## Plan Summary [LCAP Year]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Excelsior Charter School is an accredited and state-funded charter school comprised of 7 campuses located in San Bernardino County serving 7th through 12th grade students. Excelsior Charter Schools has a total enrollment of 2,180 students with the ethnic diversity of the student body comprised of 1259 Hispanic (57.8%), 563 White (25.8%), 210 African American/Black (9.6%), 104 Two or more races (4.8%), 16 Asian (1%), 14 Filipino (1%). Excelsior’s program is a non-classroom funded, hybrid learning program that includes in-person, virtual-synchronous and independent study classes, along with dual (college) enrollment and Career Technical Education opportunities.

Once enrolled at Excelsior Charter Schools, each student receives a personalized class schedule tailored to their unique educational needs. This schedule is meticulously crafted in accordance with a specialized education plan developed by a credentialed counselor or administrator. Students are offered a variety of learning formats, including on-campus classes, dual enrollment opportunities, virtual classes, and independent study courses. On-campus classes are available from Tuesday through Friday across all Excelsior locations. Reflecting our non-classroom-based funding model, students are offered any combination of on-campus, virtual, independent study, or dual enrollment classes, provided they meet academic prerequisites.

Excelsior Charter Schools assess academic progress using standardized assessments to ensure consistency across the system. Quarterly summative exams, along with formative quizzes and tests, are administered in line with the specific pacing of each course. The curriculum for all core and most elective courses is segmented into units that span a quarter, featuring daily goals that adhere to state standards. The Canvas Learning Management System (LMS) serves as the main platform for curriculum access, where a pacing guide outlines daily tasks to help students manage their workload effectively within the designated timeframe. Additionally, parents can engage with the curriculum,

communicate with teachers, and track their child’s academic progress via a separate login in Canvas. To further support preparation for state testing in the spring, Excelsior uses STAR Renaissance assessments for reading and math and Smarter Balanced Interim Assessments. These tools are integral for monitoring progress and preparing students effectively for their academic Smarter Balanced Assessments.

Excelsior Charter Schools offers comprehensive mental health and wellness support for both students and staff. The school employs a mix of school counselors and virtual counseling services, along with proactive health and safety monitoring of communications. These measures ensure timely coordination with external mental health services to support the well-being of our school community.

Effective communication and teamwork are foundational to the success of our programs at Excelsior Charter Schools. We strive to foster strong connections with our students and their families. Our distinctive approach includes the entire team of staff who work closely with students, a comprehensive and interactive Learning Management System, and a variety of class formats such as on-campus, virtual, independent study, and dual enrollment options. Excelsior’s innovative, hybrid educational model is tailored to address the diverse needs of students, preparing them comprehensively for their future beyond high school. We are committed to enhancing academic performance as reflected in the California Dashboard, driven by targeted improvements in Math, English, progress of English learners, and college/career readiness.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Excelsior Charter Schools demonstrated growth in all academic indicators on the California School Dashboard for the year 2023. Growth was published in English Language Arts with a point increase of 4.4 points while Mathematics was recorded at a rate of 2.5 points. The point increase threshold for Mathematics was not enough to publish “increased” on the indicator, instead this was published as “maintained”. The English Learner Progress Indicator was recorded with an increase of 2.5% moving the school’s overall indicator into the Green and status of medium. The final academic indicator included CCI which was baseline year for published data. The school demonstrated a medium status for this indicator with 36.7% of the graduates receiving prepared identification.

Excelsior Charter Schools non-academic indicators include the Graduation Rate of 91.6% (increase of 2.4%), Chronic Absenteeism rate of 1.6% (increase of 1.1%) and Suspension Rate of 3.1% (increase of 1.6%). These indicators demonstrate overall success for the school as compared to surrounding schools and the state overall. The increases in chronic absenteeism and suspension rate are two indicators the school is focusing on moving into the 2024/2025 school year.

Excelsior Charter Schools English Learner student group was recorded at the lowest levels in both English Language Arts and Mathematics. This student group declined in English Language Arts 42.9 points and declined in Mathematics 24.3 points as compared to the prior year. The 2023 school year had 62% increase of enrollment for the English Learner student group which led to the identification of additional needs and resources.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The LCAP was influenced by the immediate shared feedback amongst all stakeholders. The frequency of the meetings was dependent upon the time of year and topic that surfaced as aligned with the school's calendar and terms. Most input came at the conclusion of each school quarter and semester. Identified needs came through the collaborative data review process as aligned with the release of the CA School Dashboard, the conclusion of each semester, and the timing of internal benchmark data. The school additionally created an internal tracking dashboard for each school site to review progress as aligned with the 2023/2024 LCAP. This dashboard was utilized internally with district administration to support each school site individually under the leadership and vision of the school site's principal. Educational partners

shared celebrations of growth areas while identifying needs in basic services and student and family engagement. With the primary LCAP Goals of 2023/2024 being academic, stakeholders shared additional needs to support our student and family relationships with teachers, the development of a consistent PBIS program, and additional supports for our English Learners, Special Education and full-time independent study students. Student performance equity gaps were identified from both state and internal data for these three groups of students which has driven changes to the school's goals and actions for the new LCAP cycle.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
Goal #1	Excelsior Charter Schools will provide clean campuses, access to technology, sufficient instructional materials, and appropriately credentialed teachers and support staff at all school sites, in order to engage students in high-quality learning facilitated by a diverse, highly qualified staff.	Conditions of Learning

State Priorities addressed by this goal.

