	10 12	marketing, including the process by which products and services are
		planned, promoted, priced, and distributed. Students learn
		terminology and vocabulary relevant to the industry. This course
CENA	4 Oth 4 Oth	provides students with real world marketing knowledge.
SEIVI	_	BUSINESS LAW & ETHICS HONORS OR DE covers the biblical
	1	concepts of negotiation, agreement, and business relationships will
	•	be presented in conjunction with a study on contracts. Students will
	-	be introduced to property law, and will explore concepts in personal,
		real, and intellectual property. The biblical concept of stewardship
	O'Keeffe Pre-	will be presented in conjunction with the study on property. Tort
	Law Program	liability, prevention, and mitigation will be examined. Students will
	of Distinction	further explore the duties of the principal/agent and selected topics
	elective option	in employment law. Each topic in the course will have its own ethical
		considerations, and a brief overview of the study of ethics will also be
		included.
SEM	10 <sup>th</sup> -12 <sup>th</sup>	INTRODUCTION TO BUSINESS HONORS students complete a full
		business plan and present it to a panel of judges.
SEM	11 <sup>th</sup> -12 <sup>th</sup>	<b>DE INTRODUCTION TO BUSINESS</b> is designed to provide students
	11 <sup>th</sup> & 12 <sup>th</sup>	with a background in the major functional areas of business, such as
	grade students	accounting, finance, marketing, manufacturing, information systems,
	with a	human resource management, business law, and international
	minimum	business. It provides a tour of the key functions related to business
	unweighted	and is the basis for business terminology and concepts taught in
	3.0 GPA are	other college level courses in the business area. A full business plan is
	eligible to	written and presented in this course. Dual Enrollment (DE) courses
	enroll into DE	will remain on the student's permanent college transcript.
	classes	
		SEM 10 <sup>th</sup> -12 <sup>th</sup> (recommended for 11 <sup>th</sup> -12 <sup>th</sup> grades) Also fulfils O'Keeffe Pre- Law Program of Distinction elective option  SEM 10 <sup>th</sup> -12 <sup>th</sup> SEM 11 <sup>th</sup> -12 <sup>th</sup> grade students with a minimum unweighted 3.0 GPA are eligible to enroll into DE

### **ELECTIVES**

Course Name	Term	Grade/	Course Description
		Prerequisite	
			Requirements:
			Students must complete 2.5 credits (5 semesters) of elective courses in
			addition to the required Bible courses. Electives may be any class offered
			at The King's Academy (excluding Study Hall) that exceeds the basic
			graduation requirements.
LEARNING	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	<b>LEARNING STRATEGIES</b> is available to students who are currently enrolled
STRATEGIES			in TKA's Academic Support program. It is designed to provide support and
			coaching for students diagnosed with learning disabilities, ADHD or other
			qualifying conditions. Strategies addressed include the areas of time
			management, organization, study skills, self-advocacy and self-awareness.
ADMINISTRATIVE	SEM	9 <sup>th</sup> -12 <sup>th</sup>	ADMINISTRATIVE OFFICE TECHNOLOGY (OA) is designed to introduce the
OFFICE	or		student to an office setting. Students help with various office tasks and
TECHNOLOGY (OA)	YEAR		other related projects as they learn to work as part of a team and manage
			their own workload. The student may be placed in the high school office,
			the elementary office, the front desk, the bookstore, development, etc.
			The student remains assigned to one office for the entire semester.
			Students are allowed to take this class for a maximum of 2 semesters.
INTRODUCTION TO	SEM	9 <sup>th</sup> -12 <sup>th</sup>	INTRODUCTION TO EDUCATION (ITE) is designed for those interested in
<b>EDUCATION (ITE)</b>	or		teaching as a career or who enjoy working in the classroom setting.
	YEAR		Students may be placed in any classroom at The King's Academy from
			Junior Kindergarten to 12 <sup>th</sup> grade and remain in that classroom during the
			entire semester. Students are allowed to take this class for a maximum of
			2 semesters.
STUDY HALL	SEM	9 <sup>th</sup> -12 <sup>th</sup>	STUDY HALL is designed for independent quiet study time. No graduation
	or		credit or grade is given in this course.
	YEAR		

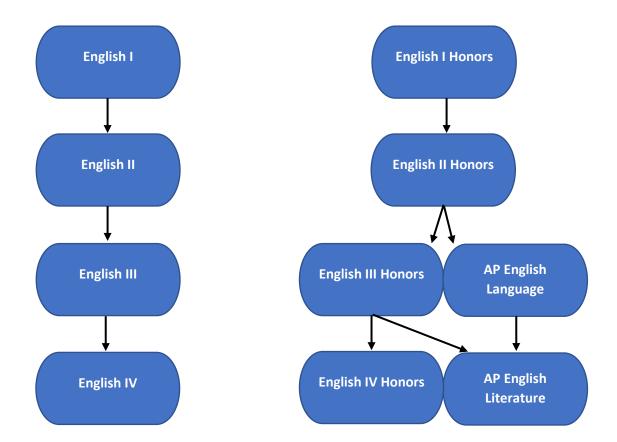

### **DIMINO ENGINEERING AND TECHNOLOGY**

Course Name	Term	Grade/	Course Description
		Prerequisite	
		Trerequisice	DiMino Engineering and Technology Program of Distinction Overview:  Students are welcome to take any class within this program for elective credit if they meet the prerequisites. A strong performance in Mathematics and Science courses promotes success in Engineering classes. The DiMino Engineering and Technology Program of Distinction is awarded to students who complete all standard graduation requirements with a minimum GPA of 3.0.  The required classes for these programs are:  DiMino Engineering:  Introduction to Engineering Design Honors  Principles of Engineering Honors  Aerospace Engineering Honors- Optional Elective  Civil Engineering & Architecture Honors- Optional Elective  Engineering Design & Development Honors  DiMino Technology:  Computer Programming  Cybersecurity (required beginning 2024-2025)  Web Design
			_
		ath a th	AP Computer Science Principles
INTRODUCTION TO ENGINEERING DESIGN HONORS	YEAR	9 <sup>th</sup> 12 <sup>th</sup> Algebra I or Algebra I Honors	INTRODUCTION TO ENGINEERING DESIGN HONORS is an introductory engineering course. Students dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. They work both individually and in teams to design solutions for a variety of problems using 3D modeling software and an engineering notebook to document their work. Students are required to have a device with a minimum of 64-bit Microsoft Windows 7 with Service Pack 1, 64-bit Intel or AMD, 2 GHz or faster, 8 GB RAN for less than 500-part assemblies and 250 GB free disk space or more to run Autodesk Inventor.
PRINCIPLES OF	YEAR	10 <sup>th</sup> -12 <sup>th</sup>	PRINCIPLES OF ENGINEERING HONORS is a study of some of the major
ENGINEERING HONORS		Introduction to Engineering Design Honors	concepts that students will encounter in a post-secondary engineering course of study. Students have an opportunity to investigate engineering and high-tech careers. This course gives students the opportunity to develop skills and understanding of course concepts through activity-project-problem-based (APPB) learning. Used in combination with a teaming approach, APPB learning challenges students to continually hone their interpersonal skills, creative abilities, and problem-solving skills based upon engineering concepts. It also allows students to develop strategies to enable and direct their own learning. Students are required to have a device with a minimum of 64-bit Microsoft Windows 7 with Service Pack 1, 64-bit Intel or AMD, 2 GHz or faster, 8 GB RAN for less than 500-part assemblies and 250 GB free disk space or more to run Autodesk Inventor.

AEROSPACE	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	AEROSPACE ENGINEERING HONORS PLTW propels students' learning in
ENGINEERING	12,414	Introduction	the fundamentals of atmospheric and space flight. As they explore the
HONORS		to Engineering	physics of flight, students bring the concepts to life by designing an airfoil,
		Design Honors	propulsion system, and rockets. They learn basic orbital mechanics using
		and	industry-standard software. They also explore robot systems through
		Principles of	projects such as remotely operated vehicles. Lastly, they will have the
		Engineering	opportunity to experience operating an airplane in a flight simulator.
CIVIL	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	CIVIL ENGINEERING AND ARCHITECTURE HONORS (CEA) is the study of
ENGINEERING &	ILAN	Introduction	the design and construction of residential and commercial building
ARCHITECTURE		to Engineering	projects. The course includes an introduction to many of the varied factors
HONORS		Design Honors	involved in building design and construction including building
(not offered		and	components and systems, structural design, storm water management,
during the 2024-		Principles of	site design, utilities and services, cost estimation, energy efficiency, and
2025 school		Engineering	careers in the design and construction industry. The major focus of the
		Engineering	· · · ·
year)			CEA course is to expose students to the design and construction of residential and commercial building projects, design teams and teamwork,
			communication methods, engineering standards, and technical
			documentation. Utilizing the activity-project-problem-based (APPB)
			teaching and learning pedagogy, students will analyze, design and build
			electronic and physical models of residential and commercial
			facilities. While implementing these designs students will continually hone
			their interpersonal skills, creative abilities and understanding of the design
			process. Civil Engineering and Architecture is a high school level course
			that is appropriate for 10 <sup>th</sup> or 11 <sup>th</sup> grade students interested in careers
			related to civil engineering and architecture. Other than their concurrent
			enrollment in college preparatory mathematics and science courses, this
			course assumes no previous knowledge.
ENGINEERING	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	ENGINEERING DESIGN & DEVELOPMENT HONORS is the capstone course
DESIGN &		Introduction	in the Project Lead the Way (PLTW) high school engineering program. It is
DEVELOPMENT		to Engineering	an engineering research course in which students work in teams to design
HONORS		Design Honors	and develop an original solution to a valid open-ended technical problem
		and	by applying the engineering design process. The course applies and
		Principles of	concurrently develops secondary level knowledge and skills in
		Engineering	mathematics, science, and technology. Utilizing the activity-project-
			problem-based (APPB) teaching and learning pedagogy, students will
			perform research to choose, validate, and justify a technical problem.
			After carefully defining the problem, teams of students will design, build,
			and test their solution. Finally, student teams will present and defend their
			original solution to an outside panel. While progressing through the
			engineering design process, students will work closely with a community
			mentor and experts and will continually hone their organizational,
			communication and interpersonal skills, their creative and problem-solving
			abilities, and their understanding of the design process. Engineering
			Design and Development should be taken as the final capstone course
			since it requires application of the knowledge and skills from the PLTW
			foundational courses.

	1	41- 41-	
cybersecurity (required beginning 2024- 2025)	SEM	9 <sup>th</sup> -12 <sup>th</sup>	CYBERSECURITY gives students a broad exposure to the many aspects of digital and information security, while encouraging socially responsible choices and ethical behavior. It inspires algorithmic thinking, computational thinking, and especially, "outside-the-box" thinking. Students explore the many educational and career paths available to cybersecurity experts, as well as other careers that comprise the field of information security.
COMPUTER	SEM	9 <sup>th</sup> -12 <sup>th</sup>	COMPUTER PROGRAMMING I provides students with a programming
PROGRAMMING			course option at a standard level. It is a broad approach to programming,
1			learning several languages, and learning the basics of computer hardware,
			software, etc. This course uses the online program CodeHS. The topics
			included in this course are the following: Functions, Top-Down Design,
			Commenting your Code, "If" Statements and "If/Else" Statements, Control
			Structures, Variables, Basic Math, Graphics, Booleans, Logical Operators,
			Loops, Parameters and Variables. Students are introduced to basic app
WEB DESIGN	SEM	9 <sup>th</sup> -12 <sup>th</sup>	design and will create an app using Code.org.
WED DESIGN	) DE IVI	J -12	<b>WEB DESIGN</b> is an introduction to the design, creation, and maintenance of web pages and websites. Students learn how to critically assess website
			quality, create (and maintain) quality web pages, evaluate web design
			standards and create/manipulate website graphics. Students will learn the
			languages HTML and CSS and will create their own live homepages to
			serve as a personal portfolio. By the end of this course, students will be
			able to explain how web pages are developed and viewed on the Internet,
			analyze and fix errors in existing websites, and create their very own
			multipage websites.
AP COMPUTER	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	AP COMPUTER SCIENCE PRINCIPLES introduces students to the central
SCIENCE		There is no	ideas of computer science. Students will develop computational thinking
PRINCIPLES		prerequisite	skills vital for success across multiple disciplines. They will use
		for AP	computational tools to analyze and study data and work with large data
		Computer	sets to analyze, visualize, and draw conclusions from trends. The course is
		Science	focused on fostering and applying the creative process when developing
		Principles, but	computational artifacts. Students design and implement innovative
		Computer	solutions using an iterative process (similar to artists, writers, and
		Programming	engineers) to bring their ideas to life. Students develop advanced
		I or Web	programming skills in HTML, CSS, JavaScript, and Python. They will utilize
		Design is	effective communication and collaboration skills to solve problems that
		strongly	impact their school, community, and society. The objective of this AP
		recommended	course is to prepare students for the AP examination. Colleges and
			universities often award placement and course credit to students who obtain high scores on their AP examinations.
			obtain high scores on their Ar examinations.

