

Green Acres Ballad

Feels like it was yesterday We all came together

We were looking for a little hope

And now, as we look back today

We know Green Acres is where we belong

One two three

Learning means everything

It opens our eyes to all that We can be

Chorus:

We are a kind pride of lions

We Welcome all to our tribe

Fighting so hard for some kindness

In a world that needs love as a guide

We rise as a strong team together

We run with our deep hearts inside

And We will keep counting our blessings

That We are all part of this life
