

2024-25 Back-to-School Open House and Orientation

Education is a collaborative effort; when students, families, and teachers work together, it can lead to a successful academic year. Back-to-School Open House and Orientation is an excellent chance to connect with your child's teachers and build a strong relationship. Staff will be available for prospective students to hear about the instructional program from teachers. Students and parents/guardians can ask questions about classes and other topics.