### **ENGLISH COURSE SEQUENCE**

### **ENGLISH**

Course Name	Term	Grade/ Prerequisite	Course Description
		. rerequisite	Requirements:
			All students at The King's Academy must take a full year of English each year.
			Advanced Placement level courses are offered for students in 11 <sup>th</sup> and 12 <sup>th</sup>
			grades. A strong performance in English honors courses promotes success in
			AP classes.
ENGLISH I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	<b>ENGLISH I THROUGH ESL</b> is required for first year International Students
THOUGH ESL		1 <sup>st</sup> Year	(unless the student is taking Writing I – ESL or Writing II – ESL) and is designed
		International	to give students the opportunity to improve fluency in comprehension,
		Students	conversation, and written skills to communicate information, ideas. In this
			course, students learn writing skills as they learn to complete research, build
			vocabulary and grammar while strengthening reading comprehension.
			Students are led through the writing process with engaging writing
			assignments that focus on various rhetorical modes. This class fulfills the
			student's English requirement for the year.
ENGLISH II	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	ENGLISH II THROUGH ESL is an English course for our second year
THOUGH ESL		2 <sup>nd</sup> Year	International Students, regardless of grade level, who have not tested out of
		International	ESL I after their first year. Students are expected to summarize information
		Students	from reading, as well as use background knowledge and personal experience
			to answer questions on related topics. Students work on creating, expanding,
			and accurately utilizing their vocabulary through context-based controlled
			practice exercises. Higher level speaking and writing skills are taught and
			students learn to construct effective argument in speaking and writing, using
			personal experience and background information to define their own position
			on the subject, considering different viewpoints, formulating a thesis,
			choosing appropriate support, analyzing evidence to support the thesis, and
			considering the audience's needs. In addition, students will grow in literature
			analysis. Intermediate level grammar is reviewed. This class fulfills the
INTENSIVE	SEM	9 <sup>th</sup> -12 <sup>th</sup>	student's English requirement for the year.  INTENSIVE WRITING FOR ISP STUDENTS is designed to enable International
WRITING FOR	or	International	Students to develop and use grade level writing and language skills in a variety
ISP STUDENTS	YEAR	Students	of writing formats for argumentative, informative, and narrative purposes to
ISI STODENTS	ILAN	Staucits	ensure preparation for college and career readiness and more specifically
			readiness for mainstream English courses. This course is beneficial for any
			International Student wanting to strengthen writing and grammar skills while
			using the writing that is assigned in English class.
ENGLISH I	YEAR	9 <sup>th</sup>	<b>ENGLISH I</b> is intended to familiarize students with selections from the literary
		_	genres of folk tradition, fiction, poetry, and drama. Students identify and
			analyze main characteristics and technical aspects of each genre. Writing
			includes a research paper and narrative, expository, and persuasive essays.
			Students must defend, challenge, or qualify assertions persuasively. Students
			build vocabulary, gain tools to help them analyze nonfiction, and complete an
			in-depth grammar and usage study to reinforce previously learned skills and
L	1	1	

			build on those foundations. Special emphasis is placed on proofreading and
			editing to train students to write more effectively.
ENGLISH I	YEAR	9 <sup>th</sup>	<b>ENGLISH I HONORS</b> is the more advanced course for ninth grade students.
HONORS			The honors course students study the same core material as regular English I,
			but students spend less time on the introduction of concepts, and more time
			on the conceptualization and processing of content. Students are expected to
			master basic material at a rapid rate in the rigor and complexity of this course.
			Six additional novels and written readers' journals with a variety of alternative
			assessments are added to the honors' student's course. The purpose of the
			honors program at the 9 <sup>th</sup> grade level is to prepare students for the increasing
			rigors of subsequent Advanced Placement courses.
ENGLISH II	YEAR	10 <sup>th</sup>	<b>ENGLISH II</b> is the required course for tenth grade students that focuses on the
			study of world literature, reading, and composition. The class is theme related
			and literature based. The representative literary works are surveyed for
			content, style, form, diction, and relevancy to our time and culture. Attention
			is given to literary analysis, characters, and symbols within major literary
			trends. Students are given the opportunity to improve grammar and usage
			competency. Emphasis is placed on the development of critical and analytical thinking skills through classroom discussion, projects, and compositions.
ENGLISH II	YEAR	10 <sup>th</sup>	<b>ENGLISH II HONORS</b> is the more advanced course for 10 <sup>th</sup> grade students. The
HONORS	ILAN	10	honors course focuses on the same basic material but is designed for students
nonono			who will work at an accelerated pace and embrace an advanced course of
			study. Students enrolled in Honors English II should desire a challenging
			curriculum in the areas of reading, literary analysis, writing, grammar, and
			public speaking. Literary works are surveyed for content, style, form, diction,
			and relevancy to our time and culture. Attention is given to literary analysis
			and criticism, characters, and symbols within major literary trends.
			Composition, research, public speaking, multi-sensory learning, and the use of
			current technology are integrated into the study. Students are given the
			opportunity to improve grammar and usage proficiency. Emphasis is placed on
			the development of critical and analytical thinking skills through compositions,
			classroom discussion, and projects. Independent reading and the study of
	\/FAB	a a th	vocabulary are required in this course.
ENGLISH III	YEAR	11 <sup>th</sup>	<b>ENGLISH III</b> is the required course for 11 <sup>th</sup> grade students that surveys
			American literature and encourages an appreciation of the stages of literary history of the United States. Composition assignments begin with an
			emphasis on previously mastered skills such as paragraph and essay
			construction through various types of exposition, and spirals upward toward
			mastery of persuasion, analysis, and evaluation. Students study an increasingly
			advanced ACT/SAT based vocabulary program. The research paper is
			expository and analytical in nature and is based on student interest and
			teacher guidance.
ENGLISH III	YEAR	11 <sup>th</sup>	<b>ENGLISH III HONORS</b> is for the advanced 11 <sup>th</sup> grade student who will do an in-
HONORS			depth survey of American literature. There will be a heavy emphasis on
			analysis of novels and pieces beyond that of a normal classroom. The writing
			will be varied but very structured, and by the end of the year, each student
			should have mastered the basic critical analysis and persuasive style essay.

	1		[
			Students that complete this course will also be able to read secondary sources to enhance their understanding of a text studied together in class. This class is designed particularly for those who already have a love of reading and writing and are trying to foster that passion a step further. The writing in the honors class should also help the student be prepared for a higher level of writing as they are preparing for college.
AP ENGLISH	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	AP ENGLISH LANGUAGE & COMPOSITION is the more advanced course for
LANGUAGE & COMPOSITION			11 <sup>th</sup> grade students. As stated in the AP Language and Composition course description provided by the College Board, the course is designed to "enable students to write effectively and confidently in their college courses across the curriculum and in their personal and professional lives." This course "emphasizes the expository, analytical, and argumentative writing that forms the basis of academic and professional communication." Students interact with a variety of complex texts, mainly nonfiction, which are chosen from a list of representative authors supplied by the College Board. Goals of this course include teaching students to read primary and secondary sources carefully, to synthesize material from these texts in their own compositions, and to cite sources using conventions that are recommended by professional organizations. Students who successfully complete this course become "skilled readers of prose written during a variety of periods, disciplines and rhetorical contexts," as well as "skilled writers who compose for a variety of purposes." The objective of the course is to prepare students for the AP examination. Colleges and universities often award placement and course credit to students who obtain high scores on their AP examinations.
ENGLISH IV	YEAR	12 <sup>th</sup>	<b>ENGLISH IV</b> explores British literature in all its genres, beginning with the oral
			tradition and concluding with contemporary time. Students foster an appreciation, and understanding of the prose and poetry of England, which has produced classics that are used worldwide. The devices and elements peculiar to British literature are studied and applied to the reading, conceptual understanding, and appreciation of British literature. This class requires higher thinking skills, such as analysis, evaluation, interpretation, demonstration, original composition, assessment, and differentiation. The regular textbook is supplemented with additional readings by other noted British writers of classical novels. Various styles and techniques of writings by the students are incorporated in this study, such as essays, journals, diaries, research papers, explications, and analyses. The development and use of new, challenging vocabulary is encouraged through an online vocabulary program which calibrates itself to the student's personal lexicon and abilities
ENGLISH IV HONORS	YEAR	12 <sup>th</sup>	students who are looking for a more in depth, faster-paced study of British Literature in all its genres. Students in this course will foster an understanding and appreciation for the writings of British authors from across Great Britain and their influences on American authors and works thereafter. This class requires higher ordered thinking, specifically focused on evaluation, interpretation, synthesis, and analysis. Selections from the regular text are supplemented with an intensive vocabulary program and the addition of novels and plays by benchmark authors from the literary canon. Students in

			this course will be expected to complete the majority of the required reading outside of the classroom. In addition to intensive reading, this course will also
			focus on the mastery of several types of academic writing, including, but not
			limited to literary analysis and criticism, abstracts, and non-fiction research.
AP ENGLISH	YEAR	12 <sup>th</sup>	AP ENGLISH LITERATURE & COMPOSITION is the more advanced course for
LITERATURE &			12 <sup>th</sup> grade students. The course incorporates the same objectives for British
COMPOSITION			literature as English IV but carries additional requirements of more
			supplemental readings and writings which are modeled after a college style
			course. Students are given the intellectual challenges and workload consistent
			with that found at a college level. The appreciation and understanding of
			literature, application of literary techniques and forms, and acquiring pleasure
			through reading of the works of British writers are taught. Students are
			expected to gain the ability to communicate effectively and knowledgeably,
			focus on writing critical analyses, understanding the complexities of writing
			effectively, and embodying richness in the written word. Additional course
			materials include a rigorous vocabulary program, AP study guide, eight to ten
			additional classic novels or plays, multiple types of essays including a 10-page
			research paper, complex literary analysis, and supplemental resources as part
			of the AP requirements. The culmination of this course is the AP English
			Literature and Composition Exam at the end of the school year. The objective
			of this AP course is to prepare students for the AP examination. Colleges and
			universities often award placement and course credit to students who obtain
			high scores on their AP
			examinations.

### THE SMITH FAMILY CONSERVATORY OF THE ARTS

Course Name	Term	Grade/	Course Description
		Prerequisite	
			Requirements: All TKA students are required to take a full
			credit (two semesters) of high school level Fine Arts courses.
			The Smith Family Conservatory of the Arts Program of Distinction Overview:  Students are welcome to take any class within this program for elective credit if they meet the prerequisites. Students must work with their Conservatory Advisor for proper class placement and selection. The Program of Distinction is awarded to students who complete all standard graduation requirements with a minimum GPA of 3.0 and complete 6 required courses in one of the following areas:  Performing Arts  Visual Arts  Instrumental Arts  Vocal Arts  Theatre/Musical Theatre Arts  Digital Media Arts
MICHAL ADTC			Digital Media Arts
VISUAL ARTS			
DRAWING I	SEM	9 <sup>th</sup> -12 <sup>th</sup>	DRAWING I artists learn how to draw using the right side of their brain. Students gain excellent realistic drawing skills to be able to work out their ideas and experiment with the media and techniques used to create a variety of two-dimensional drawings. Students gain a clear understanding of how thumbnail sketches are the starting point for any great drawing and how to develop outstanding compositions that engage the viewer. Focus is placed on the elements of art and design in all drawing assignments while improving mark making and/or the organizational principles of design in a composition from observation, research, and/or imagination. Opportunities for group and individual teacher/student critiques occur for students to self-evaluate and respond to their own work and that of their peers in order to achieve individual artistic goals related to craftsmanship, technique, and application of 21st-century skills. Biblical connections and the importance of faith are implemented into each project. Students demonstrate proficiency in the conceptual development of content in drawing to create self-directed or

			collaborative 2-D artwork suitable for inclusion in a portfolio. Students learn to draw using a variety of materials from H to B pencils, graphite chunks, marker, soft pastel, charcoal, chalk, and oil pastel. Personal style of the student artist is developed and encouraged. Harvard Project Zero visible thinking routines are used to help the students in their understandings and connections. Purchase of hard covered 9x12 sketchbook with a minimum of 50 pages required.
DRAWING HONORS	SEM	9 <sup>th</sup> -12 <sup>th</sup>	DRAWING HONORS is for the artist who wishes to enhance
	SLIVI	3 -12	their drawing skills as well as further their ability as a two-dimension realistic artist. The class is designed for the serious art student in preparation for the AP Studio Art course. Students explore and develop their artistic skills and begin building a portfolio of exceptional work that can be submitted for evaluation for the AP studio course. The focus on this course is to strengthen the realist drawing abilities of the student while also adding the addition of emotional content, imagination, and creativity. Advanced foreshortening viewpoints will strengthen the student's ability to draw looking up or down at a particular grouping of objects. The addition of working with the student's imagination will allow the students to draw from their mind's ideas while also seeking real life references for their drawings. Specialty graphite pencils, charcoal, soft pastel, pen and ink, colored pencil, and markers with be used to create a variety of illustrative drawings. Students will work on Bristol board, cold/hot press watercolor paper, illustration board, Canson paper, newsprint, and smooth press drawing paper. Harvard Project Zero visible thinking routines are used to help the students in their understandings and connections. <i>Purchase of hard covered 9x12 sketchbook with a minimum of 50 pages required</i> .
PAINTING I	SEM	9 <sup>th</sup> -12 <sup>th</sup>	PAINTING I students experiment with a variety of painting
			materials from watercolor, tempera and acrylic to create dynamic paintings. Students create a variety of two-dimensional artworks through the development of artistic skills in painting while also focusing on composition, color theory and technical skills of using various brushes when painting. Students focus on organizational principles of design in a composition from observation, research, and/or imagination. Still life painting, landscape, seascape and imaginative are some of the final projects created by the students. Opportunities for group and individual teacher/student critiques occur for students to self-evaluate and respond to their own work and that of their peers in order to achieve individual artistic goals related to craftsmanship, technique, and application of 21st-century skills. <i>Purchase of</i>

			hard covered 9x12 sketchbook with a minimum of 50 pages
	6514	oth 40th	required.
PAINTING I HONORS	SEM	9 <sup>th</sup> -12 <sup>th</sup>	PAINTING I HONORS students advance their painting skills
			through working with a variety of painting mediums, such as
			watercolor, acrylic and oil paints, to create amazing paintings.
			Students will expand their understanding of colors and learn
			how colors are used to create emotional content, how colors
			are used to develop form within an object, how color is used
			to create depth of field, and how color is used to enable the
			viewer to look through the whole painting. Students will
			create a variety of two-dimensional (2-D) paintings by
			advancing their practice of artistic skills in painting while also
			strengthening their composition, color theory, and technical
			skills of using various brushes when painting. Working with an
			assortment of themes, students will enhance their ability to
			handle various materials and concepts. Opportunities for
			group and individual teacher/student critiques occur for
			students to self-evaluate and respond to their own work and
			that of their peers in order to achieve individual artistic goals
			related to craftsmanship, technique, and application of 21st-
			century skills. Purchase of hard covered 9x12 sketchbook with
			a minimum of 50 pages required.
STUDIO ART I	SEM	9 <sup>th</sup> -12 <sup>th</sup>	STUDIO ART I is an entry level art course. Students
			experiment with the media and techniques used to create a
			variety of artworks through the development of skills in
			drawing, painting, printmaking, collage, and/or design.
			Students practice, sketch, and manipulate the structural
			elements of art to improve mark making and/or the
			organizational principles of design in a composition from
			observation, research, and/or imagination. Through the
			critique process, students evaluate and respond to their own
			work and that of their peers. This course incorporates hands-
			on activities and consumption of art materials.
STUDIO ART II	SEM	9 <sup>th</sup> -12 <sup>th</sup>	STUDIO ART II will focus on a variety of two-dimensional and
		Studio Art I	three-dimensional artworks with a focus on visual
			communication. Students will further enhance their
			understanding of how the Elements of Art and Principles of
			Design are used by artists to communicate messages through
			their work. Emphasis on what makes 'good design' is the focus
			of this course. Students will apply their knowledge of color
			theory and how different color combinations visually
			communicate messages to the viewer. Students will make
			connections to how 'color' is used in the Bible in order to
			make connections in everyday life. Compositional techniques
			will be strengthened through a variety of mixed media
			projects. Opportunities for group and individual
			teacher/student critiques occur for students to self-evaluate

