

Section 2 - Supplements

Because the budget is approved prior to the school year based on anticipated revenue and expenses, minor deviations from expectations during the year may necessitate adjustments or postponement or cancellation of implementation of supplements. Therefore, it is each supervisor's duty to ensure district and school resources are utilized wisely and appropriately. Immediate notification by the supervisor to the Office of Human Resources is required when a change in an employee's supplement is made.

Each school's Principal is responsible for submitting school supplements to the Office of Human Resources.

First Aid/CPR Certification is required for supplemented Coaches, Band, Chorus and ROTC Sponsors. The Office of School Operations will be responsible for ensuring compliance.
