

Driver Education Fee Waiver

Dear Parent/Guardian,

Students who are eligible for free or reduced price lunch status are also eligible for a waiver of the \$45 fee to take the Driver Education class. If your child receives free or reduced price lunch and you wish to apply for the Driver Education fee waiver, you must complete and sign this release of information form. Completing this form will allow the School Nutrition Department of Craven County Schools to verify whether your child is eligible for free or reduced price meals.

Submit this form to the person that collects the Driver Education fees at your school so they can forward it to the Student Nutrition Director for verification. Any student who submits a waiver form but is determined to be ineligible for the waiver will be required to pay the \$45 fee at the next scheduled class following notification of ineligibility. If the fee is not paid, the student will be dropped from the class.

I authorize the Director of School Nutrition for Craven County Schools to share information regarding my free and reduced price lunch status to the Driver Education Coordinator at my child's school so that my fee for Driver Education may be waived.