			and respond to their own work and that of their peers. This
			course incorporates hands-on activities and consumption of
			art materials. Purchase of hard covered 9x12 sketchbook with
			a minimum of 50 pages required.
STUDIO ART III HONORS	SEM	9 <sup>th</sup> -12 <sup>th</sup>	STUDIO ART III HONORS is designed for the student who does
	02	Studio Art II	not want the rigors of the AP level Studio Art Course but at the
		Stadio / ii t ii	same time desires a challenging course where artistic skills will
			be enhanced. Students will gain a firm understanding of
			drawing through both gesture, contour, observational and
			figure drawing assignments. Advanced color theory skills will
			be another main focus of this course and will expand the
			student's understanding of how colors communicate
			messages. Advanced printmaking as well as 3-D projects will
			give the art student a full range of critical thinking activities to
			grow their skills. In class exercises and final projects students
			will further develop their compositional design sense. A
			variety of mediums will be used in this studio setting for work
			assigned in class and individual studio creations. Collaboration,
			critiques, and class discussions will prepare the student for
			future college studio courses. <i>Purchase of hard covered 8x11</i>
			or 11x14 sketchbook with a minimum of 50 pages required.
AP STUDIO ART 2-D DESIGN	YEAR	10 <sup>th</sup> -12 <sup>th</sup>	AP STUDIO ART 2-D DESIGN is for students who are seriously
		Art I minimum.	interested in the practical experience of art. Students submit
		Additional	portfolios for evaluation at the end of the school year. The AP
		studio art	Studio Art Program at The King's Academy consists of two
		courses that	portfolios — 2-D Design and Drawing — corresponding to the
		address	most common college foundation courses. Students may
		conceptual,	choose to submit either the Drawing or Two-Dimensional
		technical, and	Design portfolios. AP Studio Art students create a portfolio of
		critical	work to demonstrate the artistic skills and ideas they have
		thinking skills	developed, refined, and applied over the course of the year to
		can support	produce visual compositions. Colleges and universities often
		student	award placement and course credit to students who obtain
		success in the	high ratings for their submitted art portfolios. Purchase of
		AP studio	hard covered 9x12 sketchbook with a minimum of 50 pages
		course are	required.
		recommended.	
AP STUDIO ART 3-D DESIGN	YEAR	10 <sup>th</sup> -12 <sup>th</sup>	AP STUDIO ART 3-D DESIGN explores sculptural issues to
		3-Dimensional	enable students to understand 3-D design principles as they
		Studio Art I &	relate to the integration of depth, space, volume, and surface.
		Studio Art II	Students demonstrate mastery through any three-dimensional
		Honors	approach, such as figurative or nonfigurative sculpture,
		Additional	architectural models, metal work, ceramics, glass work,

		technical, and critical thinking skills can support student success in the AP studio course are recommended	3D works will be created to be submitted in digital format to the College Board. Summer work will be required for the AP 3-D student. During the school year, thirty-eight digital images will be taken of the student's work: ten images of five sculptures that demonstrate a firm grasp of the 3-D Principles of Design under the "quality" section of the portfolio, ten digital images of two viewpoints each, for the "concentration" section of the portfolio, and lastly sixteen digital images of which are close up views and varying viewpoints of eight additional works of art for the "breadth" section of the portfolio. Students will submit digital images to the College Board in early May. Colleges and universities often award placement and course credit to students who obtain high ratings for their submitted art portfolios. Purchase of hard covered 9x12 sketchbook with a minimum of 50 pages required.
AP STUDIO ART: DRAWING	YEAR	10 <sup>th</sup> -12 <sup>th</sup> Drawing and Drawing Honors with teacher approval. Additional studio art courses that address conceptual, technical, and critical thinking skills can support student success in the AP studio course are recommended.	AP STUDIO ART: DRAWING students develop a portfolio and skills for the AP Studio Art Drawing exam. Through direct teacher instruction, emphasis will be placed on the production of a volume of quality pieces of artwork. Students will address all three sections of the portfolio: Breadth, Concentration, and Quality. Students will be challenged to develop their own personal work. Students will develop and demonstrate mastery of concept, composition, and execution of their personal ideas and themes in drawing. Students will also understand that art making is an ongoing process that uses informed and critical decision making to determine outcomes to problems. Students will be expected to develop a comprehensive portfolio, journal, and ongoing sketchbook. They will also be expected to complete homework and all other images worked on outside of school that address each of these issues in a personal way. Formulaic solutions to problems are discouraged. Preliminary sketches, stories, thoughts, journaling, reflecting statements as well as applying Harvard Project Zero Visible Thinking Routines to help in growing a deeper understanding and skill sets in the process of making art. Students will be drawing in pencil, charcoal, pastel (both oil and soft), pen and ink, and brush with watercolor washes. Each of the 3 components Breadth, Quality and Concentration will consist of 12 works of art each; five of which will be singled out and therefore submitted as original quality pieces for submission to the College Board at the end of the course along with slides of all 24 works. Works of art will showcase the student's growth, understanding of Elements of Art, Principles of Design, technique, mastery of various mediums and strong, dynamic compositional ability. This is a highly demanding course and only for a student who

ARCHITECTURAL DESIGN HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup>	has a passion to draw. Colleges and universities often award placement and course credit to students who obtain high scores on their AP examinations. Purchase of hard covered 9x12 sketchbook with a minimum of 50 pages required.  ARCHITECTURAL DESIGN HONORS is an introductory course which focuses on the process of design as it applies to spaces we inhabit. Students build an acute awareness of core principles; scale, proportion, light, circulation, and progression, as a means to create visual harmony. Functional, utilitarian, economic and safety requirements of interior spaces in an architectural framework are examined and students develop a process book of designs, materials, and ideas. Through exercises and a final project, students learn to apply the basic principles of visual design to interiors, and to better understand how form and function can be translated into practical designs for livable interior spaces. Purchase of an 8x11 or 11x14 sketchbook is required.
DANCE ARTS			
DANCE TECHNIQUES I	SEM or YEAR	9 <sup>th</sup> -12 <sup>th</sup>	DANCE TECHNIQUES I is a beginner level class which teaches foundational skills in two or more dance styles (e.g., ballet, jazz, tap, modern, contemporary, etc.). This course is designed for those having little to no prior dance experience. Their development of fundamental dance technique is enriched through learning dance vocabulary/ terminology, practicing skills, rehearsing, and performing. This course may require participation in extra rehearsals and performances. <i>Purchase of dance attire is required</i> .
DANCE TECHNIQUES II	SEM or YEAR	9 <sup>th</sup> -12 <sup>th</sup> Some prior dance experience is required, as this an intermediate dance class	DANCE TECHNIQUES II this course builds on previously acquired knowledge and fundamental technical skills in two or more dance forms (e.g., ballet, jazz, tap, modern, contemporary, etc.). The focus is to develop the aesthetic quality of movement in the ensemble and as an individual. This course may require participation in extra rehearsals and performances. Purchase of dance attire is required.
HONORS III	SEM or YEAR	9th-12th At least two years prior dance training and mastered the basics in two or more dance forms (e.g., ballet, jazz, tap, modern,	DANCE TECHNIQUES III HONORS is an intermediate to advanced level course which builds technical and creative skills with a focus on developing the aesthetic quality of movement in the ensemble and as an individual. This course may require participation in extra rehearsals and performances. Purchase of dance attire is required.

DANCE TECHNIQUES IV HONORS	SEM or YEAR	contemporary, etc.) and Dance Director's approval 9 <sup>th</sup> -12 <sup>th</sup> At least three years prior dance training and Dance Director's	DANCE TECHNIQUES IV HONORS is an advanced level course which builds on skills learned in previous dance classes to improve a student's performance in two or more dance styles (e.g., ballet, jazz, tap, modern, contemporary, etc.). Students perform sequences of increasing complexity to advance their technical skills. This course requires participation in extra
		approval	rehearsals and performances. Purchase of dance attire is required.
INSTRUMENTAL			
ARTS			
BAND I – INTRODUCTION TO BAND	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	BAND I – INTRODUCTION TO BAND is an introductory band course for students interested in learning how to play woodwind or brass band instruments. No experience is necessary. Students learn fundamental brass or woodwind instrumental skills. Students also study basic musical notation and its practical application. All rehearsals and performances are mandatory (unless excused by Director). Private study is strongly encouraged. <i>Purchase of concert attire is required</i> .
BAND V –SYMPHONIC BAND HONORS	YEAR	9 <sup>th</sup> -12 <sup>th</sup> At least three years of previous brass or woodwind instrumental instruction	BAND V – SYMPHONIC BAND HONORS teaches modern wind band instrumentation. Instruction is provided in common-practice period, twentieth century wind literature, and transcriptions. Students learn how to produce a proper sound and technique and to apply it to performances. Players are drawn from this class for solo and chamber music performances. The symphonic band performs at concerts each year. The ensemble will rehearse outside of school hours as needed. All rehearsals and performances are mandatory (unless excused by Director). Private study is strongly encouraged. <i>Purchase of concert attire is required</i> .
INSTRUMENTAL TECHNIQUES IV HONORS	SEM or YEAR	9 <sup>th</sup> -12 <sup>th</sup>	INSTRUMENTAL TECHNIQUES IV HONORS focuses on the development of musical and technical skills on a specific instrument through etudes, scales, and selected music literature. Through problem-solving, critical thinking, and reflection, students develop the physical and cognitive skills to be more disciplined performers. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. This course may also require students to obtain a musical instrument (e.g., borrow, rent, purchase) from an outside source.

	1	T	
INSTRUMENTAL ENSEMBLE I (DRUMMING)	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	interested in learning how to play drum set, perform in a drumline, as well as learn other percussion instruments.  Students learn the basics of stick/mallet grip and rhythmic coordination. Students will also learn to read music. This class is open for all interested students, regardless of previous musical experience and there are no prerequisites.
JAZZ ENSEMBLE HONORS	YEAR	9 <sup>th</sup> -12 <sup>th</sup> Director approval	JAZZ ENSEMBLE HONORS teaches modern jazz ensemble instrumentation (and, as needed, other instrumentation) and provides instruction in the basic elements of jazz including improvisation, rhythm, articulation, and many different styles including swing, Latin jazz, and rock. The jazz ensemble meets every school day and performs frequently for the school and community. This ensemble will perform at all home football games. The ensemble will rehearse outside of school hours as needed. All rehearsals and performances are mandatory (unless excused by director). Private study is strongly encouraged. Purchase of concert attire is required.
ORCHESTRA I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	ORCHESTRA I – THE KING'S STRINGS I is a beginning-level ensemble class. The typical student player's experience will range from none to one year. The focus for this class is on beginning set up of fundamental technique and mechanics, reading music, playing together, and following a group leader. Repertoire includes basic exercises, folk songs, scales, and early classics. The semester culminates in a music department concert. Students in the seventh and eighth grades do not receive high school credit for this course. Purchase of concert attire is required.
ORCHESTRA II	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	orchestra II – The KING'S STRINGS II is an intermediate strings course. The typical player will have two to four years playing experience. The focus for this class is on learning harmonic and rhythmically separate parts, playing together as an ensemble, following a conductor, learning musical styles and musicality. Repertoire will cover beginning string original compositions as well as arrangements of folk, Broadway, Hollywood, and standard Classical literature. The semester culminates in a music department concert. Students in the seventh and eighth grades do not receive high school credit for this course. Purchase of concert attire is required.
ORCHESTRA III	YEAR	9-12 <sup>th</sup>	ORCHESTRA III is an advanced strings course. The typical player will have four years playing experience and play at an upper intermediate/advanced level. The focus for this class is on learning harmonic and rhythmically separate parts, playing together as an ensemble, following a conductor, learning musical styles and musicality. Repertoire will cover intermediate/advanced original compositions as well as arrangements of folk, Broadway, Hollywood and standard

ORCHESTRA IV HONORS	YEAR	9 <sup>th</sup> -12 <sup>th</sup> Audition	Classical literature. The semester culminates in a music department concert. Students in the seventh and eighth grades do not receive high school credit for this course.  Purchase of concert attire is required.  ORCHESTRA IV – STRINGS INSTRUMENTAL HONORS – THE KING'S PHILHARMONIA is our most advanced strings course.
nonono		and Director approval	Players are drawn from this class for solo and chamber music performances. The ensemble performs at school events and concerts throughout the year. The ensemble will rehearse outside of school hours as needed. All rehearsals and performances are mandatory (unless excused by Director). Private study is strongly encouraged. <i>Purchase of concert attire is required</i> .
PIANO I	SEM or YEAR	9 <sup>th</sup> -12 <sup>th</sup>	PIANO I is an entry-level class that focuses on the development of musical and technical skills on the piano through etudes, scales, and selected music literature. Through problem-solving, critical thinking, and reflection, students develop the physical and cognitive skills to be more disciplined performers. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. This course may also require students to obtain a musical instrument (e.g., borrow, rent, purchase) from an outside source.
PIANO II	SEM or YEAR	9 <sup>th</sup> -12 <sup>th</sup> Instructor approval	PIANO II continues to develop musical and technical skills on the piano through developmentally appropriate solo literature, etudes, scales, and exercises. Through problemsolving, critical thinking, and reflection, students develop the physical and cognitive skills necessary to be more disciplined performers. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. This course may also require students to obtain a musical instrument (e.g., borrow, rent, purchase) from an outside source.
PIANO III	SEM or YEAR	9 <sup>th</sup> -12 <sup>th</sup> Instructor approval	PIANO III allows students to refine their musicianship and performance skills on the piano. Students prepare for post-secondary and community music experiences and develop artistry independently through a variety of advanced solos, etudes, and excerpts. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. This course may also require

PIANO IV HONORS	SEM or YEAR	9 <sup>th</sup> -12 <sup>th</sup> Instructor approval	students to obtain a musical instrument (e.g., borrow, rent, purchase) from an outside source.  PIANO IV HONORS allows students to refine their musicianship and performance skills on the piano. Students prepare for post-secondary and community music experiences and develop artistry independently through a variety of advanced solos, etudes, and excerpts. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. This course may also require students to obtain a musical
			instrument (e.g., borrow, rent, purchase) from an outside source.
VOCAL ARTS			
VOCAL ENSEMBLE IV HONORS	YEAR	9 <sup>th</sup> -12 <sup>th</sup> Audition	vocal ensemble IV Honors – HIS PEOPLE performs a high level of music and competes regularly around the state of Florida. It is designed to provide interested students with opportunities to develop their vocal skills. This ensemble meets during the school day and includes some evening rehearsal obligations. A vocal class is offered as an independent study course for ensemble members who are interested in improving their vocal technique. The teacher will conduct and explain certain techniques as they are needed. All high school ensembles have a minimum of three formal public concerts per school year. Purchase of concert attire is required.
VOCAL TECHNIQUES III HONORS	SEM	12 <sup>th</sup> Instructor approval	VOCAL TECHNIQUES III HONORS is a practical course which helps the student investigate, select, and prepare audition material appropriate to the individual and the college audition call. The course includes exercises in handling monologues, scene work, and songs as well as helps in learning to look at auditions from the college perspective.
HONORS	SEM	9 <sup>th</sup> -12 <sup>th</sup>	VOCAL TECHNIQUES IV HONORS helps students refine their musicianship and performance skills on a specified voice.  Students prepare for post-secondary and community music experiences and develop artistry independently through a variety of advanced solos, etudes, and excerpts. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. There will be a jury exam at the end of the semester assessing knowledge and technique.