This commitment aligns with state priorities, including Priority 1 - Basic Conditions of Learning, Priority 2 - State Standards for Conditions of Learning. and Priority 7 - Course Access for Conditions of Learning

An explanation of why the LEA has developed this goal.

Excelsior Charter Schools developed this goal in alignment with the above referenced LCFF priorities after diligent collaborative reviews of the CA State Dashboard, CALSAAS credentialing reports, Williams' report data, and internal student data. Stakeholders identified equity gaps for student groups such as Special Education, English Learner, and Independent Study students as aligned with state standards. Improved services were identified as a need for these specific groups. Resource alignment was discussed and reviewed to ensure these groups as well as all students received equitable access to basic services such as being assigned highly qualified teachers, having neat and orderly campuses with adequate space for academics as well as social and emotional needs, and having equitable

educational opportunities regardless of the method of instruction (in-person, hybrid, or independent study). The perspectives from survey data shared that not all sites had the same opportunities for SEL needs beyond classroom space for academics. Additionally, course access for Special Education, English Learner, and Independent Study students was reviewed through internal analysis of master schedules, stakeholder surveys, and transcript reviews. The need for more teaching staff and campus opportunities arose through these collaborative efforts which led to this goal's creation.

## Goal

Goal #	Description	Type of Goal
Goal #2	Excelsior Charter Schools will provide a rich academic program grounded in equity-based practices with measurable impact on middle and high school success indicators. This includes providing instructional support for English Learners (ELs), Special Education (SPED), Foster Youth (FY), Homeless (HL), Hispanic (HI), at-risk students, and struggling learners.	Student Outcomes

State Priorities addressed by this goal.

The district's commitment is designed to offer students choices that prepare them for college and career pathways, aligning with State Priorities: Priority 4 - Pupil Achievement for Pupil Outcomes, Priority 5 - Pupil Engagement, and Priority 8 - Other Pupil Outcomes for Pupil Outcomes

An explanation of why the LEA has developed this goal.

Excelsior Charter Schools developed this goal in alignment with the above referenced LCFF priorities after diligent and collaborative reviews of the academic indicators on the CA State Dashboard, annual Summative and Interim CAASPP and ELPAC data, as well as internal local benchmark and student achievement data as recorded within the LEA's student information system. A collaborative and ongoing review of these data metrics revealed ongoing growth necessary for all students within Excelsior Charter Schools but also found an increased need for the student groups of English Learners, Special Education, Foster, Homeless, and the students completing all courses under the independent study mode of instructional delivery. These academic performance achievement gaps for these groups of students require additional monitoring, support, and resources. The goal includes the "all students" group as well to ensure the LEA closes the achievement gaps identified in Mathematics, English Language Arts, the College and Career Indicator (CCI), and the English Learner Progress Indicator (ELPI) as compared to the state of California overall.

## Goal

Goal #	Description	Type of Goal
Goal #3	Excelsior Charter Schools will provide an equity-centered safe learning environment that supports a positive school climate through student and family engagement, student and staff success, and parent involvement.	Engagement

State Priorities addressed by this goal.

This commitment to involving the whole family and community in student learning and well-being aligns with State Priorities: Priority 3 - Parental Involvement for Engagement; Priority 5 - Pupil Engagement for Engagement; and Priority 6 - School Climate for Engagement

An explanation of why the LEA has developed this goal.

Excelsior Charter Schools developed this goal in alignment with the above referenced LCFF priorities after diligent and collaborative reviews of the California School Dashboard indicators of Suspension Rate and Chronic Absenteeism, annual stakeholder survey data, attendance rates, and school wide student intervention data. These data sources informed us of the need to improve in school climate and family engagement. Stakeholders identified trends and patterns as revealed within the data and during stakeholder engagement meetings that school culture and climate needs improvement as coupled with family involvement and student engagement. The LEA revised its instructional models within the prior LCAP cycle to better serve the needs of all students as academics demonstrated improvement when students had higher levels of accountability with in-person or synchronous instruction. However, the school climate and involvement of families decreased according to survey data under this change as the school's prior model included a requirement for all students to come to campus once per unit to meet with their assigned teacher. The new requirement of meeting with a non-credentialed staff member to meet with families did not provide the same level of service that families were accustomed to, and family involvement lessened.
