

Advanced Courses Supplemental Work EJCHS 2024-2025

All students enrolled in Advanced Placement courses are **expected** to participate in supplemental work prior to the beginning of their AP course. The goal of supplemental assignments is to build your prior knowledge and provide a preview of the first unit of study for each advanced course. We believe this will better prepare you for academic growth and the overall success of our advanced coursework programs. Assignments are not meant to be punitive, but to prepare students for the rigor of advanced coursework.

Students enrolled in 1st Semester AP courses will complete supplemental assignments before returning to school in August. Students enrolled in 2nd Semester AP courses will complete supplemental assignments before courses begin in January.

For each course in which you are enrolled, click on the hyperlink to find your assignments. Students only need to complete the assignments for the classes in which they are enrolled. Please reach out to your AP teacher with any specific questions.

<u>AP LITERATURE</u> <u>Ms. Linda Frederick</u>	<u>AP CALCULUS AB</u> <u>Ms. Lindsey Weinand</u>	<u>AP CHEMISTRY</u> <u>Dr. Robbie Bryan</u>