MUSIC THEORY HONORS	SEM	9 <sup>th</sup> -12 <sup>th</sup>	MUSIC THEORY HONORS teaches how music is constructed and developed. Students acquire a basic understanding of the structural, technical, and historical elements of music. Student theorists develop basic ear-training, keyboard, and functional singing skills, and engage in the creative process through individual and collaborative projects. Public performances may serve as a resource for specific instructional goals. Students may be required to attend one or more performances outside the school day to support, extend, and assess learning in the classroom.
MUSIC THEORY AP	YEAR	9 <sup>th</sup> -12 <sup>th</sup> Strongly recommend student have acquired at least basic performance skills in voice or on an instrument	MUSIC THEORY AP is a full year course open to students in ninth through twelfth grade that parallels a first-year college music theory course. It is designed for a highly motivated student and will require daily work outside of class time in order to fully comprehend the materials presented. The AP Music Theory course is intended to develop a student's ability to recognize, understand, and describe the basic materials and processes of music that are heard or presented in a score. It will develop students' basic musicianship through the study of melody, harmony, texture, rhythm, form, and analysis. The culmination of this course is the AP Music Theory Exam at the end of the school year. College credit may be earned for passing the AP exam at the end of the year.
THEATRE/MUSICAL THEATRE ARTS			
BEGINNING ACTING	SEM	9 <sup>TH</sup> -12 <sup>TH</sup>	BEGINNING ACTING is a foundational acting class. Through improvisation, simple scripted scenes, performance projects, and/or practical application, students learn to identify what makes performances believable and explore the tools used to create, articulate, and execute them. Upon completion of this course, students have a strong foundation for future scene work, script analysis, and play production. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.
ADVANCED ACTING	SEM	10 <sup>th</sup> -12 <sup>th</sup> Beginning Acting and Instructor approval	ADVANCED ACTING HONORS is the most advanced acting class where students create characters for theatrical and film/video productions through scene, character, and technical analysis. Through improvisation, script writing, and aesthetic creation and collaboration, actors refine their working knowledge and independent thought, articulating and justifying their creative choices. Students' "critical eye" becomes more developed and significant mastery of artistic choices becomes evident. An inquiry-based capstone project may be required. Public performances may serve as a

MUSICAL THEATRE STUDIO HONORS	SEM	9-12 <sup>th</sup>	culmination of specific instructional goals. Students may be required to participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.  MUSICAL THEATRE STUDIO HONORS is designed for students who have a dynamic interest in the pursuit of a career in musical theatre. This class will provide students the opportunity to build upon their personal repertoire and perform weekly in front of the entire class. Students enrolled in this class are strongly encouraged to pursue private voice lessons from one of TKA's many Artists in Residence private voice instructors. This class will seek to produce exceptional musical theatre artists and will challenge the student both as an actor and as a musician.
TECHNICAL THEATRE DESIGN & PRODUCTION I	SEM	9 <sup>th</sup> -12 <sup>th</sup>	TECHNICAL THEATRE DESIGN AND PRODUCTION I teaches the basics of live sound, lighting, scenic design, and construction. Students work with the Technical Director to prepare for all the productions of The Kings Academy and its theater company.
TECHNICAL THEATREDESIGN & PRODUCTION II	SEM	9 <sup>th</sup> -12 <sup>th</sup> Technical Theatre – Design and Production I	TECHNICAL THEATRE DESIGN & PRODUCTION II teaches the basics of live sound, lighting, scenic design, and construction. Students work with the Technical Director to prepare for all the productions of The Kings Academy and its theater company.
TECHNICAL THEATREDESIGN & PRODUCTION IV Honors	SEM	10 <sup>th</sup> -12 <sup>th</sup> Technical Theatre – Design and Production I and II	TECHNICAL THEATRE DESIGN & PRODUCTION IV Honors is designed to bring the student into the world of technical theatre through lectures, hands on projects, and backstage experiences. The student will gain knowledge of the stage equipment and safety rules that are essential and mandatory. The production experience, by means of being a member of a backstage crew, is a wonderful opportunity for the nontechnical students to gain valuable insight into the commitment and dedication required to support the actors on stage. This course is for advanced students in technical theatre. This course will weigh heavily on students' leadership in technical theatre and will introduce complex design elements.
DIGITAL MEDIA ARTS			
DIGITAL PHOTOGRAPHY I	SEM	9 <sup>th</sup> -12 <sup>th</sup>	DIGITAL PHOTOGRAPHY I is designed to equip students with the education and full understanding of every element it takes to capture and document moments through a camera lens. Students will take the knowledge gained and use it to enhance their college education and personal business. Students will gain a full understanding of equipment, lighting, and branding aspects to help them in every step of their photography career

	1		T .,
DIGITAL PHOTOGRAPHY II	SEM	9 <sup>th</sup> -12 <sup>th</sup> Digital	and/or college education. In this course, students will work with multiple cameras and lenses. Throughout the duration of this course, students will learn things such as, but not limited to the functionality of a camera, lighting, editing, and posing. Students will be encouraged to express themselves through their work and evoke emotion in their photos.  DIGITAL PHOTOGRAPHY II is designed to allow students to dive deeper into the fundamentals of a camera and all the
		Photography I	functions of a body and a lens. Students will learn other aspects and modes of photography, such as film. This includes types and styles of film, metering, and developing photos.  Students will produce high quality work and obtain an organized portfolio.
ADVANCED CREATIVE PRODUCTION	SEM	9 <sup>th</sup> -12 <sup>th</sup> Any one of these: Digital Photography II, Film II, TV Production II Honors, or Game Design II	ADVANCED CREATIVE PRODUCTION is a digital arts class with an emphasis on cross-platform production, problem solving, and fluency in a wide array of creative production tools. Students will use a variety of creative production applications (After Effects, Premiere Pro, Photoshop, Unreal Engine, GarageBand, Canva, Blender, others) as well as physical production tools (cameras, microphones, green screen, LED virtual volumes, pencil, and paper). Students will be challenged to create cohesive works of art that transcend the limits of a single discipline, culminating in a final independently directed project incorporating at least three different disciplines
FILM I	SEM	9 <sup>th</sup> -12 <sup>th</sup>	<b>FILM I</b> will provide students with a survey of all the aspects of film production: writing, filming, editing, lighting, and sound recording. The goal is to mold a student who understands the fundamentals of film production and is excited to dive into the art form. The goal of this class is to stir in students a creative appetite. Students will produce several short videos, including stop-motion, documentaries, "how to" tutorials, vlogs, and a short film.
FILM II	SEM	9 <sup>th</sup> -12 <sup>th</sup> Film 1, TV Production, Social Media Marketing, or Sports Broadcasting	FILM II will advance students' understanding of the art of storytelling and filmmaking through screenwriting and lighting workshops. Students will go from being film enthusiasts to artists. They will produce top-quality scripts and cinematic pictures to artfully tell their stories. Students will produce two short film scripts, two "experimental" cinematography pieces, and one short film. Film II students will also be required to crew the major film production facilitated by the Film III class.
FILM III HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup> Film I & Film II By invitation only	FILM III HONORS students will create one high-quality, twenty-minute short film which rivals the quality of college productions. The film's magnitude will stretch the students' skills in screenwriting, cinematography, directing, and editing. Each student will hold an "above-the-line" position on this production (co-director, director of photography, producer,

			line producer editor etc.) They will write and east the film as
			line producer, editor, etc.). They will write and cast the film, as
			well as assign Film II students to their crew positions (camera
51141 511561155 5161541	6514	4 Oth 4 Oth	operator, sound operator, boomer, gaffer, etc.)
DUAL ENROLLED DIGITAL	SEM	10 <sup>th</sup> -12 <sup>th</sup>	DE DIGITAL VIDEO PRODUCTION will advance students'
VIDEO PRODUCTION		Film I & Film II	understanding of the art of storytelling and filmmaking
		By invitation	through screenwriting and lighting workshops. Students will
		only	go from being film enthusiasts to artists, both of the pen and
			the screen. They will produce top-quality scripts and cinematic
			pictures to artfully tell their stories. Students will create three
			high-quality, ten-minute short films which rival the quality of
			professional productions. Students will additionally produce a
			micro-documentary to apply their understanding of ethics and
			narrative production to non-fiction video journalism.
TV PRODUCTION I	SEM	10 <sup>th</sup> -12 <sup>th</sup>	TV PRODUCTION I allows students to work with their
TV PRODUCTION I	SEIVI		
		Film I	classmates to produce a narrative, episodic web series to
			feature on TKA's YouTube channel. Students will write,
			produce, and edit the series and study the television
			production process from start to finish. Students are also
			allocated a budget to purchase props, equipment, and pay for
			actors and locations off-campus.
TV PRODUCTION II	SEM	10 <sup>th</sup> -12 <sup>th</sup>	TV PRODUCTION II HONORS builds on the previous class as
HONORS		TV	students continue to work with their classmates to produce a

			and publication by studying analytics to produce viral, fun content in the form of pictures and videos. Videos produced in this class will be featured on TKA's YouTube channel, which boasts over 100K subscribers.
GAME DESIGN	SEM	9 <sup>th</sup> -12 <sup>th</sup>	GAME DESIGN will enable students to learn how to design 2D and 3D games using industry-standard software, Unreal Engine. This is a project-based course that will require a high amount of personal commitment and vision from the student.
WEB DESIGN	SEM	9 <sup>th</sup> -12 <sup>th</sup>	WEB DESIGN is an introduction to the design, creation, and maintenance of web pages and websites. Students learn how to critically assess website quality, create (and maintain) quality web pages, evaluate web design standards and create/manipulate website graphics. Students will learn the languages HTML and CSS and will create their own live homepages to serve as a personal portfolio. By the end of this course, students will be able to explain how web pages are developed and viewed on the Internet, analyze and fix errors in existing websites, and create their very own multipage websites.

### **INTERNATIONAL STUDENT PROGRAM**

Course Name	Term	Grade/	Course Description
		Prerequisite	
		,	Requirements:
			The King's Academy has an active International Student Program. Our goal is
			to acclimate our International Students quickly and ensure they obtain the
			tools necessary to be successful. We require all incoming students in our
			International Student Exchange Program to take Worldview Studies – ESL and
			Gospel Studies - ESL, English I – ESL and Intensive Language Arts for
			International Students. International students may also be required, and are
			certainly strongly encouraged, to take Writing I and/or Writing II so they can
			be successful with written English in higher education.
WORLDVIEW	SEM	9 <sup>th</sup> -12 <sup>th</sup>	WORLDVIEW STUDIES – ESL BIBLE is a required Bible course for all first-year
STUDIES – ESL		First year HS	international students in ninth through twelfth grade. This class will focus on
BIBLE		international	inviting students to gain an understanding of what they believe and why they
		students	believe it. Students will examine major worldviews as they relate to the biggest
			questions of life. In addition to the other major world views, the Christ-
			centered theistic worldview will be examined to allow each student to
			evaluate what it means to hold the Christian world view. Students will study
			the defining qualities of faith, truth, and reality, and the claim of the Bible as
			God's collected book of inerrant revelation. Ultimately, this course will provide
			very clear lines of distinction that are present in the major worldviews as it
			relates to faith. This class has been specifically designed for international
			students as a bridge to prepare them to enter mainstream Bible classes in
		oth 10th	future years.
GOSPEL	SEM	9 <sup>th</sup> -12 <sup>th</sup>	GOSPEL STUDIES - ESL BIBLE builds on the foundation set in the Worldview
STUDIES – ESL		Second year	Studies class and picks up where Worldview Studies left off. Students will gain
BIBLE		HS	an understanding of who Jesus is historically and scripturally, and why His life
		international students	has had so much impact and is relevant to our lives today. Students will
		students	thoroughly examine Jesus from many different perspectives and be able to clearly understand why Jesus is the most inescapable figure in human history.
			This class has been specifically designed to help international students
			complete the transition into mainstream Bible classes at The King's Academy.
ENGLISH I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	ENGLISH I THROUGH ESL is required for first year International Students
THROUGH ESL		First year HS	(unless the student is taking Writing I – ESL or Writing II – ESL) and is designed
		international	to give students the opportunity to improve fluency in comprehension,
		students	conversation, and written skills to communicate information, ideas. In this
			course, students learn writing skills as they learn to complete research, build
			vocabulary and grammar while strengthening reading comprehension.
			Students are led through the writing process with engaging writing
			assignments that focus on various rhetorical modes. This class fulfills the
			student's English requirement for the year.
ENGLISH II	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	ENLGISH II THROUGH ESL is an English course for our second year
THROUGH ESL		Second year	International Students, regardless of grade level, who have not tested out of
		HS	ESL I after their first year. Students are expected to summarize information

		international	from reading, as well as using background knowledge and personal experience
		students	to answer questions on related topics. Students work on creating, expanding,
			and accurately utilizing their vocabulary through context-based controlled
			practice exercises. Higher level speaking and writing are taught, and students
			learn to construct effective argument in speaking and writing, using personal
			experience and background information to define their own position on the
			subject, considering different viewpoints, formulating a thesis, choosing
			appropriate support, analyzing evidence to support the thesis, and considering
			the audience's needs. In addition, students will grow in literature
			analysis. Intermediate level grammar is reviewed. This class fulfills the
			student's English requirement for the year.
INTENSIVE	SEM	9 <sup>th</sup> -12 <sup>th</sup>	WRITING I FOR ISP STUDENTS enables international students to develop and
WRITING	or		use grade level writing and language skills in a variety of writing formats for a
FOR ISP	YEAR		ensure preparation for college and career readiness and more specifically
STUDENTS			readiness for mainstream English courses. This course is beneficial for any
			international student wanting to strengthen writing and grammar skills while
			using the writing that is assigned in English class. Argumentative, informative,
			and narrative purposes to ensure preparation for college and career readiness
			and more specifically readiness for mainstream English courses. This course is
			beneficial for any international student wanting to strengthen writing and
			grammar skills while using the writing that is assigned in English class.

