

## **Homework**

### Section A - Introduction

Homework is an important part of the District's instructional program with the primary goal of increasing student learning. Homework assignments are intended to further a student's classroom experience and support learning. The Superintendent or designee shall provide guidance to help ensure that:

1. Homework is used to introduce, reinforce, or apply concepts, principles, and skills;
2. Homework is not assigned for disciplinary purposes;
3. The frequency, length, and rigor of homework are determined by the teacher's professional judgment in collaboration with the teacher's department supervisor;
4. The Superintendent or designee will work with teachers and administrators across the district to develop a set of principles for effective homework practices that are based on current research and best practices.