## **MATHEMATICS COURSE SEQUENCE**

### **MATHEMATICS**

Course Name	Term	Grade/	Course Description
		Prerequisite	Para Comments
			Requirements:  All students must complete a full year of mathematics each year they attend The King's Academy. Algebra I or Algebra I Honors, Geometry or Geometry Honors, and Algebra II or Algebra II Honors are required prerequisites for all other mathematics classes. Mathematics courses are a full year except Dual Enrolled College Algebra and Dual Enrolled Trigonometry.
ALGEBRA I	YEAR	9 <sup>th</sup>	algebra I is the "gateway to learning" and is the foundation for all other upper-level math courses. Algebra I is a year-long course that covers the language of algebra and all algebra properties (to include the associative, commutative, and distributive properties), real numbers, solving linear equations, graphing relations and functions, solving linear inequalities, solving systems of equations and systems of inequalities, polynomials, factoring, quadratic equations and functions, radical expressions, the Pythagorean Theorem, rational expressions and equations and, an introduction to trigonometric operations. The prerequisite for this class is pre- algebra and is open to students in grades seventh through ninth.
ALGEBRA I HONORS	YEAR	9 <sup>th</sup>	algebra I Honors is the more advanced Algebra I course and builds on mathematics topics with vocabulary, skills, applications, and real-life mathematical situations where students develop critical thinking skills and problem-solving techniques. This course is designed for those students who have a strong algebraic base. Its advanced pacing is intended for students who want to follow the honors curriculum in mathematics.
GEOMETRY	YEAR	9 <sup>th</sup> -10 <sup>th</sup> Algebra I	GEOMETRY is designed to provide a strong mathematics foundation to help students develop content and problem-solving skills needed for success in college, careers, and daily life. Geometry uses logical reasoning, measurement, and geometric construction to investigate the special relationships of lines, angles, triangles, circles, and polygons. The student gains an understanding of congruence and similarities of triangles, area, volume, geometric proofs, the Pythagorean Theorem, and the basics of trigonometry. Students are expected to have developed most of the skills and understood most of the concepts covered in prior courses, Concepts are introduced using a balance of abstract and concrete approaches. New ideas are often developed through student investigation with moderate guidance from the teacher. Students are expected to solve routine problems independently and solve open-ended and non-routine problems with teacher support.
GEOMETRY	YEAR	9 <sup>th</sup> -10 <sup>th</sup>	GEOMETRY HONORS is a more advanced Geometry course particularly
HONORS		Algebra I	geared toward students with high competency in mathematics and an

			toronomic and the state of the
ALGEBRA II	YEAR	9 <sup>th</sup> -11 <sup>th</sup> Algebra I	interest in pursuing advanced mathematics courses later in high school. Honors Geometry uses logical reasoning, measurement, and geometric construction to investigate the special relationships of lines, angles, triangles, circles, and polygons. Through these investigations the student gains an understanding of congruence and similarities of triangles, area, volume, the Pythagorean Theorem, geometric proofs, and the basics of trigonometry. The Honors course is taught at a deeper level of reasoning and conceptual understanding and requires a complete working knowledge of Pre-Algebra and Algebra I. Problems solved in classroom, homework, and on tests are challenging and require students to apply their knowledge to new situations.  ALGEBRA II is designed to build upon concepts taught in Geometry and Algebra I. Advanced topics covered include linear equations, inequalities, functions, linear systems, matrices, quadratic equations and functions, polynomials, radicals, exponential and logarithmic
			functions, rational functions, and conic sections. Algebra II or Algebra II
			Honors and Geometry or Geometry Honors may be taken concurrently.
ALGEBRA II	YEAR	9 <sup>th</sup> -11 <sup>th</sup>	ALGEBRA II HONORS is the yearlong more advanced course that expands
HONORS		Algebra I	on the topics of Algebra I and provides further development of the
			concept of a function. Topics include linear equations, inequalities,
			functions, linear systems, matrices, quadratic equations and functions,
			polynomials, radicals, exponential and logarithmic functions, rational
			functions, and conic sections. This course enriches the same material as
			Algebra II with more emphasis on theory, a higher degree of difficulty in
			problem solving, and independent study. Additional topics such as
			progressions, series, probability, and basic trigonometry are also
			included. Algebra II or Algebra II Honors and Geometry or Geometry
			Honors may be taken concurrently. After completing Algebra 1,
NAATU EOD	\/F A D	4 Oth 4 Oth	Geometry and Algebra II, students are encouraged to take the SAT/ACT.
MATH FOR	YEAR	10 <sup>th</sup> -12 <sup>th</sup>	MATH FOR COLLEGE ALGEBRA will emphasize five areas: (1)
COLLEGE		Geometry or	developing fluency with the Laws of Exponents with numerical and
ALGEBRA		Geometry Honors	algebraic expressions; (2) extending arithmetic operations with
		and	algebraic expressions to include rational and polynomial expressions;
		Algebra II or	(3) solving one-variable exponential, logarithmic, radical and rational
		Algebra II Honors	equations and interpreting the viability of solutions in real-world
			contexts; (4) modeling with and applying linear, quadratic, absolute
			value, exponential, logarithmic and piecewise functions and systems
			of linear equations and inequalities; (5) extending knowledge of
			functions to include inverse and composition.
PROBABILITY &	YEAR	11 <sup>th</sup> -12 <sup>Th</sup>	PROBABILITY & STATISTICS introduces students to statistics beginning
STATISTICS		Geometry or	with basic concepts and covering a wide range of essential topics.
		Geometry Honors	Topics covered include displaying data, measures of central tendency,
		and	regression lines, correlation, analyzing and interpreting patterns and
		Algebra II or	deviations from patterns in data, experimental design, and related
		Algebra II Honors	sampling methods, drawing inferences from data, and learning to test
			statistical hypotheses by applying these methods in scientific and
			business scenarios.
L	l	1	1

	DNODC in the automorphism and attacking
STATISTICS Geometry or course that introduces student	DNORS is the more advanced statistics to statistics beginning with basic range of essential topics. Topics covered
	res of central tendency, regression lines,
	rpreting patterns and deviations from
	design, and related sampling methods,
drawing inferences from data,	• •
	methods in scientific and business
	at a faster pace and is taught at a deeper

higher in Algebra theory, and a higher factor of c	difficulty in problem-solving.
II Honors	
AP YEAR 10 <sup>th</sup> -12 <sup>th</sup> AP PRECALCULUS is designed t	to be the equivalent of a first semester
	e course provides students with an
, , , , , , , , , , , , , , , , , , , ,	of college level algebra, trigonometry,
	tion types that prepare students for
·	polynomial, rational, exponential,
	lar, parametric, vector-valued, implicitly
	mations involving matrices. Students
	related to each function type through
	lytical, and verbal representations.
	vel of conceptual analysis and problem-
solving skills. The objective of t	this AP course is to prepare students for

			the AP examination and the higher level of conceptual analysis, and problem-solving skills needed for the exam
AP CALCULUS AB	YEAR	11th-12th Precalculus Honors, AP Precalculus, or DE College Alg./Trig. Recommended: Grade of 80% or higher in AP Precalculus or 85% or higher in Precalculus Honors or 95% or higher in DE College Alg./Trig.	AP CALCULUS AB includes work with exponential, trigonometric and rational functions, calculation of, and application of the derivative in terms of a rate of change of functions and local linear approximation, calculation, and application of the definite integral as both a limit of Riemann sums and net accumulation of change, and modeling of a written description of a physical situation with a function, differential equation, or integral. Students are required to present answers verbally, analytically, and graphically. The objective of this AP course is to prepare students for the AP examination.
AP CALCULUS BC	YEAR	11 <sup>th</sup> -12 <sup>th</sup> AP Calculus AB Recommended: Grade of 80% or higher in AP Calculus AB	AP CALCULUS BC is a stringent higher-level calculus course. Based on the College Board's AP Calculus BC curriculum, the course's purpose is "developing understanding of the concepts of calculus and providing experience with its methods and applications." The course emphasizes that most calculus concepts and problems can be viewed or represented in several different ways, including graphically, numerically, algebraically, and verbally. One of the Advanced Placement goals is for students to communicate mathematics in both a written and oral format. Students should be able to explain solutions to problems and are frequently asked to write detailed, fully justified problem solutions. Also, some class time is devoted to group problem solving and providing opportunities to talk about mathematics. The objective of this AP course is to prepare students for the AP examination.
DE COLLEGE ALGEBRA	SEM	10 <sup>th</sup> -12 <sup>th</sup> Geometry or Geometry Honors, and a B or higher in Algebra II or Algebra II Honors. 10 <sup>th</sup> & 12 <sup>th</sup> grade students with a minimum unweighted 3.0 GPA are eligible to enroll into DE classes	DE COLLEGE ALGEBRA is typically taken the first semester of senior year with the second semester of senior year filled with Trigonometry/Analytic Geometry DE. College Algebra is a general requirement for incoming college freshman at most institutions. This course covers linear functions, quadratic functions, rational functions, composition of functions, inverse functions, as well as exponential and logarithmic functions. Dual Enrollment (DE) courses will remain on the student's permanent college transcript.

DE COLLEGE	SEM	10 <sup>th</sup> -12 <sup>th</sup>	DE COLLEGE TRIGONOMETRY & ANALYTICAL GEOMETRY is typically
TRIGONOMETRY		Geometry or	taken the second semester of senior year, after taking College Algebra
& ANALYTICAL		Geometry	during the first semester. The topics within this course study require a
<b>GEOMETRY</b>		Honors,	strong algebraic background and basic knowledge of geometric
		and a B or higher	concepts. Topics include trigonometric functions, analytic trigonometry,
		in Algebra II or	trigonometric and parametric equations, polar coordinates, vector
		Algebra II	applications, and conic sections (including rotation of axes). Dual
		Honors.	Enrollment (DE) courses will remain on the student's permanent college
		10 <sup>th</sup> & 12 <sup>th</sup> grade	transcript. A non-graphing calculator is required.
		students with a	
		minimum	
		unweighted	
		3.0 GPA are	
		eligible to enroll	
		into DE classes	

## **PHYSICAL EDUCATION**

Course Name	Term	Grade/	Course Description
		Prerequisite	
			Requirements:
			High school students are required to take one semester of PE during high
			school. This requirement can also be fulfilled by taking a TKA dance class,
			or marching band, or participating in and earning a letter in a varsity sport.
PERSONAL	SEM	9 <sup>th</sup> -12 <sup>th</sup>	PERSONAL FITNESS & HEALTH is a required semester class and typically
FITNESS &			taken in 8 <sup>th</sup> -10 <sup>th</sup> grade. The course is designed to provide health related
HEALTH			knowledge that is valuable to each student's "total health": physical,
			mental, social, emotional, and spiritual well-being. Specific areas
			addressed include aerobic/anaerobic activity, health-related and skill-
			related fitness components, heat illnesses, and benefits and/or possible
			health problems related to diet and activity level. The course material
			emphasizes each student's "total health" and how their "total health"
			relates to God (Deuteronomy 6:4), others (Leviticus 19:18), and
			themselves (Psalms 139:14).
TEAM SPORTS	SEM or	9 <sup>th</sup> -12 <sup>th</sup>	<b>TEAM SPORTS</b> is designed to develop the physical skills necessary to be
	YEAR		competent in many forms of movement, knowledge of team sports,
			concepts such as offensive and defensive strategies and tactics, and
			appropriate social behaviors within a team or group setting. The
			integration of fitness concepts throughout the content is critical to the
			success of this course.
SPORTS	SEM or	9 <sup>th</sup> -12 <sup>th</sup>	SPORTS PERFORMANCE I, II & III helps students build upon previously
PERFORMANCE I,	YEAR		mastered techniques as they move from Sports Performance I to II then
II, & III			on to III. These courses help to develop the skills necessary to be
			competent in many forms of movement as it relates to Sports
			Performance. Specific areas emphasized include strength, speed,
			explosive and efficient movement, a strong core, agility, flexibility, and a
			focus on the mental component of fitness. The integration of fitness
			concepts throughout the content is critical to the success of this course.

### THE O'KEEFFE PRE-LAW STUDIES PROGRAM

Course Name	Term	Grade/	Course Description
		Prerequisite	
			O'Keeffe Pre-Law Studies Program of Distinction Overview:
			Students are welcome to take any class within this program for elective
			credit if they meet the prerequisites. The Program of Distinction is
			awarded to students who complete all standard graduation requirements
			with a minimum GPA of 3.0 and complete a combination of 4 courses as
			follows:
			Mandatory Courses:
			Introduction to Law
			Legal Advocacy Skills Honors
			Plus select any 2 of the following elective courses:
			Introduction to Criminal Law Honors or DE
			o Business Law and Ethics Honors or DE (this course also fulfils an elective
			for the Business Program of Distinction)
			Constitutional Law Honors or American Federal Government DE
			Additional Course Offering by Tryout Only - These Do Not Count
			Toward Completion of POD
			Litigation Skills Honors
			State Trial Skills Honors
			Federal Trial Skills Honors
INTRODUCTION	SEM	9 <sup>th</sup> -12 <sup>th</sup>	INTRODUCTION TO LAW is designed as an introductory course to The
TO LAW			O'Keeffe Pre-Law Studies Program. Students will be given an overview of
			types of law, the U.S. court system, the general process of litigation, and
			dispute resolution. Special focus will be placed on the unique history and
			structure of our court system, including the foundational biblical concepts
			for our system of jurisprudence. Careers in law will also be explored.
INTRODUCTION	SEM	10 <sup>th</sup> -12 <sup>th</sup>	INTRODUCTION TO CRIMINAL LAW HONORS students will be introduced
TO CRIMINAL			to the purpose and sources of criminal law. Students will learn about the
LAW HONORS			elements of a crime, the types of crimes, and possible defenses. Criminal
			punishments will be explored, with a special focus on the biblical
			perspective of justice.
DE	SEM	10 <sup>th</sup> -12 <sup>th</sup>	<b>DE INTRODUCTION TO CRIMINAL LAW</b> students will be introduced to the
INTRODUCTION		10 <sup>th</sup> - 12 <sup>th</sup>	purpose and sources of criminal law. Students will learn about the
TO CRIMINAL		grade	elements of a crime, the types of crimes, and possible defenses. Criminal
LAW		students	punishments will be explored, with a special focus on the biblical
		with a	perspective of justice. Dual Enrollment (DE) courses will remain on the
		minimum	student's permanent college transcript.
		unweighted	The state of the s
		3.0 GPA are	
		eligible to	
		enroll into	
		this DE class	
		this DE class	

<b>BUSINESS LAW &amp;</b>	SEM	10 <sup>th</sup> -12 <sup>th</sup>	BUSINESS LAW & ETHICS HONORS OR DE covers biblical concepts of
ETHICS HONORS	JLIVI	(recommend	negotiation, agreement, and business relationships will be presented in
OR DE		for 11 <sup>th</sup> -12 <sup>th</sup>	conjunction with a study on contracts. Students will be introduced to
ONDE		grades)	property law, and will explore concepts in personal, real, and intellectual
		Also fulfils	property. The biblical concept of stewardship will be presented in
		Business	conjunction with the study on property. Tort liability, prevention, and
		Program of	mitigation will be examined. Students will further explore the duties of the
		Distinction	principal/agent and selected topics in employment law. Each topic in the
		elective	
			course will have its own ethical considerations, and a brief overview of the study of ethics will also be included.
CONSTITUTIONAL	CEN4	option 11 <sup>th</sup> -12 <sup>th</sup>	·
CONSTITUTIONAL	SEM	1112	CONSTITUTIONAL LAW HONORS students will examine the history of the
LAW HONORS			U.S. Constitution along with its underlying biblical values and themes.
			Students will explore concepts of separation of powers, branches of
			government, and whether branches are fulfilling intended roles under the
			constitution. Students will learn about key rights provided and how they
		+h . = +h	play out in modern culture by studying U.S. Supreme Court cases.
DE AMERICAN	SEM	11 <sup>th</sup> -12 <sup>th</sup>	<b>DE AMERICAN FEDERAL GOVERNMENT</b> students will examine the history
FEDERAL		11 <sup>th</sup> -12 <sup>th</sup>	of the U.S. Constitution along with its underlying biblical values and
GOVERNMENT		grade	themes. Students will explore concepts of separation of powers, branches
		students	of government, and whether branches are fulfilling intended roles under
		with a	the constitution. Students will learn about key rights provided and how
		minimum	they play out in modern culture by studying U.S. Supreme Court cases. If
		unweighted	the course is taken as a DE (Dual Enrollment) course, it will remain on the
		3.0 GPA are	student's permanent college transcript.
		eligible to	
		enroll into	
CT 4 TC TO 4 4	6514	this DE class	
STATE TRIAL	SEM	9 <sup>th</sup> -12 <sup>th</sup>	STATE TRIAL SKILLS HONORS is intended to help students prepare a court
SKILLS HONORS		Intended for	case on a relevant social issue in its entirety, beginning with elements of
(not offered		students	the case and theme. Students will also learn to argue a pre-trial motion
during the 2024-		selected by	and develop case strategy based on various possible outcomes of the
2025 school year)		tryout for	motion. Objections and appropriate responses will be explored. An
		the Varsity	understanding of the Federal Rules of Evidence (abridged for competition)
		Mock Trial	and general courtroom etiquette will be developed throughout the course.
		Team	The highest level of professionalism will be sought as students represent
			Christ and The King's Academy at national-level competitions. Intentional
			mentorship of junior members by senior members of the team is expected.
			This course does not count toward the completion of the POD and is an
		_ ala al-	extra offering for those on the Varsity Mock Trial team.
FEDERAL TRIAL	SEM	9 <sup>th</sup> -12 <sup>th</sup>	FEDERAL TRIAL SKILLS HONORS is intended to help students prepare a
SKILLS HONORS		Intended for	court case in its entirety, beginning with elements of the case and theme.
(not offered		students	Students will organize scrimmage rounds before local judges and attorneys,
during the 2024-		selected by	seeking feedback for improvement. Objections and appropriate responses
2025 school year)		tryout for	will be explored. An understanding of the Florida Rules of Evidence
		the Varsity	(abridged for competition) and general courtroom etiquette will be
		Mock Trial	developed throughout the course. The highest level of professionalism will
		Team	be sought as students represent Christ and The King's Academy at national-

			level competitions. This course does not count toward the completion of
			the POD and is an extra offering for those on the Varsity Mock Trial team.
LITIGATION	SEM	9 <sup>th</sup> -12 <sup>th</sup>	LITIGATION SKILLS HONORS is intended to help students prepare
SKILLS HONORS		Intended for students selected by tryout for the Varsity Mock Trial Team	arguments, questions, objections, and responses to advance a case theory. Students will select and integrate a case theme in all aspects of proving the case. Emphasis will be placed on how to select the best evidence for a case and enter said evidence to the court. Students will consider stance, body language, tone, volume, inflection, and use of demonstrative aids to present their questions and arguments. The highest level of professionalism will be sought as students represent Christ and The King's Academy at national-level competitions. This course does not count toward the completion of the POD and is an extra offering for those on the Varsity Mock Trial team.
LEGAL	SEM	11 <sup>th</sup> -12 <sup>th</sup>	<b>LEGAL ADVOCACY SKILLS HONORS</b> is the capstone course of The O'Keeffe
<b>ADVOCACY</b>		Intro to Law	Pre-Law Studies Program. Students will examine and practice skills
<b>SKILLS HONORS</b>			necessary to be successful in the legal profession and develop an
			understanding of advocacy using Christ as the ultimate example of an
			advocate. Students will explore legal advocacy in both a trial and appellate
			context as they learn to create a successful case using credible evidence,
			research and brief court cases, and form both written and oral arguments
			for the court. Biblical principles will be explored in conjunction with a study
			on ethics in advocacy.

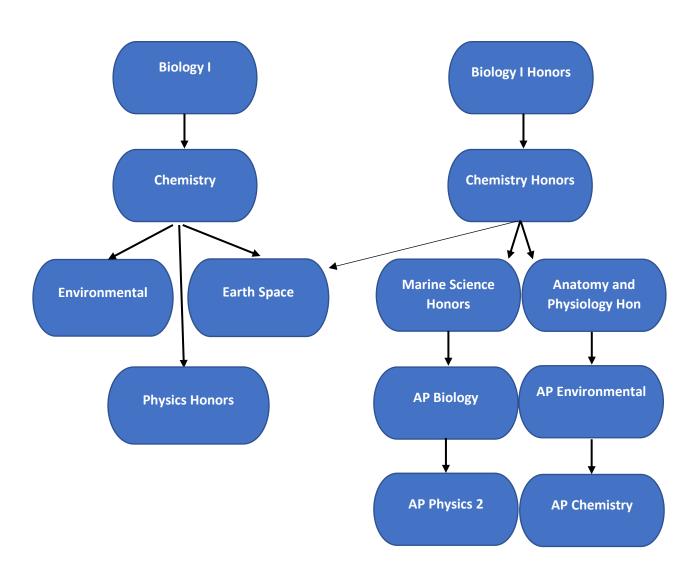

## **PRE-MEDICAL**

Course Name	Term	Grade/	Course Description
		Prerequisite	
		Prerequisite	Pre-Medical Program of Distinction Overview:  Students are welcome to take any class within this program for elective credit if they meet the prerequisites. The Program of Distinction is awarded to students who complete all standard graduation requirements with a minimum GPA of 3.0 and complete the required classes for this program. Students have the choice of concentration in Medical Science or Sports Medicine.  The required classes for these programs are:  Medical Science  Foundations of Medical Science  Medical Terminology Honors or DE  Pathology Honors  Applied Medical Research Honors  Anatomy and Physiology Honors (fulfills 11 <sup>th</sup> or 12 <sup>th</sup> grade Science requirement)  Sports Medicine  First Aid & Safety or Sports Nutrition
			<ul> <li>Care &amp; Prevention of Athletic Injuries</li> <li>Sports Medicine I Honors</li> <li>Sports Medicine II Honors</li> <li>Anatomy and Physiology Honors (fulfills 11<sup>th</sup> or 12<sup>th</sup> grade Science</li> </ul>
			requirement)
FOUNDATIONS OF MEDICAL SCIENCE	SEM	9 <sup>th</sup> -12 <sup>th</sup>	FOUNDATIONS OF MEDICAL SCIENCE is designed to give an overall view of the health sciences and a framework of the healthcare system, while allowing for exploration of the various fundamental roles within the healthcare industry. Students will develop professional characteristics using a hands-on learning approach. This class provides the foundation for understanding the vigorous and exciting dialogue, terminology, technology, and skills each student will need to succeed during their time in the Medical Science program.
MEDICAL TERMINOLOGY HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup> Foundations of Medical Science	<b>MEDICAL TERMINOLOGY HONORS</b> is designed to provide students with the foundation of an extensive glossary of medical terminology. Students will learn necessary tools to interpret the Greek and Latin roots, prefixes, and suffixes most commonly used in medical terminology. Students will be able to appropriately describe the human body's components, processes, and conditions using these terms. These interpretive skills will contribute to the student's foundational knowledge, as they interact with healthcare professionals during classroom experiences.
MEDICAL TERMINOLOGY	SEM	10 <sup>th</sup> -12 <sup>th</sup>	MEDICAL TERMINOLOGY DE will involve a wide-ranging study of medical terms and abbreviations commonly used by healthcare professionals. Students will learn necessary tools to interpret the Greek and Latin roots,

DUAL ENROLLED		Foundations of Medical Science	prefixes, and suffixes most commonly used in medical terminology. Each of the human body's systems will be studied relative to specific terms and pathologies common to each system, as well as additional diagnostic and treatment terminology as student successfully describe the human body's components, processes, and conditions using the acquired terms. This course is designed for students intending to pursue additional study in a professional, undergraduate, or graduate healthcare program or a related field. <i>Dual Enrollment (DE) courses will remain on the student's permanent college transcript</i> .
PATHOLOGY HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup> Foundations of Medical Science and Medical Terms	PATHOLOGY HONORS is designed to prepare the student who desires to pursue a career in the medical field. This content-based class will provide the student with an overview of body systems as well as the epidemiology and pathology of major illnesses, diseases, and disorders that effect these systems. The student will learn lifestyle modifications including health and wellness, nutrition, treatments, and classes of medications commonly used to treat these conditions.
APPLIED MEDICAL RESEARCH HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup> Foundations of Medical Science, Medical Terms, and Pathology	APPLIED MEDICAL RESEARCH HONORS is designed to help each student develop their medical career plan. This class will include discussions in how to navigate legal and ethical responsibilities and diversities in healthcare. Students will decipher mock cases and learn how to break down necessary information from clinical research to see if the results are applicable to their case. The students will hear from expert medical professionals about the joys and struggles of their field and what to expect as the students prepare to embark on their journey to serve the health and wellbeing of others.
ANATOMY & PHYSIOLOGY HONORS	YEAR	11 <sup>th</sup> -12 <sup>th</sup> Biology or Biology Honors and Chemistry or Chemistry Honors	ANATOMY & PHYSIOLOGY HONORS is an upper-level course covering the study of the human body. Students become acquainted with the structure and function of the human body. Clear and concise use of medical terminology is important, and thus a main focus. The students learn directional terms, cells, tissues, organs, and organ systems. This course is designed for the student who is seriously contemplating a career in health care, athletics, and/or science.
FIRST AID & SAFETY	SEM	9-12 <sup>th</sup>	FIRST AID & SAFETY provides an overview of the causes and prevention of unintentional injuries, appropriate emergency responses to those injuries and crisis response planning. Special emphasis is given to current emergency care practices in sports medicine. This course includes patient assessment, cardiopulmonary resuscitation (CPR) and the use of an automatic external defibrillator (AED), airway management, traumatic brain injury, spinal injuries, and environmental injuries.
CARE & PREVENTION OF ATHLETIC INJURIES	SEM	9 <sup>th</sup> -12 <sup>th</sup>	CARE & PREVENTION OF ATHLETIC INJURIES introduces the care and prevention of athletic injuries, including mechanisms of injury, tissue healing, treatment, rehabilitation, and preventive health care.
SPORTS NUTRITION	SEM	9 <sup>th</sup> -12 <sup>th</sup>	<b>SPORTS NUTRITION</b> provides an overview of the nutritional needs of athletes; guidelines on clean eating; updated intake tables and recommendations for sodium, sugar, and vitamin D; and risks and warning signs of overhydration.

			Students access information on supplements, energy drinks, and nutrient timing as well as balancing weight and activity.
SPORTS MEDICINE I HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup> Care & Prevention of Athletic Injuries and either First Aid & Safety or Sports Nutrition	SPORTS MEDICINE I HONORS is designed for students to apply health-related research practices, with special emphasis on sports medicine. This course is the first of a two-course series that will present an evidence-based approach to corrective exercise, the components of a comprehensive solution, and the practical know-how to develop and implement integrated strategies to improve common movement impairments. Students completing this course series will be prepared to take NASM's Corrective Exercise Specialist (CES) credentialing examination.
SPORTS MEDICINE II HONORS	SEM	10 <sup>th</sup> -12 <sup>th</sup> Sports Medicine I Honors	present an evidence-based approach to corrective exercise, the components of a comprehensive solution, and the practical know-how to develop and implement integrated strategies to improve common movement impairments. Students completing this course series will be prepared to take NASM's Corrective Exercise Specialist (CES) credentialing examination.

# **SCIENCE COURSE SEQUENCE**

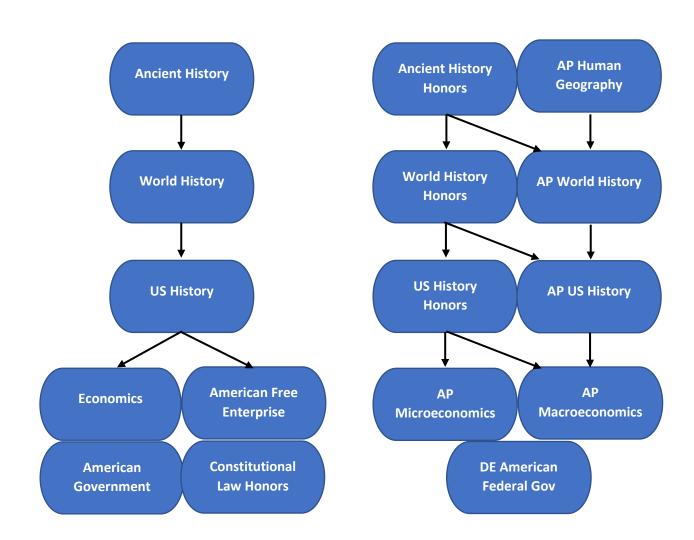

## **SCIENCE**

Course Name	Term	Grade/	Course Description
		Prerequisite	
			Requirements:
			All students are required to take four years of high school level science in
			9 <sup>th</sup> -12 <sup>th</sup> grades, and successfully complete Chemistry or Chemistry Honors
		4h 4h	or AP Chemistry, and Biology or Biology Honors or AP Biology.
BIOLOGY I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	BIOLOGY I studies the wonderfully detailed world around us that God
			created. Biochemistry, cytology, photosynthesis, cellular respiration,
			genetics, the fallacies of evolution, and classification are a few units that
			are explored. The student participates in hands on laboratory activities
			for each unit, including dissections. By studying these areas of biology,
			the student has a greater appreciation for God and His creation.
BIOLOGY I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	BIOLOGY I HONORS is the more advanced biology course. The key
HONORS			concepts and principles of biology are taught and the usage of
			appropriate biological principles and processes for decision-making are
			emphasized. Comprehending the living world and recognizing its
			diversity and unity are topics that are covered. Students work
			cooperatively, solve problems creatively, and think critically. Appropriate
			technology and mathematics in biological endeavors are used, as well as
			participating in discussions and investigations of biological issues that
			affect society.
AP BIOLOGY	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	AP BIOLOGY is the equivalent of a two-semester college introductory
		Biology or	Biology course, usually taken by biology majors during their first year.
		Biology	This course aims to provide students with the conceptual framework,
		Honors	analytical skills, and factual knowledge necessary to deal critically with
		and	the rapidly changing science of biology. Primary emphasis is placed on
		Chemistry or	developing an understanding of concepts rather than on memorizing
		Chemistry	terms and technical details. The objective of this AP course is to prepare
		Honors	students for the AP examination. Colleges and universities often award
			placement and course credit to students who obtain high scores on their
			AP
			examinations.
CHEMISTRY	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	CHEMISTRY is an experimental science concerned primarily with the
			study of matter and the changes that matter undergoes. Within this
			class, students will explore the world around us using science,
			mathematics, religion, and apologetics. Some of the topics covered in the
			course include periodic law, atomic structure, compounds, stoichiometry,
			and gases. This course includes a laboratory component to demonstrate
			the principles addressed during class time.
CHEMISTRY	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	CHEMISTRY HONORS is the more advanced chemistry course
HONORS			recommended for those students who plan to major in science in college
			or who have a strong math and science aptitude. Some of the topics
			covered include atomic structure, stoichiometry, compounds, solutions,

			gases and equilibrium. A laboratory component is incorporated to
			gases, and equilibrium. A laboratory component is incorporated to demonstrate the principles addressed during class time.
AP CHEMISTRY	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	AP CHEMISTRY is designed to be the equivalent of a two-semester
AF CHLIMISTRI	ILAN	Chemistry or	college introductory Chemistry course, usually taken by Chemistry majors
		Chemistry	during their first year. A review of important first-year topics is followed
		Honors	by in-depth study of more advanced topics in the College Board syllabus.
		HOHOIS	
			Topics included in the course are atomic structure, stoichiometry,
			kinetics, equilibrium, thermodynamics, and nuclear chemistry. The
			course meets all laboratory requirements of the AP syllabus. The two
			main goals of this AP Chemistry course are to help students develop a
			conceptual framework for chemistry and an appreciation of science as a
			process. A primary emphasis in this course is on developing an
			understanding of concepts and their application rather than on
			memorizing terms and technical details. The objective of this AP course is
			to prepare students for the AP examination. Colleges and universities
			often award placement and course credit to students who obtain high
			scores on their AP examinations.
PHYSICS HONORS	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	PHYSICS HONORS is intended for the student that has not yet had a
		Chemistry or	physics course in high school. This course is designed to familiarize
		Chemistry	students with basic physics principles and concepts from a Christian
		Honors	worldview. This course is designed for the student who does not plan to
		and	major in science in college, but who wants to better understand the
		Algebra II or	physical world. It is concept oriented, rather than math oriented. Labs
		Algebra II	are performed regularly to demonstrate the principles addressed during
		Honors.	class time.
		Should be	
		currently	
		enrolled in	
		Algebra II or	
		Algebra II	
		Honors.	
EARTH SPACE	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	<b>EARTH SPACE SCIENCE</b> focuses on the study of space, geologic structures
SCIENCE		Biology or	and forces, the waters on our planet, and the atmospheric forces that
(not offered		Biology	shape our world. Students will explore the Earth's spheres including the
during the 2024-		Honors	geosphere, hydrosphere, cryosphere, atmosphere, and the cycles of the
2025 school year)			Earth such as the water and carbon cycle. Students will learn about
			scientific inquiry, geologic time, space exploration, the solar system, and
			the universe.
ENVIRONMENTAL	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	<b>ENVIRONMENTAL SCIENCE</b> explores global environmental issues. The
SCIENCE		Biology or	earth's systems that promote life and major issues facing our world such
		Biology	as climate change, pollution, and loss of biodiversity are introduced.
		Honors	Emphasis is placed on problem solving, personal responsibility, and
			action. Field trips are an integral part of this class.
AP	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	AP ENVIRONMENTAL SCIENCE is designed to be the equivalent of a one-
<b>ENVIRONMENTAL</b>	1	Piology	acceptant introductions, called level Environmental Calenda accuracy It is
		Biology	semester, introductory, college-level Environmental Science course. It is
SCIENCE		Honors	an interdisciplinary course, involving topics in biology, chemistry,

	1	1	
MARINE SCIENCE	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	economics, and ethics. The course is designed to promote environmental science literacy while providing students with concrete laboratory and field skills. Additionally, the course provides each student with a sense of stewardship and a realization that each individual can make a difference in the world. The objective of this AP course is to prepare students for the AP examination. Colleges and universities often award placement and course credit to students who obtain high scores on their AP examinations.  MARINE SCIENCE HONORS: Understand the importance of marine
HONORS		Biology or Biology Honors	environments and their impact on biodiversity, climate, society, and the economy. In marine environments, learn their relationship to biology, chemistry, ecology, geology, and geography. Explore marine estuaries and tropical coral reefs on field trips. Conduct various labs, experiments, and dissections with marine organisms. Collect local water samples and specimens to create an abiotic and biotic database. Create an interactive marine environment project utilizing google earth. Apply the Biblical Creation Mandate to marine ecosystems and resources. Learn the local impacts of invasive lionfish, sea turtle nesting, shark migrations, plastics in the ocean, and the sargassum seaweed algae bloom. Partner with local shark tagging research projects. Utilize a vast amount of multimedia resources to explore marine ecosystems throughout the world.
ANATOMY & PHYSIOLOGY HONORS	YEAR	11 <sup>th</sup> -12th Biology or Biology Honors and Chemistry or Chemistry Honors	ANATOMY & PHYSIOLOGY HONORS covers the study of the human body. Students become acquainted with the structure and function of the human body. Clear and concise use of medical terminology is important, and thus a main focus. The students learn directional terms, cells, tissues, organs, and organ systems. This course is designed for the student who is seriously contemplating a career in health care, athletics, and/or science.
AP PHYSICS 2	SEM	12 <sup>th</sup> Physics Honors or Principles of Engineering and currently enrolled or have taken Precalculus or an equivalent course.	AP PHYSICS 2 is an algebra-based, introductory college-level physics course. Students cultivate their understanding of physics through inquiry-based investigations as they explore these topics: fluids; thermodynamics; electrical force, field, and potential; electric circuits; magnetism and electromagnetic induction; geometric and physical optics; and quantum, atomic, and nuclear physics.

### **SOCIAL STUDIES COURSE SEQUENCE**

# **SOCIAL STUDIES**

Course Name	Term	Grade/ Prerequisite	Course Description
		- Toroquione	Requirements: All students must complete a semester of history in ninth grade and then a full year of history in tenth through twelfth grade. Required history courses include World History or AP World History, US History or AP US History, an economics course (Economics, AP Macroeconomics or AP Microeconomics), and a government course (US Government, Constitutional Law Honors, DE American Federal Government or AP US Government)
ANCIENT HISTORY	SEM	9 <sup>th</sup> -12 <sup>th</sup>	ANCIENT HISTORY provides students a platform to explore major themes and trends within Ancient History. This course provides students with opportunities to develop and apply their understanding of methods and issues involved in the investigation of the ancient past. Students will have the opportunity to engage in the study of a range of geographic and environmental features, people, places, events, and developments of the ancient world. Beginning with an introduction to Pre-history, students will explore Mesopotamia, Egypt, China, India, Persia, Greece, and Rome. The course combines historical inquiry, lecture, and project-based learning to prepare students to think like historians as they explore the origins of culture, government, economics, and religion. The students will be introduced to new strategies for research, writing and presentation on historical topics. Student research will culminate in a research project that includes a formal presentation defending their findings.
ANCIENT HISTORY HONORS	SEM	9 <sup>th</sup> -12 <sup>th</sup>	ANCIENT HISTORY HONORS is the more advanced version of Ancient History. This course provides students a platform to explore major themes and trends within Ancient History while adding historical research and analytical writing skills. The course is designed to prepare students for the AP and Honors courses in 10 <sup>th</sup> grade. This course provides students with opportunities to develop and apply their understanding of methods and issues involved in the investigation of the ancient past. Students will have the opportunity to engage in the study of a range of geographic and environmental features, people, places, events, and developments of the ancient world. Beginning with an introduction to Pre-history, students will explore Mesopotamia, Egypt, China, India, Persia, Greece, and Rome. The course combines historical inquiry, lecture, and project-based learning to prepare students to think like historians as they explore the origins of culture, government, economics, and religion. "Students will be introduced to new strategies for research, writing and presentation on historical topics. Student research will culminate in a research project that includes a formal presentation defending their findings."

AP HUMAN GEOGRAPHY	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	AP HUMAN GEOGRAPHY is the equivalent to an introductory college course in human geography. Human geography is the study of how humans interact with and affect the world around them. This course will study the patterns and processes of human interaction through exploring the topics of Geography: Nature and Perspectives, Population and Migration, Political Organization of Space, Agriculture, Industrialization, Economic Development, and Cities and Urban Land Use. Students will compare different cultures through the lens of these topics and be able to apply this knowledge directly to their world. Globalization, the increasing interaction of people throughout the world due to technology, will be an overarching topic as students see how the world is interconnected economically, socially, and politically. The objective of this AP course is to prepare students for the AP examination. Colleges and universities often award placement and course credit to students who obtain high scores on their AP examinations.
WORLD HISTORY	YEAR	10 <sup>th</sup> -12 <sup>Th</sup>	WORLD HISTORY facilitates an understanding of the development of civilizations by examining the past, thus preparing for future participation in a global community. Students use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civil, social, and employment settings. The students will be introduced to new strategies for research, writing and presentation on historical topics. Student research will culminate in a research project that includes a formal presentation defending their findings. "Students will be introduced to new strategies for research, writing and presentation on historical topics.  Student research will culminate in a research project that includes a formal presentation defending their findings."
WORLD HISTORY HONORS	YEAR	10 <sup>th</sup> -12 <sup>Th</sup>	WORLD HISTORY HONORS is the advanced course which facilitates an understanding of the development of civilizations by examining the past, thus preparing for future participation in a global community. Students use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civil, social, and employment settings.
AP WORLD HISTORY	YEAR	10 <sup>th</sup> -12 <sup>Th</sup>	AP WORLD HISTORY is equivalent to an introductory level college World History course. AP World History is designed to give students an overview of global history and provide students with the analytical skills and knowledge necessary to evaluate historical events. The Americas, Africa, Asia, and Europe are studied. As often as possible, this particular AP course is taught in college format, utilizing lectures, collaborative work, presentations, and other various teaching methods. This rigorous history course helps students develop the skills necessary to construct and evaluate arguments, research, and use documents and other primary data, assess issues of change and continuity over time, see global processes and patterns over time, compare among and within societies, and make generalizations. The objective of this AP course is to prepare students for

			the AP examination. Colleges and universities often award placement and course credit to students who obtain high scores on their AP examinations.
US HISTORY	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	US HISTORY is designed to instill in students an understanding of and an appreciation for the continuities and changes in the history, values, and principles of the United States. The course is divided into two semesters covering content from the time period 1865-present. Topics that will be covered in the first semester include but are not limited to: reconstruction and manifest destiny, urbanization and immigration, progressive reform movements, WWI, and the Great Depression. In the second semester, students study U.S. involvement in WWII, the Cold War, the Civil Rights Movement, and economic, cultural, and political developments in the late 20th and early 21st centuries. The course emphasizes project-based collaboration and learning, historical thinking skills, and evidence-based argumentative writing. The students will be introduced to new strategies for research, writing and presentation on historical topics. Student research will culminate in a research project that includes a formal presentation defending their findings.
US HISTORY HONORS	YEAR	11-12 <sup>th</sup>	US HISTORY HONORS provides students with an intensive study of United States history apart from the curriculum and framework set by the College Board (AP United States History). Although the course will cover the same content as the regular level class, students will be learning material at a rigorous pace to allow for opportunities for independent research and classroom collaboration. This course demands greater independence and responsibility and concentrates on the development of higher-level thinking and writing skills. The type of work students should expect includes analyzing historical documents and supplementary readings, working in the context of thematically categorized information, participating in Socratic seminars/discussions, document-based writing, contrasting opposing viewpoints, and a semester long research project.
AP US HISTORY	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	AP US HISTORY is intended for students who wish to complete studies equivalent to an introductory level college United States History course. It is designed to provide students with the analytic skills and factual knowledge necessary to deal critically with the problems and materials in American history. Students learn to assess historical materials, their relevance to a given interpretive problem, their reliability and importance, and to weigh the evidence and interpretations presented in historical scholarship. Students develop skills necessary to arrive at conclusions on the basis of an informed judgment and to present ideas concretely and persuasively. Students obtain grounding in the chronology of American history and in the major interpretive questions that emerge through a careful study of the period. The textbook, with supplementary readings in the form of documents, essays, or books, provides the framework to build upon critical thinking in the future. The objective of this AP course is to prepare students for the AP examination. Colleges and universities often award placement and course credit to students who obtain high scores on their AP examinations.

US GOVERNMENT	SEM	12 <sup>th</sup>	US GOVERNMENT seeks to build knowledge of the history of our
			government and Constitution. Students learn the structure of our government and the decision- making processes political officials make.
			This course also seeks to challenge students to connect the current events in our society to the decisions made at every level of government.
CONSTITUTIONAL	SEM	11 <sup>th</sup> -12 <sup>th</sup>	CONSTITUTIONAL LAW HONORS students will examine the history of the
LAW HONORS	JEIVI	Seniors can	U.S. Constitution along with its underlying biblical values and themes.
		take the	Students will explore concepts of separation of powers, branches of
		course to	government, and whether branches are fulfilling intended roles under the
		meet their	constitution. Students will learn about key rights provided and how they
		US	play out in modern culture by studying U.S. Supreme Court cases.
		Government	play out in model in culture by studying old supreme court cuses.
		requirement	
		for	
		graduation	
DE AMERICAN	SEM	11 <sup>th</sup> -12 <sup>th</sup>	DE AMERICAN FEDERAL GOVERNMENT students will examine the history
FEDERAL		11 <sup>th</sup> & 12 <sup>th</sup>	of the U.S. Constitution along with its underlying biblical values and
GOVERNMENT		grade	themes. Students will explore concepts of separation of powers, branches
		students	of government, and whether branches are fulfilling intended roles under
		with a	the constitution. Students will learn about key rights provided and how
		minimum	they play out in modern culture by studying U.S. Supreme Court cases.
		unweighted	Dual Enrollment (DE) courses will remain on the student's permanent
		3.0 GPA are	college transcript.
		eligible to	
		enroll into	
		DE classes	
ECONOMICS	SEM	11 <sup>th</sup> -12 <sup>th</sup>	<b>ECONOMICS WITH FINANCIAL LITERACY</b> is a practical social studies course
WITH FINANCIAL			designed to help students better understand and function in the society in
LITERACY			which we live. The course is a combination of the theories of
		4 O th	macroeconomics and personal finance.
AMERICAN FREE	SEM	12 <sup>th</sup>	AMERICAN FREE ENTERPRISE HONORS is intended to help develop
ENTERPRISE		Fulfills Econ	thoughtful, active, knowledgeable citizens who understand the American
HONORS		requirement	model of government. Concepts covered in this course include private
			ownership, personal responsibility, structure, and functions of local, state,
			national government within a constitutional framework, rights and responsibilities of citizenship, free markets, and the importance of political
			participation. This course fulfills the 12 <sup>th</sup> grade Economics requirement.
AP MICRO	SEM	12 <sup>th</sup>	AP MICROECONOMICS gives students a thorough understanding of the
ECONOMICS	JLIVI	12	principles of economics that apply to the functions of individual decision
LCONOMICS			makers, both consumers and producers, within the economic system. It
			places primary emphasis on the nature of functions of product markets
			and includes the study of factor markets and of the role of government in
			promoting greater efficiency and equity in the economy. The objective of
			this AP course is to prepare students for the AP examination. Colleges and
			universities often award placement and course credit to students who
			obtain high scores on their AP examinations.

AP MACRO ECONOMICS	SEM	12 <sup>th</sup> AP Micro Economics	AP MACROECONOMICS is designed to give students a thorough understanding of the principles of economics that apply to an economic system as a whole. The course places emphasis on the study of national income and price-level determination. Students develop a familiarity with economic performance measures, the financial sector, stabilization policies, economic growth, and international economics. Basic economic concepts and principles, measurement of economic performance, national income and price determination, financial sector information, inflation, unemployment, stabilization policies, economic growth and productivity, open economy as it relates to the impact from supply and demand, and international trade and finance are covered. The course has an intense workload and reading schedule that is the equivalent of an introductory college macroeconomics course. Additionally, the material far exceeds the material covered in a regular economics class. The objective of this AP course is to prepare students for the AP examination. Colleges and universities often award placement and course credit to students who obtain high scores on their AP examinations.
MILTARY HISTORY HONORS	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	MILITARY HISTORY HONORS is a survey of the history of Western warfare from the age of gunpowder to the present and concentrates on the evolving methods and theories of warfare in Europe and the United States. Its emphasis on how political, social, economic, and technological factors have combined to shape various changes and continuities in the nature of Western warfare. The course includes writing requirements.
DE GENERAL PSYCHOLOGY	YEAR	11 <sup>th</sup> -12 <sup>th</sup> 11 <sup>th</sup> & 12 <sup>th</sup> grade students with a minimum unweighted 3.0 GPA are eligible to enroll into DE classes	<b>GENERAL PSYCHOLOGY</b> is a college level class taught from a Christian perspective which gives an overview of the major sub-disciplines of psychology as a science and as a helping profession, including physiology of behavior, learning, motivation, and abnormal and social psychology. It provides a reasonable understanding of the field and enables the student to follow up in areas of interest. Dual Enrollment (DE) courses will remain on the student's permanent college transcript.
DE LIFE SPAN DEVELOPMENT	YEAR	11 <sup>th</sup> -12 <sup>th</sup> DE General Psychology	LIFE SPAN DEVELOPMENT is a college level class taught from a Christian perspective which gives an overview of Dual Enrollment (DE) courses will remain on the student's permanent college transcript.

# **WORLD LANGUAGES**

Course	Term	Grade/	Course Description
Name		Prerequisite	
		Oth 40th	Requirements:  All students are required to complete two consecutive high school level full-year courses of the same language. Students may begin high school level language courses in 8 <sup>th</sup> grade. Honors courses are offered for students in the 10 <sup>th</sup> -12 <sup>th</sup> grade. Advanced Placement for Spanish is offered to students that have completed Spanish III or Spanish IV Honors. All language classes are high school level courses.
FRENCH I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	FRENCH I introduces students to the French Language. The basic objectives of French I are to help each student attain proficiency in the four skills of listening, speaking, reading, and writing. The language is presented within the context of contemporary French-speaking world.
FRENCH II	YEAR	9 <sup>th</sup> -12 <sup>th</sup> French I and will be completed through The King's Academy Online	FRENCH II builds on the foundations taught in French I. Students are expected to carry on simple conversations and improve listening, speaking, reading, and writing skills. In addition, students gain a greater understanding of French culture through stories, projects, and videos. Written communication progresses from short sentence structure to a more cohesive paragraph level and will include past tense narration. Students are expected and required to participate orally in French in class when prompted.
FRENCH III HONORS	YEAR	10-12 <sup>™</sup> French II and will be completed through The King's Academy Online	FRENCH III HONORS provides mastery and expansion of skills acquired by the students in French II. Specific content includes expansion of vocabulary and conversational skills through discussions of selected readings. Contemporary vocabulary stresses activities which are important to the everyday life of the native language-speaking people. This course will also study the French culture. Students are expected and required to participate orally in French in class when prompted.
LATIN I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	LATIN I introduces students to the fundamentals of classical Latin. It pays specific attention to the study of grammar, vocabulary, and translation. Students are introduced to the development of the Latin language into its modern descendants including Spanish, Italian, and French. Throughout the course, students explore the history and culture of the Greco-Roman world and its influence on the Western world through projects and class lecture. Students will take the Beginning National Latin Exam in the spring and will have the opportunity to compete as members of the Junior Classical League (JCL) at the regional, state, and national level.
LATIN II	YEAR	9 <sup>th</sup> -12 <sup>th</sup> Latin I	<b>LATIN II</b> builds on the foundations of Latin I. It continues the development of reading and grammatical analysis skills with the goal of preparing students for the transition to authentic Latin. Students will explore additional historical and cultural topics from the Greco-Roman world via projects and class lecture. They will grow in their ability to make connections between the ancient and modern world. Students will take the Intermediate National Latin Exam in the spring and

			will have the opportunity to compete as members of the Junior Classical League
			(JCL) at the regional, state, and national level.
HONORS	YEAR	9 <sup>th</sup> -12 <sup>th</sup> Latin II	LATIN III HONORS serves to transition students from adapted to unadapted Latin texts. Using the foundation of Latin I and II, students will complete and solidify their grammatical knowledge by reading Latin authors from the late Republican period. They will analyze Latin texts as literature, paying special attention to rhetorical devices and themes. Students will also engage in class discussions and write about these topics and their connection to history. They will also explore cultural Greco-Roman topics and take the Intermediate Reading Comprehension National Latin Exam. Students will have the opportunity to compete as members of the Junior Classical League (JCL) at the regional, state, and national level.
LATIN IV	YEAR	10-12 <sup>TH</sup>	LATIN IV HONORS delves more deeply into the study of unadapted Latin texts.
HONORS		Latin III Honors	Using the foundation of Latin I-III, students will explore Latin authors from the late Republican and early Empire periods. They will analyze Latin texts as literature, paying special attention to rhetorical devices and themes. Students will also engage in class discussions and write essays about these topics and their connection to history. They will also explore cultural Greco-Roman topics and take the Advanced Prose or Poetry National Latin Exam. Students will have the opportunity to compete as members of the Junior Classical League (JCL) at the regional, state, and national level.
SPANISH I	YEAR	9 <sup>th</sup> -12 <sup>th</sup>	SPANISH I introduces the Spanish Language. The instructor approaches the class with an assumption that students have not previously been educated in the language. Starting with the basics, students learn grammar, vocabulary and about the culture of the Hispanic world to effectively communicate with a native Spanish speaker. Students focus primarily on the present tense of verbs, but there is also a basic introduction to the simple past (preterit) tense. Other grammar concepts (articles, adjectives, pronouns, interrogatives, etc.) are introduced and mastered during this course. As a World Language class, all students are expected and required to participate orally in Spanish in class when prompted.
SPANISH II	YEAR	9 <sup>th</sup> -12 <sup>th</sup> Spanish I or Latin I & Latin II	SPANISH II builds on the foundations taught in Spanish I. Students are expected to carry on simple conversations and improve listening, speaking, reading, and writing skills. In addition, students gain a greater understanding of Spanish culture through stories, projects, and videos. Written communication progresses from short sentence structure to a more cohesive paragraph level and will include past tense narration. This course includes the study of grammatical diagrams and socio-cultural information from the Spanish-speaking world. Students are expected and required to participate orally in Spanish in class when prompted.
SPANISH III HONORS	YEAR	10 <sup>th</sup> -12 <sup>th</sup> Spanish II	SPANISH III HONORS is designed to bridge the gap between the foundational and advanced courses. It solidifies what students have learned during their first two years of studying Spanish. In this course, an intense grammar review occurs. To further the student's knowledge, new materials are introduced in order to acquire a higher level of proficiency in communication, as well in written form. Students are introduced to literature through the readings of short stories from renowned Latin-American and Spanish writers.

SPANISH IV	YEAR	11 <sup>th</sup> -12 <sup>th</sup>	SPANISH IV HONORS is an advanced course conducted entirely in Spanish.
HONORS		Spanish III	Students are encouraged to speak exclusively in Spanish when conveying their
		Honors	opinions, ideas, or any form of communication during class time. Modern
			Hispanic literature is studied, an intensive advanced grammar review is
			conducted with more complex constructions, and a higher level of vocabulary is
			employed. Selected readings invite discussions of social and cultural issues,
			while reinforcing correct use of advanced grammar. Authentic materials is used
			and the course has a gradual development of the skills of vocabulary, reading,
			speaking, writing, listening, and culture.
<b>AP SPANISH</b>	YEAR	10 <sup>th</sup> -12 <sup>th</sup>	AP SPANISH LANGUAGE & CULTURE is an advanced course where students are
LANGUAGE		Spanish IV	taught to master proficiency of the Spanish language. The primary goals of the
& CULTURE		Honors	course are for the students to acquire college credit and strong language skills
			in the five C's: culture, communication, communities, connections, and
			comparisons. Students are exposed to the use of authentic materials where
			they will develop higher skills in vocabulary, speaking, writing, listening, and
			culture. The use of technological devices will be implemented regularly in order
			to achieve student success. The course is conducted completely in Spanish and
			students speak exclusively in Spanish when expressing their ideas, or any form
			of communication, during class time. The objective of this AP course is to
			prepare students for the AP examination. Colleges and universities often award
			placement and course credit to students who obtain high scores on their AP
			examinations.
